EB-2023-0198 – Hydro One Networks Inc. Leave to Construct Application – Waasigan Project – Notice

Hydro One Networks Inc. (“Hydro One”) has applied to the Ontario Energy Board (“**OEB**”) for an Order or Orders granting leave to construct transmission facilities (“**Waasigan Project**” or “**Project**”) in the northwest Ontario regions of Thunder Bay, Rainy River and Kenora.

You are receiving the attached Notice as you have been identified as either a registered property owner/encumbrancer or you are the representative of a group/agency for which Hydro One has been directed by the OEB to send this Notice. You can send the OEB a letter with your comments, which will be considered during the hearing; or you can ask the OEB for permission to be an intervenor in the hearing. If you wish to be an intervenor, the OEB must receive your request by **October 24, 2023**.

Hydro One Networks Inc. Leave to Construct Application – Waasigan Project – Application and Evidence documents, including the Notice, can be found at the following link:

www.hydroone.com/abouthydroone/RegulatoryInformation/oebapplications

Sincerely,

Carla Molina

This is Exhibit “ A ” to the Affidavit of

Carla Molina. Sworn before

me this 16 day of October 2023

Commissioner for Taking Affidavits

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*;

AND IN THE MATTER OF an Application by Hydro One Networks Inc. pursuant to s. 92 of the *Ontario Energy Board Act, 1998* (the “Act”) for an Order or Orders granting leave to construct transmission facilities (“**Waasigan Project**” or “**Project**”) in the northwest Ontario regions of Thunder Bay, Rainy River and Kenora.

AND IN THE MATTER OF an Application by Hydro One Networks Inc. pursuant to s. 97 of the Act for an Order granting approval of the forms of land use agreements offered or to be offered to affected landowners.

APPLICATION

1. The Applicant, Hydro One, a subsidiary of Hydro One Inc., is an Ontario corporation with its head office in the City of Toronto. Hydro One carries on the business, among other things, of constructing, owning and operating electricity transmission facilities within Ontario.
2. Hydro One hereby applies to the OEB pursuant to s. 92 of the Act for an Order or Orders granting leave to construct approximately 360km of electricity transmission facilities in the regions of Thunder Bay, Rainy River and Kenora, Ontario.
3. The Waasigan Project has been declared a priority project for Hydro One to develop and seek approvals for by the Minister of Energy. The OIC from the Minister of Energy is attached as **Exhibit B, Tab 3, Schedule 1, Attachment 1**. These facilities are required to increase long-term transmission capacity in northwest Ontario as recommended by the IESO in their report entitled the *Waasigan Transmission Line Project: Need, Alternatives, and Recommendation*.

1 A copy of this report is attached as **Exhibit B, Tab 3, Schedule 1, Attachment**
2 **9**. The Project has been identified as a non-discretionary development project in
3 **Exhibit B, Tab 4, Schedule 1**.
4

5 4. In developing the Project, Hydro One is committed to working with Indigenous
6 communities in a spirit of cooperation and shared responsibility. We
7 acknowledge that Indigenous communities have unique historic and cultural
8 relationships with their land and a unique knowledge of the natural environment.
9 Forging meaningful relationships with Indigenous communities based upon trust,
10 mutual respect, and accountability is vital to advancing reconciliation and
11 achieving Hydro One's corporate objectives. Hydro One has been engaging with
12 Indigenous communities since 2018 in the development process and will
13 continue to engage with communities throughout the life cycle of the Project.
14

15 5. In acknowledgement of Indigenous rights and to ensure the advancement of the
16 Project and in the spirit of advancing action on reconciliation, Hydro One has
17 conducted extensive economic discussions with impacted Indigenous
18 communities. Through a community led approach to engagement, topics
19 identified as being priorities of communities included environmental protection,
20 employment, training, contracting and economic participation and having
21 meaningful participation and input in decision making on the Project. Though
22 Hydro One has been directed to undertake the development component of this
23 Project, the transmission line facilities comprising the Project will become owned
24 by a future limited partnership which will offer a 50% equity ownership to 9 First
25 Nation partners. Gwayakocchigewin Limited Partnership, or GLP, represents
26 eight of the nine First Nations partnering with Hydro One on the Waasigan
27 Transmission Line Project. The GLP First Nations include Wabigoon Lake
28 Ojibway Nation, Eagle Lake First Nation, Lac La Croix First Nation, Fort William
29 First Nation, Seine River First Nation, Lac Seul First Nation,
30 Nigigoonsiminikaaning First Nation, and the Ojibway Nation of Saugeen. The
31 ninth First Nation partner is Lac des Mille Lacs First Nation. Gwayakocchigewin

1 means “making decisions the right way”. GLP’s goal is to achieve meaningful
2 economic participation for its First Nations, while protecting the lands, waters,
3 and cultural values potentially impacted by the Waasigan Transmission Line
4 Project.

5
6 6. As of the time of this Application, formation and structuring of the limited
7 partnership has not been finalized. As the limited partnership is not yet formed,
8 Hydro One is not currently able to provide commercial details. However, those
9 details will be provided to the OEB once the limited partnership is formed through
10 all the OEB-required asset transfer and transmission licence application
11 processes. Until such time, line work costs associated with the construction of
12 the Project facilities will reside in the OEB-approved ATP regulatory account¹ and
13 will not form part of Hydro One’s rate base. For reference purposes, further
14 information on the regulatory account is provided at **Exhibit B, Tab 10,**
15 **Schedule 1.**

16
17 7. The Waasigan Project is comprised of two sections of 230 kV overhead
18 transmission lines spanning between Lakehead TS, Mackenzie TS and Dryden
19 TS, totaling a distance of approximately 360km. Construction of the transmission
20 facilities will occur in two phases. Construction of Phase 1 will include a double-
21 circuit 230 kV transmission line spanning approximately 190km between
22 Lakehead TS (in the municipality of Shuniah) to Mackenzie TS (in the town of
23 Atikokan). Construction of Phase 2 will include a single circuit 230 kV line
24 transmission line spanning approximately 170km between Mackenzie TS to
25 Dryden TS (in the city of Dryden). An overview map depicting the location of the
26 Project, and each Phase, is attached at **Exhibit C, Tab 2, Schedule 1,**
27 **Attachment 1**² and schematic diagrams of the transmission lines and stations for

¹ EB-2021-0169.

² Hydro One’s intention in providing this Map is that it be used by the OEB for the purposes of the Notice Map.

- 1 Phase 1 and 2 can be found at **Exhibit B, Tab 2, Schedule 1, Attachments 1**
2 through 4.
3
- 4 8. The proposed in-service date for Phase 1 is December 2025, assuming an OEB
5 approval of this Application prior to February 2024, allowing construction to
6 commence in March 2024. The proposed in-service date for Phase 2 is
7 December 2027, assuming a construction commencement date of January 2026.
8 A project schedule is provided at **Exhibit B, Tab 11, Schedule 1**.
9
- 10 9. New permanent land rights along the proposed line's route are required to
11 accommodate the proposed transmission line facilities between Lakehead TS
12 and Dryden TS. No additional property rights are required for any of the three
13 transformer stations included in the Project's scope. Temporary rights for
14 construction purposes, including laydown areas, may also be required at specific
15 locations along the corridor. Further information regarding the real estate needs
16 to complete the Project are provided in **Exhibit E, Tab 1, Schedule 1**.
17
- 18 10. The IESO has completed a final SIA. The SIA concludes that the Project is
19 expected to have no material adverse impacts on the reliability of the integrated
20 power system and recommends that a *Notification of Conditional Approval for*
21 *Connection* be issued. A copy of the IESO's Final SIA is attached as **Exhibit F,**
22 **Tab 1, Schedule 1, Attachment 1**.
23
- 24 11. Hydro One has completed a Final CIA in accordance with Hydro One's
25 connection procedures. The results confirm that there are not expected to be
26 impacts on area customers because of the Project. A copy of the CIA is attached
27 as **Exhibit G, Tab 1, Schedule 1, Attachment 1**.
28
- 29 12. Hydro One will fulfill all requirements of the SIA and the CIA, and will obtain all
30 necessary approvals, permits, licences, certificates, agreements, and rights
31 required to construct and operate, the Project.

1 13. The forecast total capital cost of the Project transmission facilities is \$1,200
2 million³. Further information pertaining to these costs is found at **Exhibit B, Tab**
3 **7, Schedule 1.**

4
5 14. The expected rate impact associated with the Waasigan Project (using 2023
6 OEB-approved uniform transmission rates as filed in **Exhibit B, Tab 9, Schedule**
7 **1**), is an increase of 6.33%, because of the increases in the network pool rate,
8 and a 0.41%, or \$0.56/month, increase on a typical average residential
9 consumer's electricity bill.

10
11 15. This Application is also seeking approval of the forms of the agreement offered,
12 or to be offered, to affected landowners, pursuant to s. 97 of the Act. The majority
13 of these agreements are in the same form as previously approved in prior Hydro
14 One leave to construct proceedings. Any agreements that have not been
15 previously approved by the OEB, or have been altered from their last approval,
16 have been explicitly identified in the Application. The forms of the applied-for
17 agreements are found as attachments to **Exhibit E, Tab 1, Schedule 1.**

18
19 16. The Application is supported by written evidence which includes details of the
20 Applicant's proposal for the transmission line. The written evidence is prefiled
21 and may be amended from time to time prior to the Board's final decision on this
22 Application.

23
24 17. Given the information provided in the prefiled evidence, Hydro One submits that
25 the Project is in the public interest. The Project meets the need of the
26 transmission system and improves quality of service and reliability with minimal
27 impact on price.

³ There will be an additional \$0.1M of OMA removal costs associated with constructing this Project.

18. Hydro One requests that a copy of all documents filed with the Board be served on the Applicant and the Applicant's counsel, as follows:

ONTARIO ENERGY BOARD NOTICE

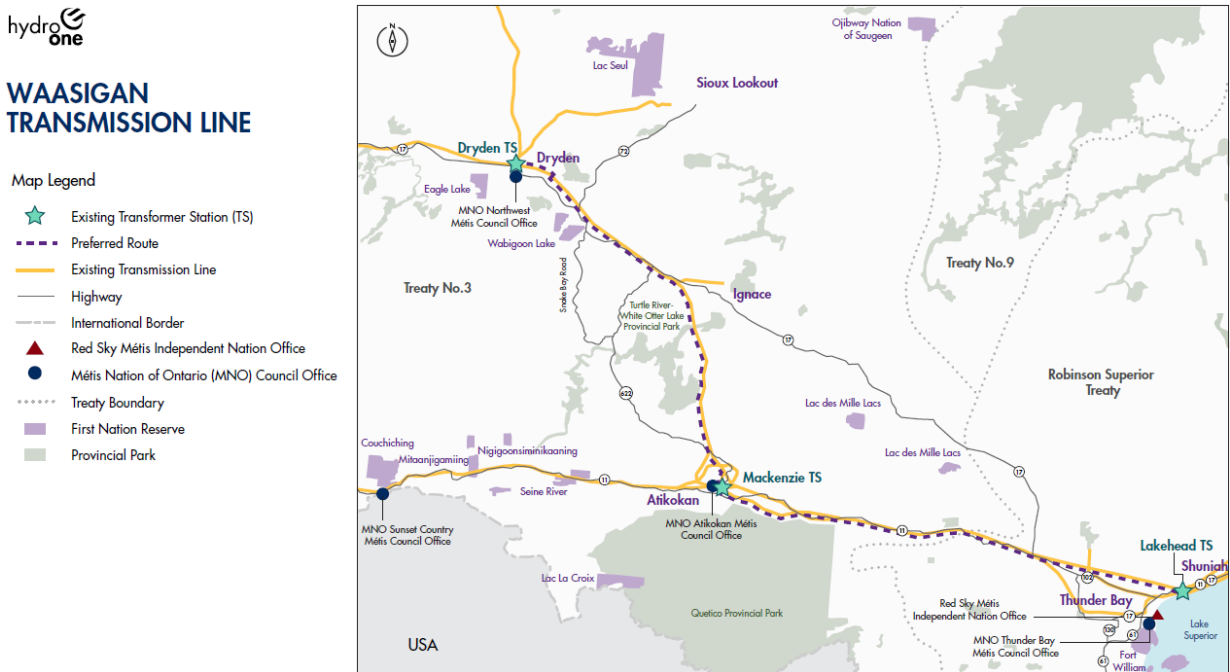

Hydro One Networks Inc. has applied to the Ontario Energy Board to build a high-voltage transmission line. Learn More.

Hydro One Networks Inc. is asking the Ontario Energy Board (OEB) for permission to construct approximately 360 kilometers of 230 kilovolt electricity transmission line and associated facilities between the Lakehead Transformer Station and the Mackenzie Transformer Station, and between the Mackenzie Transformer Station and the Dryden Transformer Station, in the regions of Thunder Bay, Rainy River and Kenora, Ontario.

Hydro One Networks Inc. is also asking the OEB to approve the form of agreement it offers to landowners to use their land for routing or construction of the proposed line.

Hydro One Networks Inc. states that the transmission line and associated facilities are required to increase long-term transmission capacity in northwest Ontario.

A map of the proposed route for the transmission line is provided below.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The OEB is an independent and impartial public agency. It will hold a public hearing to consider Hydro One Networks Inc.'s (Hydro One) requests. During the hearing, the OEB will consider evidence and arguments by Hydro One and by participants (individuals, municipalities and others whose interests would be affected) that have registered to participate in the hearing (called intervenors). At the end of this hearing, the OEB will decide whether to approve the application.

SCOPE OF THE OEB'S HEARING

The scope of the OEB's legislative authority with respect to applications seeking leave to construct electricity transmission lines is set out in sections 92, 96, and 96.1 of the *Ontario Energy Board Act*. When determining whether the proposed project is in the public interest, the *Ontario Energy Board Act* states that the OEB shall only consider the interests of consumers with respect to prices and the reliability and quality of electricity service. As required under section 97 of the *Ontario Energy Board Act*, the OEB also considers matters related to the form of agreement that is offered to landowners affected by the route or location of the transmission line.

It is important to note that the OEB's hearing is not the only approval process required before a transmission line is built. Environmental issues, or issues related to the Crown's duty to consult Indigenous peoples, are not part of the OEB's review unless there is a direct impact on price and the reliability and quality of electricity service.

More information on the types of issues that the OEB may consider in this hearing are provided on the OEB's website in the form of a standard issues list: www.oeb.ca/sites/default/files/issues-list-LTC-electricity.pdf.

Parties to the proceeding are required to limit their participation to areas that fall within the OEB's legislative mandate, as described above.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding **Hydro One's** application. You can read **Hydro One's** application on the OEB's website now.

If you would be affected by the proposed transmission line, you may want to take a more active role in the hearing.

- You can send the OEB a letter with your comments, which will be considered during the hearing;
OR
- You can ask the OEB for permission to be an intervenor in the hearing. As an intervenor, you can ask questions about Hydro One's application and make arguments on whether the OEB should approve Hydro One's request. To be an intervenor, a party must be affected by the transmission line in a way that relates directly to the issues the OEB will consider. If you wish to be an intervenor, the OEB must receive your request by **October 24, 2023**.

LEARN MORE

Our file number for this case is **EB-2023-0198**. To learn more about this hearing, find instructions on how to file a letter with your comments or become an intervenor, or to access the documents related to this case, please select the file number **EB-2023-0198** from the list on the OEB website:

www.oeb.ca/noticelc. You can also phone Musab Qureshi at 1-888-632-2727.

FORM OF HEARING

There are three types of OEB hearings – oral, electronic and written. The OEB will determine the format of the hearing later in the process. If you have a preference with respect to the format of the hearing, you can write to the OEB to explain why by **October 24, 2023**.

PRIVACY

If you write a letter with your comments, your name and the content of your letter will be put on the OEB's public record and the OEB website. However, your personal telephone number, home address and email address will be removed. If you are a business, all your information will be public. If you apply to become an intervenor, all your information will be public.

This application was filed under sections 92 and 97 of the Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B.
