ONTARIO ENERGY BOARD

I am a Senior Citizen and I built a new electrical heated home in 1963.

I was the first person to install Radiant heating cable in the ceiling in Peterborough.

I do not nor can not install duct. work in this home to convert to natural gas heating and therefore at the mercy of the Utilities to heat my home in the Winter months by electric.

This proposed 3.5% hike in Hydro rates from January to April sure doesn't help people with electric heat.

I think that a block of Kilowatt hours be considered at this time of year.

Yours Truly
Anthony Garton
