Mississauga, Ontario, L5P 1A2

Dear Mr. Vieira,

**Re: Pearson International Fuel Facilities Corporation  
Additional Storage and Supply Project  
Application for Leave to Construct  
Board File Number: EB-2007-0009**

This will acknowledge receipt on January 8, 2007 of your application for the above-noted project. The Board has assigned file number EB-2007-0009 to this proceeding. Please refer to this file number in all future correspondence to the Board regarding this matter.

Our normal processing time for a Leave to Construct application is 130 days from the date of filing of the application, assuming that the application is compliant and that the matter can proceed by way of a written hearing. This would result in an expected Board Decision date of May 18, 2007.

We note that the proposed pipeline construction schedule indicates an OEB approval date of late April 2007. We will endeavour to expedite the process as much as possible. The actual time required to complete the process will depend on a number of factors including the need for interrogatories, the extent of intervenor involvement, major issues that arise etc. As per Board Staff's discussion with Ms. Anna Namiotkiewicz, we will require a pipeline route map suitable for publication with the Notice of Application as soon as possible.

If you have any questions or require further information, please contact Robert Caputo, Project Advisor, Market Operations at 416-440-7632 or e-mail [robert.caputo@oeb.gov.on.ca](mailto:robert.caputo@oeb.gov.on.ca).

Yours truly,

Peter H. O'Dell  
Assistant Board Secretary

c. Mr. George Vegh, McCarthy Tetrault
