Southern Bruce Brockton Natural Gas Expansion (EP-00350)

Consultation

GENERAL INFORMATION

Title
Southern Bruce Brockton Natural Gas Expansion

Type of engagement plan
Consultation

Location
-

Responsible person
Jed Johns

Start date
2022-03-07

End date
-

Department
Consultant

Description
Proposed Natural Gas Pipeline Expansion to Serve the Municipality of Brockton, the Municipality of West Grey and the Township of Chatsworth – Duty to Consult with Indigenous communities.

EPCOR Natural Gas Limited Partnership (“ENGLP”) currently provides natural gas service in the Township of Arran-Elderslie, the Township of Huron-Kinloss and the Municipality of Kincardine (“Southern Bruce”). ENGLP is developing the Municipality of Brockton Project, which is proposed to expand natural gas service within two of the Southern Bruce Municipalities (the Township of Arran-Elderslie and the Municipality of Kincardine) and bring natural gas service to a number of unserviced areas in the Municipality of Brockton, the Municipality of West Grey and in the Township of Chatsworth (the “Project”).

Good afternoon Emily and Riel:

I wanted to follow-up after the signing of the LOA (August 10) and sending out the Environmental Report (August 26) and ask how the review has been going? We hope to include your feedback before submission this month. Please do let me know if you have any questions or wish to meet regarding the Brockton Natural Gas Expansion Project, happy to set something up soon.

kinanâskomitin,
Jed

Thank you, Karen. We can give you a full summary following this evening's Open House and answer any questions you may have.

It may be easier if you can give us some available dates/times for you and any of your colleagues who may also wish to attend, and then I can coordinate our team members' schedules around that if this works for you. Just let me know.

Hello Lorne,

Thank you for the follow-up. I will not be able to attend the Open House this evening. Regarding your invitation to meet virtually, I think this is a good idea. Please let me know you availability.

Regards,

Karen

Good day, Karen. Hope you're doing well and getting ready for a nice weekend.

At our Oct. 6th meeting, we briefly discussed the project Open House next Wednesday in Cargill, and you asked for the information for that session to be sent to you in advance so that you could provide to the Committee.

Apologies for the delay. I've attached here the Open House newspaper ad and the Handout to be distributed at the session. The Brockton project webpage www.epcor.com/brocktonNG has more information on the Open House, with the June 2022 Slide Deck at the bottom of the page. You may have attended in Cargill at that time for the MNO. My understanding is that there won't be a Slide Deck presentation next Wednesday.

We also discussed least Friday meeting with you a few days prior to the Open House to go through the information. We'd be pleased to do so virtually early next week at your convenience if you would still like to do so having now seen the information. Please let me know if early next week would work for you should you choose to meet, and I can coordinate with our project team members here.

Please don't hesitate to reach out to either Thomas or myself should you have any questions or wish to discuss.

Thank you.

Good day, Mary,

I wanted to reach out to you again further to our emails last Friday, as the Open House is this evening. We'd be pleased to meet virtually with you and Ethan and any of your other MNO colleagues in an information session post-Open House.

Just let us know what may work for you, and we'll go from there.

Thanks very much.

Subject: Brockton Natural Gas Expansion Project - October 18th Open House in Cargill

Good day, Mary. Hope you're doing well and getting ready for a nice weekend.

You may be aware of the upcoming Brockton project Open House next Wednesday in Cargill. I've attached here the Open House newspaper ad and the Handout to be distributed at the session. Apologies for delay in providing you the information. The Brockton project webpage www.epcor.com/brocktonNG has more information on the Open House, with the June 2022 Slide Deck at the bottom of the page. My understanding is that there won't be a slide deck presented next Wednesday.

We'd be pleased to meet with you virtually early next week prior to the Open House to go through the information to be provided at the public session and answer any questions you may have. Please let me know if sometime early next week would work for you should you choose to meet, and I can coordinate with our project team members here.

Also, I wanted to discuss the status of the General Relationship Agreement with you. I had emailed you about this week before last and attached that here for your reference in case you didn't pick it up at that time. As mentioned in the email, I'm going off Jed's note on the Agreement's final version still needing signing, with the intention of that being done this Fall. Give me a call at (825) 966-8271 at your convenience to discuss this.

Please don't hesitate to reach out to either Thomas or myself any time should you have any questions.

Thank you, Mary.

Hi Lorne,

Thanks for reaching out. On our end, I have taken over for Chris and now and will be in his past position of Coordinator of Lands, Waters and Consultation as he transitions to a new position here at Historic Saugeen Métis.

We have interest in meeting virtually to discuss this, however, early next week may not work as our staff are fairly busy with other commitments for the beginning of the week. I can reach out to you Monday with a better idea of a day that would work, even if it does occur after the open house - perhaps towards the end of next week. Let me know if that works.

Hi Lorne,

That time works for us. I have copied Carolyn Myers-Boone (Executive Assistant) and Chris Hachey (Advisor Consultation & Special Projects) who will also attend.

We look forward to speaking with you.

Hi Lorne,

Thanks for reaching out. On our end, I have taken over for Chris and now and will be in his past position of Coordinator of Lands, Waters and Consultation as he transitions to a new position here at Historic Saugeen Métis.

We have interest in meeting virtually to discuss this, however, early next week may not work as our staff are fairly busy with other commitments for the beginning of the week. I can reach out to you Monday with a better idea of a day that would work, even if it does occur after the open house - perhaps towards the end of next week. Let me know if that works.

Re: Re: Re: RE: SON EO Brockton Natural Gas Expansion

Date/time
2023-10-06

Description

SON's Resources and Infrastructure Associate, Karen Heisler, Nation's feedback on the project Environnmental Report (ER), was provided by Karen on October 3, 2023. EPCOR and Stantec representatives met with Karen, SON's archaeologist, Dr. Robert Martin, and Natalie Kuipers (SON GIS Coordinator) to discuss a timeline for SON's participation in the Stage 2 Archaeology work, which Stantec had proposed to commence the following week.

Also discussed was Dr. Martin's concerns on the Stage 1 work (Desktop review), wherein he stressed the need to have SON's interests (see his email to Patrick Hoskins, Stantec - October 4, 2023) regarding additional survey work for portions of the right of way within 300 m of the Saugeen and Teeswater Rivers and 5-20 m of smaller creeks.

In response, Thomas Stachowski, EPCOR Project Developer, Business Development, advised that EPCOR would work to update the ER with SON's comments with both Dr. Martin's Stage 1 concerns and from the ER provided by SON on Oct. 3rd. He also advised the draft ER would be circulated to SON thereafter.

Additional utility locates were discussed, with Dr. Martin advising that SON could provide monitors for new locates and Karen noting that monitoring was within the scope of the S0N - EPCOR Letter of Agreement on the project. Dr. Martin and Patrick Hoskins from Stantec committed to work together on surveys for the additional locates.

Quarterly updates with SON, as occurred with the Southern Bruce project, on Brockton were agreed to going forward, and the October 18, 2023 public Open House in Cargill was briefly discussed. Karen requested information on the Open House be sent to her a few days in advance, which Lorne Fidgette, EPCOR Indigenous Relations Specialist, committed to do.

Hello Karen

Thank you for the quick response following the voice message left late last week. Yes – we would absolutely be able to connect with you on Wednesday this week. If you would please provide some of your availabilities for Wednesday that would be most appreciated. Both Lorne and I are in Edmonton but can work to accommodate an adequate time to connect.

The only times that would not work are 3-4 and 5-5:30pm Eastern Time on Wednesday.

For your information Jed has recently departed EPCOR and as such Lorne Fidgette is now working on the file. I have attached the communication from Jed Johns to SON regarding this departure.

Lorne and I are happy to discuss status of the following:
- Existing ER and ELC Documents
- Requirements from SON to continued Consultation and finalization of ER
- LTC Submission and Status
- Timeline and ETA for comments on the a number of the items listed above.
- Stage II Archeological Participation

Additional items can be discussed but the above items I would certainly like to ensure we can cover off. Let us know as soon as you can an available time for a virtual meeting via MS Teams.

Thank you,

Thomas

Hello Thomas,

Thank you for your voicemail. My name is Karen Heisler, I am the new Associate with the Resource and Infrastructure department with the SON Environment Office. I will be taking over this file. Apologies for the challenge you have had reaching someone in our department. We have experienced staffing challenges over the past few months.

I have reviewed the communication and agreement. It is my understanding that our office was waiting the final ER and ELC for review. We received the reports and we have completed our peer review evaluating the impact of the project on SON's natural heritage and water rights and interests. Would it be possible for us to set up a meeting, this week just go over the record of consultation and the Environmental Protection Plan that I will draft outlining the results of our review and conditions and recommendations for development.

I am out of the office today, could we arrange to meet Wednesday?

Thank you,

Karen

Subject: EPCOR Indigenous Relations Team Update
Good afternoon Charlene:

I wish to inform you and Saugeen Ojibway Nation's consultation team that I will be departing EPCOR Utilities Inc. today. I look back on the relationships formed through the Southern Bruce and Brockton natural gas projects, the collaborative discussions held with great fondness and look forward to when our paths cross again.

I also have the pleasure of introducing a new member of EPCOR's Indigenous Relations Team, Lorne Fidgette, who recently joined us as Specialist, Indigenous Relations. Lorne comes to EPCOR with more than 15-years of experience in Indigenous engagement, including a leading role in Indigenous engagement and consultation in the utilities sector, and the development of provincial government policies on natural resource management and consultation.

Candace MacLachlan, Senior Advisor, Indigenous Relations leads EPCOR's Indigenous Monitoring Program, which sees over 30 Indigenous Nations and communities invited to monitor sensitive work at the water treatment plants and in the river valley.

With my transition, a new leader for the Indigenous Relations team will be recruited soon so please watch out and consider sharing the posting with anyone meeting the requirements and wishing to help grow this work.

Thank you again for all your understanding and kindness these few years, it has been a privilege to do this important work alongside you.

Hi Karen,

Thanks very much. We greatly appreciate SON's review.

Yes, Stage 2 Archaeology to be completed, with the plan to initiate it next week, I believe.

Thomas and I and team will go through the feedback, respond to the comments, and communicate soon with you as to how the recommendations have been integrated as we seek to mitigate potential project impacts.

Thank you for your offer of a letter indicating consultation with SON is complete. That would be

appreciated. We'll circle back with you very soon.

Cheers

Hi Lorne,

II have completed a letter outlining our natural heritage and hydrogeological peer reviewers comments and recommendations. I just wanted to clarify that since the Stage 2 Archaeology is still yet to be completed, this letter only addresses the review of Environmental Report and associated documents, and does not provide clearance for archaeology. Once the Stage 2 Archaeological Assessment is completed our Archaeologist will notify our office.

As outlined in the letter, we do require a response as to if and/or how EPCOR will incorporate our recommendations into your final submission. At that time if you require us to draft a letter to you or the approval authority indicating consultation is complete, please let me know.

Title
Re: Re: RE: SON EO Brockton Natural Gas Expansion

Date/time
2023-09-27

Description

Meeting with Saugeen Obijway Nation (SON) Resources & Infrastructure Associate, Karen Heisler, to discuss a timeline for SON to provide comments on the project Environmental Report (ER) and the start of the Stage 2 Archaeology work with SON's participation.

For background, Thomas advised that EPCOR had submitted the draft ER to all three Indigenous communities it was required to consult with per the Ontario Ministry of Energy's direction, in addition to developing an Environmental Lands Classification (ELC), requested by SON before comments would be provided by the Nation on the ER. He also noted that while the ER forms part of the Leave to Construct process, the ELC is not a component of the ER and that SON had previously participated in the Stage 2 Archaeology work for Southern Bruce, with Brockton being an expansion of that project.

Karen advised that SON would send its ER comments within a few days of the meeting and will have SON's archaeologist connect with Stantec on a timeline for SON's participation on the Stage 2 Archaeology work.

Good afternoon Jed,

Thanks for sending this. I just tried to download the file but it looks like access is username/password protected.

Thanks,

Jarmo

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Good afternoon Jarmo and Charlene:

Thank you for this response.

Since our last communications I wished to provide an update that EPCOR's consultants at Stantec have initiated work on the ELC with expected completion in a month's time. While the ELC is being worked on and being finalized, through it will not form part of the Environmental Report (ER), we do wish to request any comments from SON on the draft ER as it will need to be submitted with our Leave to Construct application in two weeks' time. Ultimately, we wish to understand when or if this can be completed.

We appreciate the continued due diligence of SON and the communication on this project.

kinanâskomitin,
Jed

Good afternoon Jed

Good afternoon Jed,

After discussing with Charlene Leonard, I'm writing with respect to the proposed work on the Brockton Natural Gas Pipeline project (as per the email string below). In January I completed much of the terrestrial ecology technical review based on the draft Environmental Report (dated August 24, 2022), the "Existing Environmental Conditions" mapping, and a December 2022 site visit that I undertook with SON Hydrogeology Advisory Bill Blackport.

The draft Environmental Report refers to additional ELC work to be undertaken later in 2022. SON requested this additional information earlier this year. The ELC data are needed to assist in evaluating potential impacts and determining if any additional mitigation recommendations are needed. I see in the email string that the ELC mapping was not available as of March 7.

I was planning to finalize my terrestrial ecology tech review this week but without the ELC (and any other relevant data collected in 2022 not yet in the draft report), my review would be considered incomplete. This would likely slow down a SON decision on the project, so I will wait until this information is available. I'm not in a position to advise with respect to the LTC application, but as long as no actual construction activity is taking place there would not be terrestrial ecology concerns.

We look forward to receiving the final environmental report and ELC (please be sure to keep Charlene as your main contact unless she advises otherwise).

Thank you,

Jarmo Jalava

Good morning Charlene:

I've been informed we may have a short delay on the LTC submission, if SON had any comments on the ER they wished to provide this would be a good time to review.

Was there anything you needed from our side to support the ER review submission from SON?

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I've been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I'll make sure to follow up with a phone call as I hope to address any obstacles.

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding,
Jed

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,
Charlene Leonard

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

C-30029	EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – ELC	2023-08-29 11:44

Description

Good afternoon Charlene and Jarmo:

Please find at the Sharepoint link below a copy of the Ecological Land Classification (ELC) memo and listing that Stantec has prepared for the Brockton Natural Gas Expansion Project.

ELC: https://extranet.epcor.ca/cs/projects/sb/br/ER/ELC/mem_EPCOR-Brockton_ELC_Memo_20230818_fnl_signed.pdf

I know it will take some time to review a large document such as this, would it okay to check in early next week on any feedback or comments on the ER and ELC? Many thanks on your assistance with this and your interest in the project.

kinanâskomitin,
Jed

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Good afternoon Jarmo and Charlene:

Thank you for this response.

Since our last communications I wished to provide an update that EPCOR's consultants at Stantec have initiated work on the ELC with expected completion in a month's time. While the ELC is being worked on and being finalized, through it will not form part of the Environmental Report (ER), we do wish to request any comments from SON on the draft ER as it will need to be submitted with our Leave to Construct application in two weeks' time. Ultimately, we wish to understand when or if this can be completed.

We appreciate the continued due diligence of SON and the communication on this project.

kinanâskomitin,
Jed

Good afternoon Jed,

After discussing with Charlene Leonard, I'm writing with respect to the proposed work on the Brockton Natural Gas Pipeline project (as per the email string below). In January I completed much of the terrestrial ecology technical review based on the draft Environmental Report (dated August 24, 2022), the "Existing Environmental Conditions" mapping, and a December 2022 site visit that I undertook with SON Hydrogeology Advisory Bill Blackport.

The draft Environmental Report refers to additional ELC work to be undertaken later in 2022. SON requested this additional information earlier this year. The ELC data are needed to assist in evaluating potential impacts and determining if any additional mitigation recommendations are needed. I see in the email string that the ELC mapping was not available as of March 7.

I was planning to finalize my terrestrial ecology tech review this week but without the ELC (and any other relevant data collected in 2022 not yet in the draft report), my review would be considered incomplete. This would likely slow down a SON decision on the project, so I will wait until this information is available. I'm not in a position to advise with respect to the LTC application, but as long as no actual construction activity is taking place there would not be terrestrial ecology concerns.

We look forward to receiving the final environmental report and ELC (please be sure to keep Charlene as your main contact unless she advises otherwise).

Thank you,

Jarmo Jalava

Good morning Charlene:

I’ve been informed we may have a short delay on the LTC submission, if SON had any comments on the ER they wished to provide this would be a good time to review.

Was there anything you needed from our side to support the ER review submission from SON?

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I've been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I'll make sure to follow up with a phone call as I hope to address any obstacles.

kinanâskomitin,
Jed

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding,
Jed

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,
Charlene Leonard

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of the review has gone and if you have any other questions?

kinanâskomitin,
Jed

Hi again Jed,

We typically don't start reviewing technical documents until we receive payment for the Letter of Agreement. The Letter of Agreement was signed August 10, 2022 but we have not received payment yet. This is why there has been a delay and once payment is received the review will be 60 days after that. If you have any questions please let me know.

Greetings,

Please find attached a letter that contains information on EPCOR's draft*Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Description

Good afternoon Mary: Thank you for the clarifications, we are working on making changes and getting

Good afternoon Mary: Thank you for the clarifications, we are working on making changes and getting signatures to have back to you soon. kinanâskomitin, Jed Jed Johns Manager, Government & Indigenous Relations Direct: 780-412-6968 | Cell: 780-292-3935 | jjohns@epcor.com www.epcor.com Downtown office on Tues/Weds/Thurs From: Mary MacDougall Sent: Friday, June 30, 2023 8:55 AM To: Johns, Jed ; Ethan Roy Cc: Stachowski , Thomas Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Notice: External Email Use caution when opening links, attachments, and when prompted to enter User IDs, Passwords or Confidential Information. Please report any suspicious email with the "Report Phish" button. Good morning Jed, I reviewed this file with the Region 7 leadership and they have a few points of clarification: - Consultation with Region 7 should always have a budget for nine honoraria (i.e. $1800) - Given the uncertain scope of environmental reviews, we are hesitant to agree to a fixed budget. Rather, we would appreciate if you would revise the GRA to read that we will collect three quotes for work and select the quote that provides the best value. You will see my comments in the attached document. Warmly, Mary From: Johns, Jed Sent: Thursday, June 8, 2023 5:20 PM To: Mary MacDougall ; Ethan Roy Cc: Stachowski , Thomas Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Good afternoon Mary: Apologies for the delayed response, we have prepared the GRA with the updated Schedule 'H' and have signed it. It is now ready for signature from MNO representatives, please let me know if you have any questions or concerns. Looking forward to our future discussions on this project. kinanâskomitin, Jed Jed Johns Manager, Government & Indigenous Relations Direct: 780-412-6968 | Cell: 780-292-3935 | jjohns@epcor.com www.epcor.com Downtown office on Tues/Weds/Thurs From: Mary MacDougall Sent: Tuesday, May 23, 2023 7:59 PM To: Ethan Roy ; Johns, Jed Cc: Stachowski , Thomas Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Notice: External Email Use caution when opening links, attachments, and when prompted to enter User IDs, Passwords or Confidential Information. Please report any suspicious email with the "Report Phish" button. Good evening Jed and Thomas, I recently replaced Karen Heisler as the LRC Manager in Region 7. I am getting up-to-date on active files. Can you please provide an update on the status of the General Relationship Agreement? Warmly, Mary Mary MacDougall LRC Manager Métis Nation of Ontario Cell: 416-346-0947 From: Ethan Roy Sent: Friday, May 5, 2023 5:01 PM To: Johns, Jed Cc: Mary MacDougall ; Stachowski , Thomas Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Good morning Jed, and Thomas, We received the updated Review of the ER, including a reply from HESL to the initial response. There are a few outstanding concerns highlighted, however, based on the feedback received, we believe the remaining items can be resolved through the GRA and associated processes. Thanks, Ethan Roy (he/him) Consultation Advisor Lands, Resources, and Consultations (LRC) Branch Métis Nation of Ontario Sault Ste. Marie, ON, Canada Email: ethanr@metisnation.org Phone: (705) 527 3612 www.metisnation.org This email is intended only for the named recipient(s) and may contain information that is CONFIDENTIAL. Please consider the environment before printing this e-mail. From: Johns, Jed Sent: March 16, 2023 1:38 PM To: Ethan Roy Cc: Linda Norheim ; Stachowski , Thomas Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Importance: High Good morning Ethan: Thank you for MNO's comments on the Draft ER. Attached is a PDF of EPCOR's initial responses to the review conducted by MNO with support from HESL. Please note that we have attempted to provide an initial response to all comments provided via the HESL review. A number of the comments will be addressed through ongoing consultation with the MNO as EPCOR begins the detailed design stage of the project where more information will become available, post-submission of the Leave to Construct application. I still also have the amended Relationship Agreement going through approvals and will provide it as soon as possible for signing. Once we have that signed off would you like to discuss potential dates to meet with the Consultation Committee? Thank you again for your generous help with reviewing these materials and ensuing a better process aligned with MNO's perspective. kinanâskomitin, Jed Jed Johns Manager, Government & Indigenous Relations Direct: 780-412-6968 | Cell: 780-292-3935 | jjohns@epcor.com www.epcor.com From: Ethan Roy Sent: Thursday, February 23, 2023 7:48 AM To: Johns, Jed Cc: Linda Norheim Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Notice: External Email Use caution when opening links, attachments, and when prompted to enter User IDs, Passwords or Confidential Information. Please report any suspicious email with the "Report Phish" button. Good morning Jed, I appreciate your patience. I have attached the MNO comment on the Draft ER for the Brockton Natural Gas project to this email. It consists of the Brockton Pipeline Review performed Hutchinson Environmental Services Limited (HESL), as well as, a cover letter signed by Regional Chair for MNO Region 7 David Dusome, which provides context for the peer-review comments. Also attached is the amended GRA between the MNO and EPCOR. It has been updated to reflect current GBTTCC members, given the recent election, and has been approved by the GBTTCC. The procedure in MNO Region 7 is now for the proponent (in this case EPCOR) to sign the agreement if approved, and the MNO will sign the agreement once returned. Thanks, Ethan Roy (he/him) Consultation Advisor Lands, Resources, and Consultations (LRC) Branch Métis Nation of Ontario Sault Ste. Marie, ON

While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon. Thank you again and we look forward to future discussions on this project. kinanâskomitin, Jed Jed Johns Manager, Government & Indigenous Relations Direct: 780-412-6968 | Cell: 780-292-3935 | jjohns@epcor.com www.epcor.com From: Karen Heisler Sent: Saturday, August 20, 2022 7:25 AM To: Johns, Jed Cc: Ethan Roy ; Sonnenberg, Kevin ; Stachowski , Thomas ; brocktonproject@stantec.com Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Importance: High Notice: External Email Use caution when opening links, attachments, and when prompted to enter User IDs, Passwords or Confidential Information. Please report any suspicious email with the "Report Phish" button. Hi Jed, Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira. Best regards, Karen Karen Heisler

(she/her) Manager, Lands, Resources and Consultations Métis Nation of Ontario 380 9th St E Owen Sound, ON N4K 1P1 Cell: 416-346-9230 – Celll phone is currently unavailable E: KarenHe@metisnation.org This email is intended only for the named recipient(s) and may contain information that is CONFIDENTIAL. No waiver of privilege, confidence or otherwise is intended by virtue of this email. Any unauthorized copying is strictly prohibited. If you have received this email in error, or are not the named recipient, please immediately notify the sender and destroy all copies of this email. Thank you. Please consider the environment before printing this e-mail. From: Karen Heisler Sent: August 11, 2022 3:49 PM To: 'Johns, Jed' Cc: Ethan Roy Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project Hi Jed, Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached). Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.” Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.” The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020. To be Included in the New Contribution Agreement Schedule: Number of meeting with the Georgian Bay Traditional Territory Consultation Committee Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria Community Information Sessions and/or Communication with MNO Citizens We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session). Review of Environmental Reports Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule. Community Capacity Contribution To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible. Attached I have included notes from that meeting, please let me know if they are not accurate and I’d be happy to update. Also attached are items

requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project. Rehabilitation Monitoring Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date. Next Steps Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback. Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon. kinanâskomitin, Jed Jed Johns Manager, Government & Indigenous Relations Direct: 780-412-6968 | Cell: 780-292-3935 | jjohns@epcor.com www.epcor.com This email message, including any attachments, is for the intended recipient(s) only, and contains confidential and proprietary information. RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Date/time
2023-06-08 15:19

Description

Good afternoon Mary:

Apologies for the delayed response, we have prepared the GRA with the updated Schedule ‘H’ and have signed it. It is now ready for signature from MNO representatives, please let me know if you have any questions or concerns. Looking forward to our future discussions on this project.

kinanâskomitin,
Jed

Good evening Jed and Thomas,

I recently replaced Karen Heisler as the LRC Manager in Region 7. I am getting up-to-date on active files.

Can you please provide an update on the status of the General Relationship Agreement?

Warmly,
Mary

Good morning Jed, and Thomas,

We received the updated Review of the ER, including a reply from HESL to the initial response. There are a few outstanding concerns highlighted, however, based on the feedback received, we believe the remaining items can be resolved through the GRA and associated processes.

Thanks,

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project
Importance: High

Good morning Ethan:

Thank you for MNO's comments on the Draft ER. Attached is a PDF of EPCOR's initial responses to the review conducted by MNO with support from HESL. Please note that we have attempted to provide an initial response to all comments provided via the HESL review. A number of the comments will be addressed through ongoing consultation with the MNO as EPCOR begins the detailed design stage of the project where more information will become available, post-submission of the Leave to Construct application.

I still also have the amended Relationship Agreement going through approvals and will provide it as soon as possible for signing. Once we have that signed off would you like to discuss potential dates to meet with the Consultation Committee?

Thank you again for your generous help with reviewing these materials and ensuing a better process aligned with MNO's perspective.

kinanâskomitin,
Jed

Good morning Jed,

I appreciate your patience. I have attached the MNO comment on the Draft ER for the Brockton Natural Gas project to this email. It consists of the Brockton Pipeline Review performed Hutchinson Environmental Services Limited (HESL), as well as, a cover letter signed by Regional Chair for MNO Region 7 David Dusome, which provides context for the peer-review comments.

Also attached is the amended GRA between the MNO and EPCOR. It has been updated to reflect current GBTTCC members, given the recent election, and has been approved by the GBTTCC. The procedure in MNO Region 7 is now for the proponent (in this case EPCOR) to sign the agreement if approved, and the MNO will sign the agreement once returned.

Thanks,

Ethan Roy (he/him)

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Hello Karen:

Many thanks on this review. I wanted to check in on how it is going?

Please let me know if you will be sending an invoice for any completed work thus far as I don't want our delay in getting an agreement signed to impact your ability to conduct this important review. I'm looping back with our legal team, apologies for the delay.

Hope all is well and chat soon,
Jed

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90

Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

kinanâskomitin,
Jed

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Jed,

Thank you for getting back to us, and agreeing for capacity funding for tomorrow while we work to

complete a schedule going forward.

Given we have the commitment in writing, we are happy to proceed with the meeting tomorrow and look forward to meeting with you.

Thanks,

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira.

Best regards,

Karen

Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

Title
EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Date/time
2023-06-07 16:40

Description

From: Johns, Jed
Sent: Wednesday, June 7, 2023 4:40 PM
To: Jarmo Jalava ; Charlene Leonard
Cc: William Blackport ; Karen Heisler ; Liz Peterson
Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Good afternoon Jarmo and Charlene:

Thank you for this response.

Since our last communications I wished to provide an update that EPCOR's consultants at Stantec have initiated work on the ELC with expected completion in a month's time. While the ELC is being worked on and being finalized, through it will not form part of the Environmental Report (ER), we do wish to request any comments from SON on the draft ER as it will need to be submitted with our Leave to Construct application in two weeks' time. Ultimately, we wish to understand when or if this can be completed.

We appreciate the continued due diligence of SON and the communication on this project.

kinanâskomitin,
Jed

Good afternoon Jed,

After discussing with Charlene Leonard, I'm writing with respect to the proposed work on the Brockton Natural Gas Pipeline project (as per the email string below). In January I completed much of the terrestrial ecology technical review based on the draft Environmental Report (dated August 24, 2022), the "Existing Environmental Conditions" mapping, and a December 2022 site visit that I undertook with SON Hydrogeology Advisory Bill Blackport.

The draft Environmental Report refers to additional ELC work to be undertaken later in 2022. SON requested this additional information earlier this year. The ELC data are needed to assist in evaluating potential impacts and determining if any additional mitigation recommendations are needed. I see in the email string that the ELC mapping was not available as of March 7.

I was planning to finalize my terrestrial ecology tech review this week but without the ELC (and any other relevant data collected in 2022 not yet in the draft report), my review would be considered incomplete. This would likely slow down a SON decision on the project, so I will wait until this information is available. I'm not in a position to advise with respect to the LTC application, but as long as no actual construction activity is taking place there would not be terrestrial ecology concerns.

We look forward to receiving the final environmental report and ELC (please be sure to keep Charlene as your main contact unless she advises otherwise).

Thank you,

Jarmo Jalava

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I've been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I'll make sure to follow up with a phone call as I hope to address any obstacles.

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding,
Jed

Good morning Charlene:

Hope you are well. Wanted to follow-up if we could expect SON's review soon so we can incorporate/respond to in time for submission for the Leave to Construct. Our team has informed me we need to submit at the end of this month – is there any chance you could send us the Nations' feedback this week?

Happy to answer any outstanding questions.

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Title
EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Date/time
2023-06-07 16:39

Description

Good afternoon Jarmo and Charlene:

Thank you for this response.

Since our last communications I wished to provide an update that EPCOR's consultants at Stantec have initiated work on the ELC with expected completion in a month's time. While the ELC is being worked on and being finalized, through it will not form part of the Environmental Report (ER), we do wish to request any comments from SON on the draft ER as it will need to be submitted with our Leave to Construct application in two weeks' time. Ultimately, we wish to understand when or if this can be completed.

We appreciate the continued due diligence of SON and the communication on this project.

kinanâskomitin,
Jed

Good afternoon Jed,

After discussing with Charlene Leonard, I'm writing with respect to the proposed work on the Brockton Natural Gas Pipeline project (as per the email string below). In January I completed much of the terrestrial ecology technical review based on the draft Environmental Report (dated August 24, 2022), the "Existing Environmental Conditions" mapping, and a December 2022 site visit that I undertook with SON

Environmental Conditions" mapping, and a December 2022 site visit that I undertook with SON Hydrogeology Advisory Bill Blackport.

The draft Environmental Report refers to additional ELC work to be undertaken later in 2022. SON requested this additional information earlier this year. The ELC data are needed to assist in evaluating potential impacts and determining if any additional mitigation recommendations are needed. I see in the email string that the ELC mapping was not available as of March 7.

I was planning to finalize my terrestrial ecology tech review this week but without the ELC (and any other relevant data collected in 2022 not yet in the draft report), my review would be considered incomplete. This would likely slow down a SON decision on the project, so I will wait until this information is available. I'm not in a position to advise with respect to the LTC application, but as long as no actual construction activity is taking place there would not be terrestrial ecology concerns.

We look forward to receiving the final environmental report and ELC (please be sure to keep Charlene as your main contact unless she advises otherwise).

Thank you,

Jarmo Jalava

Good morning Charlene:

I've been informed we may have a short delay on the LTC submission, if SON had any comments on the ER they wished to provide this would be a good time to review.

Was there anything you needed from our side to support the ER review submission from SON?

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I've been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I'll make sure to follow up with a phone call as I hope to address any obstacles.

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding

Thank you for understanding,
Jed

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,
Charlene Leonard

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of the review has gone and if you have any other questions?

Hi Jed,

The Letter of Agreement (LOA) is like our invoice. In the past a cheque was sent for the amount in the LOA. Attached is the LOA for your reference.

Hi again Jed,

We typically don't start reviewing technical documents until we receive payment for the Letter of Agreement. The Letter of Agreement was signed August 10, 2022 but we have not received payment yet. This is why there has been a delay and once payment is received the review will be 60 days after that. If you have any questions please let me know.

Miigwech,
Juanita Meekins

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Title
RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Date/time
2023-05-05 15:01

Description

From: Ethan Roy
Sent: Friday, May 5, 2023 3:01 PM
To: Johns, Jed
Cc: Mary MacDougall ; Stachowski , Thomas
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Good morning Jed, and Thomas,

We received the updated Review of the ER, including a reply from HESL to the initial response. There are a few outstanding concerns highlighted, however, based on the feedback received, we believe the remaining items can be resolved through the GRA and associated processes.

Thanks,

Ethan Roy (he/him)

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project
Importance: High

Good morning Ethan:

Thank you for MNO's comments on the Draft ER. Attached is a PDF of EPCOR's initial responses to the review conducted by MNO with support from HESL. Please note that we have attempted to provide an initial response to all comments provided via the HESL review. A number of the comments will be addressed through ongoing consultation with the MNO as EPCOR begins the detailed design stage of the project where more information will become available, post-submission of the Leave to Construct application.

I still also have the amended Relationship Agreement going through approvals and will provide it as soon as possible for signing. Once we have that signed off would you like to discuss potential dates to meet with the Consultation Committee?

Thank you again for your generous help with reviewing these materials and ensuing a better process aligned with MNO's perspective.

kinanâskomitin,
Jed

Good morning Jed,

I appreciate your patience. I have attached the MNO comment on the Draft ER for the Brockton Natural Gas project to this email. It consists of the Brockton Pipeline Review performed Hutchinson Environmental Services Limited (HESL), as well as, a cover letter signed by Regional Chair for MNO Region 7 David Dusome, which provides context for the peer-review comments.

Also attached is the amended GRA between the MNO and EPCOR. It has been updated to reflect current GBTTCC members, given the recent election, and has been approved by the GBTTCC. The procedure in MNO Region 7 is now for the proponent (in this case EPCOR) to sign the agreement if approved, and the MNO will sign the agreement once returned.

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

kinanâskomitin,
Jed

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Jed,

Thank you for getting back to us, and agreeing for capacity funding for tomorrow while we work to complete a schedule going forward.

Given we have the commitment in writing, we are happy to proceed with the meeting tomorrow and look forward to meeting with you.

Thanks,

Ethan Roy (he/him)

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal teamto draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

kinanâskomitin,
Jed

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira.

Best regards,

Karen

Karen Heisler (she/her)

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: "In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work."
>
> Section 3.5 follows "In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA."

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

Re: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Date/time
2023-03-31 14:29

Description

From: Jarmo Jalava
Sent: Friday, March 31, 2023 2:29 PM
To: Johns, Jed
Cc: William Blackport ; Karen Heisler ; Liz Peterson ; Charlene Leonard
Subject: Re: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Good afternoon Jed,

After discussing with Charlene Leonard, I'm writing with respect to the proposed work on the Brockton Natural Gas Pipeline project (as per the email string below). In January I completed much of the terrestrial ecology technical review based on the draft Environmental Report (dated August 24, 2022), the "Existing Environmental Conditions" mapping, and a December 2022 site visit that I undertook with SON Hydrogeology Advisory Bill Blackport.

The draft Environmental Report refers to additional ELC work to be undertaken later in 2022. SON requested this additional information earlier this year. The ELC data are needed to assist in evaluating potential impacts and determining if any additional mitigation recommendations are needed. I see in the email string that the ELC mapping was not available as of March 7

email string that the ELC mapping was not available as of March 7.

I was planning to finalize my terrestrial ecology tech review this week but without the ELC (and any other relevant data collected in 2022 not yet in the draft report), my review would be considered incomplete. This would likely slow down a SON decision on the project, so I will wait until this information is available. I'm not in a position to advise with respect to the LTC application, but as long as no actual construction activity is taking place there would not be terrestrial ecology concerns.

We look forward to receiving the final environmental report and ELC (please be sure to keep Charlene as your main contact unless she advises otherwise).

Thank you,

Jarmo Jalava

Good morning Charlene:

I've been informed we may have a short delay on the LTC submission, if SON had any comments on the ER they wished to provide this would be a good time to review.

Was there anything you needed from our side to support the ER review submission from SON?

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I've been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I'll make sure to follow up with a phone call as I hope to address any obstacles.

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding,
Jed

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful

I'm wondering if the results of the full fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,
Charlene Leonard

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of the review has gone and if you have any other questions?

kinanâskomitin,
Jed

Hi Jed,

The Letter of Agreement (LOA) is like our invoice. In the past a cheque was sent for the amount in the LOA. Attached is the LOA for your reference.

Hi again Jed,

We typically don't start reviewing technical documents until we receive payment for the Letter of Agreement. The Letter of Agreement was signed August 10, 2022 but we have not received payment yet. This is why there has been a delay and once payment is received the review will be 60 days after that. If you have any questions please let me know.

RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Date/time
2023-03-27 08:50

Description

Good morning Charlene:

I've been informed we may have a short delay on the LTC submission, if SON had any comments on the ER they wished to provide this would be a good time to review.

Was there anything you needed from our side to support the ER review submission from SON?

kinanâskomitin,
Jed

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I've been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I'll make sure to follow up with a phone call as I hope to address any obstacles.

kinanâskomitin,
Jed

Cc: Stachowski , Thomas
Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding,
Jed

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,

C-24209	RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project	2023-03-16 11:38

Description

Good morning Ethan:

Thank you for MNO's comments on the Draft ER. Attached is a PDF of EPCOR's initial responses to the review conducted by MNO with support from HESL. Please note that we have attempted to provide an initial response to all comments provided via the HESL review. A number of the comments will be addressed through ongoing consultation with the MNO as EPCOR begins the detailed design stage of the project where more information will become available, post-submission of the Leave to Construct application.

I still also have the amended Relationship Agreement going through approvals and will provide it as soon as possible for signing. Once we have that signed off would you like to discuss potential dates to meet with the Consultation Committee?

Thank you again for your generous help with reviewing these materials and ensuing a better process aligned with MNO's perspective.

kinanâskomitin,
Jed

Good morning Jed,

I appreciate your patience. I have attached the MNO comment on the Draft ER for the Brockton Natural Gas project to this email. It consists of the Brockton Pipeline Review performed Hutchinson Environmental Services Limited (HESL), as well as, a cover letter signed by Regional Chair for MNO Region 7 David Dusome, which provides context for the peer-review comments.

Also attached is the amended GRA between the MNO and EPCOR. It has been updated to reflect current GBTTCC members, given the recent election, and has been approved by the GBTTCC. The procedure in MNO Region 7 is now for the proponent (in this case EPCOR) to sign the agreement if approved, and the MNO will sign the agreement once returned.

Thanks

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC	$800

Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

kinanâskomitin,
Jed

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Sent: August 11, 2022 3:49 PM
To: 'Johns, Jed' <JJohns@epcor.com>
Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that

supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA."

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Title
RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Date/time
2023-03-13 10:12

Description

Good morning Charlene:

Thank you for taking my call last week, wanted to follow up if you had a chance to speak with your team about the ER review?

kinanâskomitin,
Jed

Jed Johns

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I’ve been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I’ll make sure to follow up with a phone call as I hope to address any obstacles.

kinanâskomitin,
Jed

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding,
Jed

Good morning Charlene:

Hope you are well. Wanted to follow-up if we could expect SON's review soon so we can incorporate/respond to in time for submission for the Leave to Construct. Our team has informed me we need to submit at the end of this month – is there any chance you could send us the Nations' feedback this week?

Happy to answer any outstanding questions.

Hello Charlene:

I've been informed that the ELC field work was completed but the report for that has not yet been finalized. Will ensure to get you more details as I get them. Also, wished to follow-up on if the reports were ready to be released to us?

Many thanks!

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,
Charlene Leonard

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Good morning Charlene:

I wanted to follow-up on this as we are currently finalizing the Leave to Construct for submission and I wanted to reach out again to inquire if there was anything we could include this week from SON before the submission?

I've been advised the ELC report is not finished by Stantec and hope that it will not pose an obstacle to working with SON on identifying their questions, concerns, and interests on the Project.

I'll make sure to follow up with a phone call as I hope to address any obstacles.

kinanâskomitin,
Jed

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Hi Charlene:

The project team has informed me that the typical process is to submit the Leave to Construct, with Indigenous feedback from SON. The ELC is not required at the time of Leave to Construct application submission. Once the project is undergoing further development, the ELC would then be finalized and shared with the FN as per on going consultation.

EPCOR was hoping to have submitted the Leave to Construct already, which would allow us to complete the ELC and continue this process with the SON.

Does this impact the submission for SON?

Thank you for understanding,
Jed

Hello Jed,

Per our conversation last week, I am waiting for that last report that you were going to update me on.

Good afternoon Charlene:

Following up on our phone conversation last week on SON's submission– do you know when we could expect the submission? We may be past the time to incorporate into the Leave to Construct but I can work with the project team to ensure we have options that work for your Nations.

Thank you in advance,
Jed

Good morning Charlene:

Hope you are well. Wanted to follow-up if we could expect SON's review soon so we can incorporate/respond to in time for submission for the Leave to Construct. Our team has informed me we need to submit at the end of this month – is there any chance you could send us the Nations' feedback this week?

Happy to answer any outstanding questions.

Hello Charlene:

I've been informed that the ELC field work was completed but the report for that has not yet been finalized. Will ensure to get you more details as I get them. Also, wished to follow-up on if the reports were ready to be released to us?

Many thanks!

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Thank you,
Charlene Leonard

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of the review has gone and if you have any other questions?

kinanâskomitin,
Jed

Hi again Jed,

We typically don't start reviewing technical documents until we receive payment for the Letter of Agreement. The Letter of Agreement was signed August 10, 2022 but we have not received payment yet. This is why there has been a delay and once payment is received the review will be 60 days after that. If you have any questions please let me know.

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Good morning Jed,

I appreciate your patience. I have attached the MNO comment on the Draft ER for the Brockton Natural Gas project to this email. It consists of the Brockton Pipeline Review performed Hutchinson Environmental Services Limited (HESL), as well as, a cover letter signed by Regional Chair for MNO Region 7 David Dusome, which provides context for the peer-review comments.

Also attached is the amended GRA between the MNO and EPCOR. It has been updated to reflect current GBTTCC members, given the recent election, and has been approved by the GBTTCC. The procedure in MNO Region 7 is now for the proponent (in this case EPCOR) to sign the agreement if approved, and the MNO will sign the agreement once returned.

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Hello Karen:

Many thanks on this review. I wanted to check in on how it is going?

Please let me know if you will be sending an invoice for any completed work thus far as I don't want our delay in getting an agreement signed to impact your ability to conduct this important review. I'm looping back with our legal team, apologies for the delay.

Hope all is well and chat soon,
Jed

Good morning Jed,

As agreed, the MNO has contracted a consultant to review the ER for the Brockton NG Project. This work is now underway.

Thank you,

Karen

Good afternoon Karen:

Thank you for these proposed costs. Please accept this email as confirmation that EPCOR we will cover costs of the Peer Review up to the amounts outlined below. Thank you for your patience as we work on the updated draft GRA that will be inclusive of these.

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

kinanâskomitin,
Jed

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira.

Best regards,

Karen

From: Karen Heisler
Sent: August 11, 2022 3:49 PM
To: 'Johns, Jed' <JJohns@epcor.com>
Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Good morning Jed,

I appreciate your patience. I have attached the MNO comment on the Draft ER for the Brockton Natural Gas project to this email. It consists of the Brockton Pipeline Review performed Hutchinson Environmental Services Limited (HESL), as well as, a cover letter signed by Regional Chair for MNO Region 7 David Dusome, which provides context for the peer-review comments.

Also attached is the amended GRA between the MNO and EPCOR. It has been updated to reflect current GBTTCC members, given the recent election, and has been approved by the GBTTCC. The procedure in MNO Region 7 is now for the proponent (in this case EPCOR) to sign the agreement if approved, and the MNO will sign the agreement once returned.

Thanks,

Good morning Jed,

Thank you for sending over the GRA update, we're still working through it on our end between the MNO and the councils we serve, and I will update you as soon as I know more.

Thanks for your patience,

Ethan Roy (he/him)

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Hello Karen:

Many thanks on this review. I wanted to check in on how it is going?

Please let me know if you will be sending an invoice for any completed work thus far as I don't want our delay in getting an agreement signed to impact your ability to conduct this important review. I'm looping back with our legal team, apologies for the delay.

Hope all is well and chat soon,
Jed

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Sent: August 11, 2022 3:49 PM
To: 'Johns, Jed' <JJohns@epcor.com>
Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee

- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens

- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information

Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports

- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution

- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring

Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

Good morning Charlene:

Hope you are well. Wanted to follow-up if we could expect SON's review soon so we can incorporate/respond to in time for submission for the Leave to Construct. Our team has informed me we need to submit at the end of this month – is there any chance you could send us the Nations' feedback this week?

Happy to answer any outstanding questions.

kinanâskomitin,
Jed

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible

contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Hello Karen:

Many thanks on this review. I wanted to check in on how it is going?

Please let me know if you will be sending an invoice for any completed work thus far as I don't want our delay in getting an agreement signed to impact your ability to conduct this important review. I'm looping back with our legal team, apologies for the delay.

Hope all is well and chat soon,
Jed

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira.

Best regards,

Karen

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

Section 2.4 of that agreement states: “In the event that the parties agree to conduct

> additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work."
>
> Section 3.5 follows "In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA."

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Hello Jed,

I will get an update from all involved. I am expecting to have the reports ready for you by the end of the week, or early next week.

We are finding that the existing (draft) Environmental Report prepared by Stantec is really more of a scoping study with only a small amount of actual field data. It appears that Stantec was planning to do additional studies (e.g., Ecological Land Classification) in the fall.

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for

I'm wondering if the results of the fall fieldwork are available? The additional data should be useful for evaluating potential impacts and mitigation recommendations.

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of the review has gone and if you have any other questions?

kinanâskomitin,
Jed

Hi again Jed,

We typically don't start reviewing technical documents until we receive payment for the Letter of Agreement. The Letter of Agreement was signed August 10, 2022 but we have not received payment yet. This is why there has been a delay and once payment is received the review will be 60 days after that. If you have any questions please let me know.

Good afternoon Juanita:

Hope your week is going well. Wanted to follow up on the reports from SON and ask if we can expect them this week? Please do let me know if you require any other information, happy to get it for you.

kinanâskomitin,
Jed

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of

the review has gone and if you have any other questions?

kinanâskomitin,
Jed

Hello again Jed,

Our archaeologist has asked that there was some Stage 2 work done in the Stage 1 report could you let me know where this work was done and when and if the EO was notified of this Stage 2 work,

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Greetings,

Please find attached a letter that contains information on EPCOR's draft*Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Title
RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Date/time
2023-01-31 13:29

Description

Hi Ethan:

Hope you are well. I wanted to follow up on the latest GRA update sent on January 20th, are there any concerns regarding the updated agreement? Please let me know if we can begin looking at signing or if more discussion needed.

kinanâskomitin,
Jed

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

kinanâskomitin,
Jed

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Hello Karen:

Many thanks on this review. I wanted to check in on how it is going?

Please let me know if you will be sending an invoice for any completed work thus far as I don't want our delay in getting an agreement signed to impact your ability to conduct this important review. I'm looping back with our legal team, apologies for the delay.

Hope all is well and chat soon,
Jed

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario

requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose

meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira.

Best regards,

Karen

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in

Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Subject: RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of the review has gone and if you have any other questions?

kinanâskomitin,
Jed

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Description

Good morning Ethan:

Thank you for your patience on this, please find an updated GRA and Schedule H based on our previous discussions for review. Please let me know if you have any changes, questions or concerns. If this version is good to go we can begin signing and working towards our meeting with the Regional Consultation Committee if that works on your end.

kinanâskomitin,

Hi Jed,

The review is complete and the Regional Consultation Committee will be receiving a presentation from the consultant tomorrow. Once the RCC has approved the report, we will move forward with providing the consultant report with the RCC's comments to you. Moving forward we would like to see an agreement put in place for continued communication and EPCOR for the duration of the project to ensure the Métis concerns and interests are addressed. As discussed in previous emails this is best facilitated through a general relationship agreement that allows for a set schedule of meetings with the RCC to provide information about the progress of the project. Please let me know how the agreement is progressing. In the meantime, we will be preparing an invoice for the consulting fees for the review.

Best regards,

Karen Heisler

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Thank Jed, given it is October 25 we will not likely be able to get the review done before the end of October but should see results in November.

Karen

Good afternoon Karen:

Thank you for these proposed costs. Please accept this email as confirmation that EPCOR we will cover costs of the Peer Review up to the amounts outlined below. Thank you for your patience as we work on the updated draft GRA that will be inclusive of these.

kinanâskomitin,
Jed

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks

Thanks,

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project
Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

kinanâskomitin,
Jed

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira

payment of honoraria.

Best regards,

Karen

Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for

- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports

- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution

- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Hi Juanita:

My sincere apologies of missing this, I had thought I sent a response and see it sat in my drafts.

Our project team has confirmed that Stage II AA for Brockton has not started yet and this is likely referring to work already done for the Southern Bruce project.

Stage 2 work is going to occur following LTC approval and prior to construction starting. There may be some reference to Stage II work completed for the separate Southern Bruce Project which shares some similar project boundaries to the Brockton Project.

I hope that clears things up, if not happy to look into it more. I also wanted to ask how the rest of the review has gone and if you have any other questions?

kinanâskomitin,
Jed

Hi again Jed,

We typically don't start reviewing technical documents until we receive payment for the Letter of Agreement. The Letter of Agreement was signed August 10, 2022 but we have not received payment yet. This is why there has been a delay and once payment is received the review will be 60 days after that. If you have any questions please let me know.

C-21741	RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project	2022-11-15 15:37

Description

Hello Karen:

Many thanks on this review. I wanted to check in on how it is going?

Please let me know if you will be sending an invoice for any completed work thus far as I don't want our delay in getting an agreement signed to impact your ability to conduct this important review. I'm looping back with our legal team, apologies for the delay.

Hope all is well and chat soon,
Jed

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a

request for comment on the draft ER. As mentioned in our previous conversations, this will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira.

Best regards,

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: "In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work."
>
> Section 3.5 follows "In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA."

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee

- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens

- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports

- Regarding the review of the draft Environmental Report. We will need to see the report

before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-

economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

Description

Good afternoon Juanita:

Hope the new Resources and Infrastructure position is treating you well! Wanted to check in the on the review of the Environmental Report and if you needed anything else to support that? Our project team was hoping to get feedback before the end of the month, I can let them know if that is too ambitious.

Thank you for the consideration.

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Hello Jed,

Attached is the proposal for the Peer Review, for the MNO. To move forward the Métis Nation of Ontario requests written commitment that EPCOR will cover the proposed cost for the peer review of the ER, administrative costs associated with processing this file and meeting expenses associated for the GBTTCC.

Cost Category	Cost
Fee for Consultant Peer Review (see attached proposal)	$5,686
Meeting cost with the GBTTCC to review peer review (virtual)	$800
MNO Administrative Fee (15%)	$972.90
Total	$7,458.9

Please respond via email confirming EPCOR's commitment, so we are able to move forward.

Best regards,

Karen

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

From: Karen Heisler
Sent: August 11, 2022 3:49 PM
To: 'Johns, Jed' <JJohns@epcor.com>
Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee
- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens
- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports
- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution
- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you

Thank you,

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Description

Good afternoon Chris:

Wanted to confirm receipt of this feedback and thank you for the response. EPCOR will review the *Draft Environmental Report* and update as appropriate based on the commentary you have provided. Thank you again for taking the time to review this document and providing a prompt response. We will also get back to you soon with more details on next steps and inclusion of your comments.

Subject: Brockton Natural Gas Expansion Project - Draft Environmental Report Comments

EPCOR - Brockton Natural Gas Expansion Project

RE: Historic Saugeen Métis Comments - Draft Environmental Report

The Historic Saugeen Métis (HSM) Lands, Resources and Consultation Department has reviewed the Brockton Natural Gas Expansion Project, Draft Environmental Report. HSM supports the mitigation measures as presented in the Environmental Report that will help protect lands and waters within the project area. More decisive language is needed within the report to replace the word “should” with “will” or “shall” when dealing with potentially sensitive environmental situations. An example would be section 7.2.3 where the report describes *“If sedimentation occurs, immediate action should be taken…”.* HSM finds greater confidence in the words such as “will” or “shall” when describing how the environment will be monitored and safeguarded. Additionally, HSM would like to be notified of the results of the Stage 2 Archaeological Assessment given the high potential within the project area.

We appreciate the opportunity to review this report and provide comments.

Regards,

Chris Hachey

RE: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Date/time
2022-10-18 15:33

Description

Good afternoon Emily and Riel:

I wanted to follow-up after the signing of the LOA (August 10) and sending out the Environmental Report (August 26) and ask how the review has been going? We hope to include your feedback before submission this month. Please do let me know if you have any questions or wish to meet regarding the Brockton Natural Gas Expansion Project, happy to set something up soon.

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Title
RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Date/time
2022-10-18 08:58

Description

Good morning Karen:

Thank you for working on the cost of the ER review, we have not yet completed the draft funding agreement at this time but will provide written confirmation via email that we will cover the cost to review. Before I can provide that confirmation I'll just need to see the proposed cost and then we can move on that front.

Thank you for being so flexible on this and for your understanding.

kinanâskomitin,
Jed

Hello Jed,

We will have the cost for the ER review by tomorrow, we have requested that the review be completed by the end of this month. Do you have the draft of the funding agreement? If not we will require written confirmation from EPCOR that they will cover the cost of the review and discussed.

Thanks,

Karen

Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraria

payment of honoraira.

Best regards,

Karen

To: 'Johns, Jed' <JJohns@epcor.com>
Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee

- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens

- We can discuss the timeline of your project to develop and an appropriate timeline for

- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports

- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution

- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Title
RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Date/time
2022-10-04 16:59

Description

From: Johns, Jed
Sent: Tuesday, October 4, 2022 4:59 PM
To: 'Karen Heisler' ; Ethan Roy
Cc: Sonnenberg, Kevin ; Stachowski , Thomas ; brocktonproject@stantec.com
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project
Importance: High

Hi Karen:

Many apologies for my delayed response on this, I've just returned from a cultural harvesting (hunting) trip on Treaty 8 lands and have been trying to catch up on everything. Happy to have a freezer full of moose meat though!

We have the draft with our Legal team now and I'll have it back to you as soon as possible, aiming before the week is out.

Would you have an estimated cost to conduct an ER review? Would it be helpful if we discuss cost and sign off on an amount now in the interim in order to support a review conducted this month?

kinanâskomitin,
Jed

Hello Jed,

Thank you for meeting with the RCC on September 2nd. I would like to touch based regarding the EPCOR's request for comment on the draft ER. As mentioned in our previous conversations, the MNO will require a new contribution funding schedule to provide the capacity to hire a consultant to review the draft ER. For us to meet your timelines of having the document reviewed by October we will need to proceed soon.

Best regards,

Karen

Good afternoon Jed,

Thank you for getting back to us, and agreeing for capacity funding for tomorrow while we work to complete a schedule going forward.

Given we have the commitment in writing, we are happy to proceed with the meeting tomorrow and look forward to meeting with you.

Thanks,

Ethan Roy (he/him)

Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Good afternoon Karen:

Apologies for the delay in response, I wanted to let you know we are working with our Legal team to draft the schedule with the information you provided and have it added as an addendum to the previous General Relationship Agreement. While we go through that process I can confirm in-principle our adherence to the contribution amounts you have forwarded and would provide that capacity funding for GBTTCC participation tomorrow. I wished to provide that commitment in writing and ask if you are comfortable to proceed tomorrow knowing we will be sending a signed version soon.

Thank you again and we look forward to future discussionson this project.

kinanâskomitin,
Jed

Hi Jed,

Just circling back regarding my August 11th email regarding finalizing the details of a contribution agreement between EPCOR and the MNO for the consultation with the Great Lakes Traditional Territory Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior

Consultation Committee (GBTTCC) for the Brockton NG Project. I would like the details agreed upon prior to the September 1, 2022 meeting, to ensure that the GBTTCC participation will be respected with the payment of honoraira.

Best regards,

Karen

From: Karen Heisler
Sent: August 11, 2022 3:49 PM
To: 'Johns, Jed' <JJohns@epcor.com>
Cc: Ethan Roy <EthanR@metisnation.org>
Subject: RE: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hi Jed,

Thank you, before moving forward in finalizing the meeting, I would like to address the Contribution Agreement. As you know EPCOR and the Georgian Bay Traditional Territory Consultation Committee and the MNO entered into a General Relationship Agreement in 2020 for the construction of the Southern Bruce Natural Gas Project (see attached).

> Section 2.4 of that agreement states: “In the event that the parties agree to conduct additional work or participate in other work that is consistent with the objectives of this GRA, the parties may negotiate additional funding requirements in order to undertake this additional work.”
>
> Section 3.5 follows “In addition to the Workplans, the Parties agree that supplementary collaborative activities may be negotiated on a case by case basis. Such additional arrangements and undertakings, once concluded in writing, will be attached as separate schedules to this GRA and become a part of this GRA.”

The MNO would like a new contribution agreement schedule for consultation for the Brockton NG Project to be added to the existing GRA 2020.

To be Included in the New Contribution Agreement Schedule:

Number of meeting with the Georgian Bay Traditional Territory Consultation Committee

- Virtual meetings with the GBTTCC require $1200.00/meeting for honoraria
- In-person meetings with the GBTTCC are an estimated cost of $3500.00 for food and venue plus meeting honoraria

Community Information Sessions and/or Communication with MNO Citizens

- We can discuss the timeline of your project to develop and an appropriate timeline for providing updates to the Consultation Committee and/or if a Community Information Session will be needed for this project (a separate budget will be required if the Consultation Committee would like you to host a Métis specific Community Information Session).

Review of Environmental Reports

- Regarding the review of the draft Environmental Report. We will need to see the report before we can decide if we have the internal capacity to review the document or if we will be required to hire technical support to review the report. Funds to cover the cost of technical review of documents should be included in the new contribution agreement Schedule.

Community Capacity Contribution

- To support the continued capacity building of the Consultation Committee, Local Councils and MNO effectively protect Métis section 35 Indigenous Rights

Given your requested timelines to meet with the Consultation Committee on September 1, 2022 and to receive comments by September 23, 2022 can we work toward having this new contribution agreement schedule for the Brockton NG Project as soon as possible.

Thank you,

Karen

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Greetings,

Please find attached a letter that contains information on EPCOR's draft*Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Subject: EPCOR Natural Gas Limited Partnership – Brockton Natural Gas Expansion Project – Environmental Report

Greetings,

Please find attached a letter that contains information on EPCOR's draft *Environmental Study* for the Brockton Natural Gas Expansion Project, drafted by Stantec Consulting Ltd. A review and any comments or concerns from your Nation would be appreciated by October 7, 2022. After this initial review we would be happy to meet with you or receive additional comments before the final submission of the *Environmental Study* to the Ontario Energy Board. We look forward to your thoughts and comments on this Project and to working on meeting your engagement requirements discussed in our meetings earlier this year.

Thank you again for your patience with us and for your continued collaboration.

Sincerely,
Thomas Stachowski, on behalf of

Hi all, good to meet! Jed and I chatted a bit more and I am going to re-connect you with Lloyd Ritchie at Saugeen. It'll be good to get this back on the staff radar even during elections. I know we said one email, but I'll connect you with Lloyd in a separate email since that will be a Saugeen-specific project.

RE: Follow-up with HSM from June 28 Meeting with EPCOR re Brockton NG Project

Date/time
2022-08-09 16:52

Description

Hello Chris:

I wanted to loop back on this project and inform you that we will have a draft Environmental Report by August 22, 2022 and wished to inquire if HSM wanted to review and provide any comments?

We would appreciate any comments by September 23, 2022 or earlier so we have enough time to integrate any comments into the final report to be submitted to the OEB.

Please let me know or if you have any other outstanding concerns or questions.

Hello Chris, Carolyn and Jenna:

Thank you first to Carolyn and Jenna for meeting with our EPCOR team on June 28 th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring

Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

Good morning Jed,

Thank you so much for the quick reply, and multiple options.

Is it possible to place a tentative hold onSeptember 1st as a date? With confirmation of a time to follow.

I have received some positive response so far, but I'm just trying develop more of a consensus among the GBTTCC to ensure the best possible engagement.

Thanks,

Hi Ethan:

Understandable and will offer some options below:

- August 18, 19, 23, or 24th at 3:00pm ET
- September 1: Any time after 10:00am ET.

Would any of these work for the Committee?

Hi Jed,

I understand the delay in response, this is a challenging time of year to organize meetings.

To that end, unfortunately the date of August 9th will no longer work for a meeting between EPCOR and the GBTTCC.

Thank you for understanding, and confirming a new date. In choosing a new date, please keep in mind that although virtual meetings tend to come together more easily, coordinating schedules can be a bit of a challenge, so presenting a few options for dates that may be mutually agreeable and ensuring at least a week of notice will lead to the greatest chances of success.

Thanks,

Hello,

Per my last email, Karen Heisler provided me your contact information in order to facilitate a virtual meeting between the Georgian Bay Traditional Territory Consultation Committee and EPCOR regarding the Brockton Community Expansion Project.

In my last email I provided some dates for which the GBTTCC would be available. Since that email, there has been new availability opened.

The GBTTCC currently has availability the following possible meeting dates:

The week of August 8th, and both August 18th and August 19th

As well as, the previous mentioned dates:

September 1st, 2nd, 9th, 12th, or 15th

Please let me know if any of these dates work for you, In order to facilitate this meeting. In doing so, could you also please provide the following:

Three potential dates and times for the meeting (preference for meeting times during business hours)
A draft agenda for this meeting
An estimate for the time allotted for this meeting to take place

Thank you for your help,

Subject: Meeting: GBTTCC-EPCOR Natural Gas Limited Partnership – Brockton Community Expansion Project

Hello,

Karen Heisler (Manager LRC Branch) provided me with your contact information in order to plan a virtual meeting between EPCOR Natural Gas Limited Partnership. and the Georgian Bay Traditional Territory Consultation Committee (GBTTCC) in regards to the Child' Pit and Quarry Expansion Project.

The GBTTCC currently has availability starting in September, with the following dates identified as possible meeting dates:

September 1st, 2nd, 9th, 12th, or 15th

In order to facilitate this meeting, could you please provide the following:

Three potential dates and times for the meeting (preference for meeting times during business hours)
A draft agenda for this meeting
An estimate for the time allotted for this meeting to take place

Thank you for your help

Thank you for your help,

Ethan Roy (he/him)

Subject: Follow-up with MNO from June 29 Meeting with EPCOR re Brockton NG Project

Hello Karen:

Thank you for meeting with our EPCOR team on June 29th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting,including a copy of the presentation, routing map, and the Shape file for the project.

Rehabilitation Monitoring
Additionally, during our meeting there was a question regarding timing of rehabilitation monitoring. We will review the disturbed areas 3 months after the in-service date and again at 15 months after the in-service date.

Next Steps
Looking forward to reviewing a draft Contribution Agreement and planning our engagement together after that. We will also connect you with Stantec regarding the Environmental Report and MNO's socio-economic feedback.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

kinanâskomitin,
Jed

Description

Good afternoon Riel:

Thank you for this letter of agreement, as we complete our reviews we wanted to clarify a timing matter with you. Would you be able to provide us with an estimated timeframe or schedule for when we could expect your comments to the Environmental Report (ER)? We plan on delivering the draft ER to SON by August 22, 2022 and would appreciate any comments by September 23, 2022 or earlier so we have enough time to integrate your comments into our final report to be submitted to the OEB.

Does this timeframe work for SON?

kinanâskomitin,
Jed

C-19393	Follow-up with SON from June 28 Meeting with EPCOR re Brockton NG Project	2022-07-15 15:00

Description

Hello Emily and Riel:

Thank you both for meeting with our EPCOR team on June 28th regarding this Brockton Natural Gas expansion project. Attached I have included notes from that meeting, please let me know if they are not accurate and I'd be happy to update.

Also attached are items requested from our meeting, including a copy of the presentation, routing map, and the Shape file for the project.

Next Steps
I believe the Letter of Agreement (LOA) was identified as a need early on in order to begin this work. We will watch out for a draft from SON and get moving on those discussions right away.

Please let us know if you have any additional questions or concerns, we will be working through the other questions and items in the minutes. Looking forward to future discussion on this project and connecting again soon.

Meeting with Metis Nation of Ontario (MNO) and EPCOR re Brockton NG Expansion Project

Date/time
2022-06-29 08:00

Description

Meeting with Metis Nation of Ontario and EPCOR re Brockton NG Expansion Project
June 28, 2022
MNO Attendee: Karen Heisler
EPCOR Attendees: Jed Johns, Kevin Sonnenberg, Thomas Stachowski

EPCOR made presentation, see attached for presentation and map.

Comments and Questions from MNO:

- Named as the Metis, not just as First Nations
- Raised challenges with Environmental Reporting on socio-economic conditions is not usually accurate; with MNO building their own database and getting certainty on demographics in area
- EPCOR to connect MNO with Stantec regarding ER socio-economic data
- Request for Shape files for the route to overlay on their maps
- Potential identified for a Traditional Knowledge study
- Request for the timeline for restoration monitoring
- Presentation to Consultation Committee should highlight pipeline safety
- MNO conducting own bat study, connect to Stantec
- Contribution Agreement required, draft to be worked on ahead of meeting with Consultation Committee
- Identify any economic benefits, such as business or procurement opportunities
- Bat study of interest; suggested looking at Toronto Zoo Study with MNO citizens invited to participate,

Meeting with Saugeen Ojibway Nation (SON) and EPCOR re Brockton NG Expansion Project

Date/time
2022-06-28 13:00

Description

Meeting with Saugeen Ojibway Nation (SON) and EPCOR re Brockton NG Expansion Project
SON Attendees: Emily Martin, Riel Warrilow
EPCOR Attendees: Jed Johns, Kevin Sonnenberg, Thomas Stachowski
June 28, 2022 Meeting at SON Environmental Office

EPCOR
- Presentation on Brockton NG Expansion Project given by EPCOR, presentation and map attached.

SON Comments and Requests:
- Riel Warrilow will be SON main contact on this project.
- Send copy of EPCOR's Indigenous Peoples Policy link to SON
- Provide SON copy of map with creek crossings highlights, and for both projects
- Request for information on the Pipe materials used
- Stantec needs to reference SON archeology work in Stage One, EPCOR to connect Stantec with SON.
- Request for a more detailed work plan on the Environmental Study work to ensure nothing is missed
- Letter of Agreement as first item of business to complete to support engagement, SON to send over a draft for consideration.
- Duty to Consult Letter not received yet by SON, EPCOR to follow-up with Ministry
- Meeting with Joint Council to be planned in future.

Meeting with Historic Saugeen Metis and EPCOR re Brockton NG Expansion Project

Date/time
2022-06-28 09:00

Description

Meeting with Historic Saugeen Metis and EPCOR re Brockton NG Expansion Project
June 28, 2022
HSM Office located at 204 High Street, Southampton, N0H2L0

HSM Attendees:
- Carolyn Myers Boone, EA, Lands, Resources and Consultation
- Jenna McGuire, Historic Saugeen Metis Office

EPCOR Attendees:
- Jed Johns, Manager, Indigenous Relations
- Kevin Sonnenberg, Senior Manager, Business Development
- Thomas Stachowski, Project Manager

EPCOR gave presentation on Project (see attached deck).

HSM Comments and Concerns:
- Archeological work: Request to be notified of any significant finds
- Turtle eggs can be routed to turtle trauma centre, need to let Stantec know (Follow-up)
  - Recommendation: Do not rotate turtles when found
  - Wish to be included in mitigation plans
- Question on the length of monitoring for re-vegetation
- Question on the chemical makeup for plastic pipes
  - How is the pipe fused together?
- Question on local source for re-seeding
- Plantains
- Offered training opportunity by HSM for Plant ID and Metis artifacts
- No other outstanding concerns at this time
- Timeline looks workable, just need supporting information.

HSM Questions:
- Will be water testing of the pipe? EPCOR: No hydrostatic testing, instead will be nitrogen tested.
- Completion timeline? EPCOR: By 2023

Description

Hello Chris:

Thank you for meeting with us on March 24, 2022 regarding the Project referenced in this email.

Please find attached the formal notice of study commencement and info on the public open house that will be hosted.

We will be in Ontario on Tuesday June 28, 2022 and wanted to ask if you and your team were available to meet that morning regarding this Project so we can answer any questions or concerns. Please do let me know if a 8:00am or 9:00am start would work. Thank you for the consideration.

kinanâskomitin,
Jed

Hello Emily:

Looking forward to meeting with you in person onJune 28, 2022 at 1:00 pm ET, thank you for confirming that. Please find attached a letter regarding the project for your records. Again, we are working on all documentation you previously requested and will have that sent your way so you can begin your preliminary review.

We wanted to send this letter ahead of any notice from the Province so that were aware as soon as possible and had a record. Please let me know if you have any questions ahead of our meeting, happy to look into them.

kinanâskomitin,
Jed

Hi Jed,
Thanks for reaching out. Yes a separate meeting would be best. We can meet at our office (address below), the afternoon of June 28th would be ideal for us.
Yes, I've been waiting on the basic project information (per request from last meeting) before briefing my advisory team. I'll keep an eye out for it. Please send a calendar invite for the 28th at a time that works for your team and we'll plan to meet in person.
Thanks,
Emily

Hello Emily:

Hope you are well! Our team from EPCOR will be in Ontario at the end of June for the June 29th public open house on the Southern Bruce Brockton Natural Gas Expansion project we had previously introduced to you on April 6, 2022.

We are aware some Indigenous Nations prefer not to attend public open houses; however, we wanted to ask if you wished to meet with us instead during this time to go over the latest information on the project. Our team is also working to fulfill your information request as per our last meeting, I'll check on that to ensure we have it sent ahead of our visit.

It would be great to meet you in person, with your team and to also introduce you to our project members.

The open house for Brockton is on Wednesday June 29, 2022. Would you be open to us coming to meet with you on June 28 or 29th? Thank you for the consideration and looking forward to your response.

Title
Brockton Expansion Project Introduction to Saugeen Ojibway Nation (SON) - Virtual Meeting

Date/time
2022-04-06 11:00

Description

Brockton Expansion Project Introduction Virtual Meeting with Saugeen Ojibway Nation (SON)
Microsoft Teams - April 6, 2022

EPCOR: Jed Johns, Kevin Sonnenberg, Thomas Stachowski
SON: Emily Martin, Resources and Infrastructure Manager

- Introduction Presentation (slide deck) shown
- SON: Are you completing construction on the South Bruce NG project? EPCOR: Yes, completing this year.
- SON: The funding has been secured? EPCOR: Yes, but not received till after LTC approved.
- SON: This project is the "expansion" of the Southern Bruce Project (clarity)? EPCOR: Yes.
- SON: Waiting for the EOB DTC response, what does that entail? EPCOR: Comes back with an assessment of who we have to connect with and ensure they are consulted. Wanted to be ahead of that and work with you in advance of these DTC letters.
- SON: Process has not changed, new items on our SON website regarding consultation, with flow chart. See link: https://www.saugeenojibwaynation.ca/resources
- SON: Letter of agreement, get initial project info first, assess if a bigger project that we have sufficient information needed, lots of technical documents, get this info to Emily (SON), then another letter of agreement with budget, then a technical review piece, then a couple meetings with EPCOR, possible meeting with advisory team, then presentation to Joint Council with the decision phase. Then if we deemed important a community engagement to take place.
  - Staff and technical
  - Advisory Committee level and present to Joint Council
  - Proximity to Saugeen FN
- EPCOR: Need a decision by July 2022 for submission with the LTC application.
- Desktop study in environmental work currently:
  - SON ideally would review the environmental study process before it is done, sometimes conducted not during the time during the season; EPCOR will connect with Stantec and SON will see the ER before fieldwork is done.
  - Field methods as part of this, SON wishes to know this for environmental and archeological work.
  - SON: Seeing these work plans is important for this consultation process
- Planning for Stage 1 and 2 of archeology
  - SON: What firm? EPCOR: Stantec likely and conducted this collaboratively with SON last time
- Seeing work plans and proposed dates as top priority now
- Copy Juanita (Emily's EA) on all communications, execassist.ri@saugeenojibwaynation.ca
- Ask that we try keep communications in one email thread.
- SON: Brought up previous Saugeen FN conversation on water services from EPCOR and the suspension of the conversation when the pandemic began.

C-16583	Brockton Natural Gas Expansion Project - EPCOR Utilities Inc.	2022-03-30 14:26

Description

Hi Karen and Justin:

Thank you for meeting with us today about the Brockton Natural Gas Expansion Project. Please find a copy of the presentation attached and the notes I took below for your records.

Brockton Natural Gas Expansion Project – March 30, 2022
Teams (Virtual) Meeting with Metis Nation of Ontario (MNO)'s Karen Heisler, Justin Hunt, with EPCOR's Thomas Stachowski and Jed Johns

- Introduction of the Brockton Expansion Project - presentation deck shared.
- Explanation of the CPCN and how it essentially carves out "territory" for gas services
- CPCN notice from OEB
- Virtual open houses coming in April 2022, these open houses can allow MNO to review the content and addressing any questions you have. Notices to be sent two weeks in advance.
- When the environmental report is coming together, we would share a draft version with the MNO and give you time to review and provide commentary to adjust the draft before further review and submission.
  - All in the advance of the LTC.
- MNO: Our Regional Consultation Committee will want to meet with EPCOR separately, likely not attend the open house. Staff person may attend open house (Justin Hunt).
  - EPCOR to send Open House content to MNO, review, and then we meet with the Regional Consultation Committee. Meet in April 2022.
- Request for capacity funding for the Consultation Committee to meet, rates are now $200/person/meeting.
- MNO only meeting virtually with proponents at this time.

ACTION: Jed to set up consultation committee meeting with Justin, copy Karen.

kinanâskomitin,
Jed

Title
Brockton Expansion Project Introduction to Metis Nation of Ontario (MNO)

Date/time
2022-03-30 13:30

Description

Teams (Virtual) Meeting with Metis Nation of Ontario (MNO)'s Karen Heisler, Justin Hunt, with EPCOR's Thomas Stachowski, and Jed Johns

- Introduction of the Brockton Expansion Project - presentation deck shared.
- Explanation of the CPCN and how it essentially carves out "territory" for gas services
- CPCN notice from OEB
- Virtual open houses coming in April 2022, these open houses can allow MNO to review the content and addressing any questions you have. Notices to be sent two weeks in advance.
- When the environmental report is coming together, we would share a draft version with the MNO and give you time to review and provide commentary to adjust the draft before further review and submission.
  - All in the advance of the LTC.
- MNO: Our Regional Consultation Committee will want to meet with EPCOR separately, likely not attend the open house. Staff person may attend (Justin Hunt).
  - EPCOR to send Open House content to MNO, review, and then we meet with the Regional Consultation Committee. Meet in April 2022.
- Request for capacity funding for the Consultation Committee to meet, rates are now $200/person/meeting.
- MNO only meeting virtually with proponents at this time.
- Jed: Set up committee meeting with Justin, copy Karen.

Title
Brockton Expansion Project Introduction to Historic Saugeen Metis (HSM)

Date/time
2022-03-24 11:00

Description

Virtual Meeting with Chris Hachey, Coordinator, Lands, Resources & Consultation for Historic Saugeen Metis (HSM), Jenna McGuire, VP and executive director, and Carolyn Myers Boone, EA.

Meeting notes:

- Presentation deck shown on who EPCOR is and intro of Brockton-Southern Bruce NG expansion project.
- HSM: Can you send a copy of the presentation? Want to keep an eye on a timeline.
  - Last time interest from the environmental and archeological reporting side, these are two areas looking to be involved again
    - Request opportunity to review and provide timely feedback
  - Attention to environmental sensitive areas
  - Interest in proposed mitigation measures, wish to ensure these are happening out in the field and will keep community informed of this at same time
  - Opportunity to visit these areas during construction
  - Can we do what was similar as last time: full report from HSM that went along with application for the Leave to Construct, let us know the community's concerns
  - Interest at minimum reviewing environmental report and opportunity to comment; species at risk that are well known in community (i.e. rainbow mussels); also lend voice to archeological studies - especially Stage 2
  - Metis artifacts sometimes not found as conventionally as current techniques in other Stages; interested in professional working on the archeology while happening
  - Any economic development-related opportunities available to share with community
- EPCOR:
  - Open houses in-person have been limited due to pandemic; proposing 2-week virtual open houses and other alternatives to those who want this information; not a specific time and the feedback can be provided online. Is there interest from community?
- HSM:
  - Best to get background info, then get environmental report, and present to community in-person, get feedback and include in feedback to be submitted to EPCOR
  - Still looking to follow this format, get community the info and then virtual meetings with community and incorporate

NEXT TOUCH POINT:

- Want the info and report first, then we will assess and decide on next time to meet.

Subject: RE: Connecting with MNO: EPCOR Natural Gas Limited Partnership (ENGLP)

Hi Karen:

I just heard back from our team and looks like that someone was not available then, any chance we could look at the week after. Apologies as I'm in a meeting and they just informed me.

Best,
Jed

Hello,

Yes March 23rd at 1pm would work for me. Justin and Jed will it work for you?

Thanks,

Karen

Good morning Karen:

So sorry for the delayed response, it has been a little hectic the last few days with construction just starting up all across the jurisdictions we serve. So sorry we missed the time frames you proposed this week. Would you be free the afternoon of March 23rd or in the afternoon the week of March 28th?

Hi Jed,

Yes, we can definitely meet. I am including Consultation Advisor for Region 7 Justin Hunt. Would next week work for you? I am free Wednesday between 9 am to 3pm, or Thursday morning. Also, please send any information you have about the project to us to take a look at prior to the meeting.

Thank you,

Karen

Good afternoon Karen:

Hope you had a great weekend and are keeping well. EPCOR had previously engaged with the

Metis Nation of Ontario (MNO) on our natural gas pipeline project to initially service Southern Bruce and are hoping we can continue good communication with you and the MNO.

EPCOR is proposing natural gas pipeline expansion in the Southern Bruce areathat we wanted to ensure the HSM was aware of and that get you early information as we start this process.

Would you have some time in the next week or two for a virtual meeting with myself and a member of the project team so we can introduce ourselves and connect?

Many thanks on the consideration and looking forward to your response.
