Dear Robin Sadko:

**Re: Hydro One Networks Inc.
Leave to Construct Application – Waasigan Transmission Project
Ontario Energy Board File Number: EB-2023-0198**

This letter acknowledges receipt of your letter dated June 26, 2023, concerning the Waasigan transmission line project (the Project) proposed by Hydro One Networks Inc. (Hydro One).

The OEB received Hydro One's leave to construct application for the Project on July 31, 2023. The OEB has assigned File Number EB-2023-0198 to Hydro One's application (Application).

The OEB expects to issue a Notice of Application shortly. The Notice will set out the process for participating in the OEB review of the Application and the scope of issues that will be considered by the OEB in the proceeding. The OEB will direct Hydro One to publish the Notice in local newspapers and to serve it on all landowners that may be affected by the Project.

Once the Notice of Application is issued, the Neighbours on the Line group can consider whether it wishes to apply to be an intervenor in the proceeding or file a comment letter. The OEB will review all requests for intervenor status and provide direction on the scope of the proceeding and other procedural matters. The OEB website has additional information on [how to participate in a hearing](#).

Please refer to file number EB-2023-0198 in all future correspondence to the OEB regarding the Application. All information related to Hydro One's application must be filed with the Registrar at registrar@oeb.ca.

Yours truly,

John Pickernell
Manager, Applications Administration
