ONTARIO ENERGY BOARD  
OFFICE OF THE BOARD SECRETARY

*5/6/08*  
Ontario Energy Board  
2300 Yonge St Box 2319  
Toronto, ON M4P 1E4, Canada

To Whom It May Concern,

Optimal Technologies develops solutions to help power utilities, businesses and consumers optimize their energy usage. Optimal's product suite includes supply side electric power grid optimization and analysis software, called AEMPFAS (aim-fast), and a demand side energy efficiency and automation system called SUREFAST.

One of our representatives, Shawn Bayati, is interested in attending the June 26, 2008 OEB Regulatory hearing with Hydro One (EB-2007-0681) as an observer.

If that session is currently closed, he would like to attend the July 7, 2008 OEB Regulatory hearing with Hydro One (EB-2007-0681) as an observer or the July 8, 2008 hearing (EB-2007-0681) as an observer.

Please contact me via email: [deborahc@otii.com](mailto:deborahc@otii.com) or at 919.459.9858 to further discuss this.

Sincerely Yours,

Deborah Curcio  
Business Relationship Specialist
