ONTARIO ENERGY BOARD

File no. EB-2007-0681

Dear Madam or Sir

In regard to the Hydro One application for changes resulting in harmonization of its rates for electricity distribution:

Since we are not in the group of consumers that might experience an increase of less than 1% on the total electricity bill, but rather in an area that will find an average increase of 18.1% at the end of four years, we are writing to object to this change.

Many of our friends and neighbours in North Dundas are retired, on fixed incomes, and would find this increase onerous, as might younger working families. It does seem like a very large increase. Would this change be revenue neutral for Hydro One?

Thank you for your consideration of our strong objections to this proposal.

Yours truly

Mary Taylor
