OEB has a lot of nerve requesting an increase of any kind for any branch of Ontario's electricity. Cuts in pay and employees would be better accepted, especially the CEO's. Hydro in Ontario is supposed to belong to the people of Ontario and from the beginning was not supposed to make a profit. Hydro in Ontario is a disgrace in comparison with the rest of Canada and a true laughing matter to other countries of the world, by charging the owners of hydro through the nose and giving the same product away (for free) to other countries. Give your head a shake and tighten your belts and make do with what you are receiving. The money has run out. The people of Ontario have no more money for you.
