ONTARIO ENERGY BOARD

Att: BOARD SECRETARY.

Subject: OEB File Number EB-2007-0681

I object to the proposed 18.7% increase over the next 4 years for a residential customer using 1,000 KWH.

During the past 3 years, my hydro bill has gone up from \$1.0127 per KWH to \$1.27508 or an increase of 25%.

Since Ont. Hydro took over our local utility in 2000, I feel service interruptions, and time to restore them, has increased significantly, probably due to the fact that our small (1000 resident) community is now on the bottom of the list for service.

When you add the proposed 18.7% 4 year increase to the past, and probable 25% future 3 year increase, I come up with close to a 50% 4 year increase.

Because of the items listed above, I strongly object to the above proposed increase.
