Dear Sir/Madame:

**RE: HYDRO ONE NETWORKS DISTRIBUTION RATE APPLICATION
OEB FILE # EB-2007-0681**

Council of the Corporation of the Town of Latchford discussed Hydro One Networks Distribution Rate Application as noted above and pursuant to receipt of the Notice from Hydro One, at the Regular Meeting of Council held February 11th, 2008, and passed the following resolution:

"Resolution No. 08/72

Moved By: Jim Bennett
Seconded By: Larry Anderson

Be it resolved that the information notice from Hydro One Networks advising that they are seeking OEB approval to harmonize its customers' rates which will result in an average delivery rate increase for Latchford be received and it be opposed by Council."

Council noted that as they understand when Latchford Electric was purchased by Hydro One, Latchford customers and Latchford Electric were promised that the rates for customers in Latchford would remain the same as they were paying to Latchford Electric.

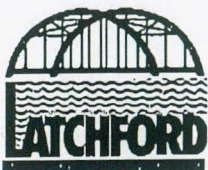

Council's opinion is that this application is not appropriate and strongly objects to the direction Hydro One is taking.

The Council of the Corporation of the Town of Latchford looks forward to hearing from the Ontario Energy Board in this regard.

Yours truly,

Betty Gibson, Clerk-Treasurer

c. David Ramsay, MPP, Timiskaming District

Dear Ms. Stea:

RE: HYDRO ONE NETWORKS DISTRIBUTION RATE ADVERTISEMENT

Council of the Corporation of the Town of Latchford discussed Hydro One Networks quest for OEB approval to "harmonize its customers' rates" at the Regular Meeting of Council held February 11th, 2008, and passed the following resolution:

"Resolution No. 08/72

Moved By: Jim Bennett

Seconded By: Larry Anderson

Be it resolved that the information notice from Hydro One Networks advising that they are seeking OEB approval to harmonize its customers' rates which will result in an average delivery rate increase for Latchford be received and it be opposed by Council."

According to the Town's records, when Latchford Electric was purchased by Hydro One, Latchford customers and Latchford Electric were promised that the rates for customers in Latchford would remain the same as they were paying to Latchford Electric. It is not appropriate that Hydro One should now seek approval to increase the rates.

By copy of this letter, the OEB and David Ramsay, MPP for Timiskaming will be informed that Council does strongly object to the direction Hydro One is taking.

The Council of the Corporation of the Town of Latchford will be participating in the OEB Process to ensure the OEB does make an informed decision.

Yours truly,

Betty Gibson, Clerk-Treasurer
