**RE: Enbridge Gas Inc. (Enbridge Gas)  
2024 Rebasing Application  
Ontario Energy Board (OEB) File Number: EB-2022-0200**

Enbridge Gas filed a letter dated September 26, 2023, informing the OEB of its intent to file updated Phase 2 evidence on October 26, 2023. The letter recommended starting Phase 2 as soon as possible to allow Enbridge Gas to prepare its 2025 rates application in a timely manner to set rates on a prospective basis effective January 1, 2025.

The OEB would prefer Enbridge Gas to file its updated Phase 2 evidence in January 2024. This is preferable to filing now to mitigate the possibility of updates being required later. The OEB is of the view that filing in January 2024 will allow sufficient time for approval of 2025 rates in time for January 1, 2025 implementation.

The OEB expects to issue the Phase 1 decision by the end of 2023.

Yours truly,

Nancy Marconi  
Registrar
