Subject: File EB-2023-200 Enbridge Sandford Community Expansion Project NEED HEARING DATE
CHANGE{4e338f7a-6155-11ee-9b0e-005056aea2fb}

Regarding: File EB-2023-200 Enbridge Sandford Community Expansion Project Leave to Construct
Ontario Energy Board Notice.

The notice is printed in the local paper on Thursday, September 21, 2023

The next Uxbridge Council meeting on September 23 was too close for any further topics to be
added.

I have submitted a request to speak at the next council meeting about this expansion project. I have
submitted documentation for Council to consider and I have already received a telephone call about
it from my Councillor Gord Shreve. I have asked that Uxbridge Council withdraw support for the
project.

The next meeting of Uxbridge town Council is October 16th.

I request that you delay the hearing to discuss the Leave to Construct until there is time for further
feedback from Uxbridge Council. One week after the Council meeting would be October 23, 2023.

You can find a copy of our local paper The Uxbridge Cosmos online at <https://thecosmos.ca/wp-content/uploads/2023/09/Sept.21.pdf> . On page 2 is the Town Council page showing the cancelled
Oct 2nd regular meeting and the special meeting on Oct 3rd that is for a specific topic only. By phone
I was told I could appear at the Oct. 16th meeting. On page 3 of the September 21 edition is the OEB
Notice.

That timing did not allow any possibility for Uxbridge Council to hear my presentation based on new
information not available during their previous consideration.

Elizabeth Carswell
