Good afternoon Rosalind:

I checked our records and I see no mention of harvesting rights by the three Indigenous Nations and communities we had conversations with in Ontario on Southern Bruce. Thank you for your inquiry and please let me know if you require anything else.

kinanâskomitin,
Jed

Hello,

As your colleagues will have mentioned, I am assessing the Brockton project for duty to consult. During my assessment, I have been asked whether harvesting rights were raised during the Southern

Bruce project (which is in a similar area). Are you aware of any communities that indicated that their harvesting rights were impacted by the project?

Thank you.

Sincerely,

Rosalind Ashe

Ministry of Energy

Hi Tim,

I hope this email finds you well and our apologies for the delay in sending this to you.

Please see below for our email, as I mentioned on my message this morning.

Re: Municipality of Brockton Project

Dear Mr. Hesselink,

I am writing further to the attached letter from the Ministry of Energy (ENERGY) to you, dated May 30, 2022 ("May 30, 2022 Letter"), where ENERGY, on behalf of the Crown delegated the procedural aspects of consultation with Indigenous communities to EPCOR Natural Gas Limited Partnership (ENGLP) for the Municipality of Brockton Project.

Based on ENERGY's further assessment of First Nation and Métis community rights in respect of the Municipality of Brockton Project, we are adding the Métis Nation of Ontario (MNO) Region 7 to the list of Indigenous communities to be consulted shared in our May 30, 2022 Letter. Based on currently available information, ENERGY's preliminary assessment is that consultation is owed to the MNO Region 7 at the low range of the consultation spectrum.

Please refer to our May 30, 2022 Delegation Letter for more details on the roles and responsibilities of the Crown and ENGLP.

We understand that ENGLP has already been engaging with the MNO on the Brockton Project. We were pleased to hear from MNO Region 7's Consultation Advisor that engagement efforts undertaken by ENGLP have been positive to date.

If you have any questions about this email or require any additional information, please contact me directly.

Sincerely,

Farrah Ali-Khan (she/her)

Re: Municipality of Brockton Project

Dear Mr. Hesselink:

Thank you for your emails dated February 23 (project description) and March 30 (shape files) notifying the Ministry of Energy (ENERGY) of EPCOR Natural Gas Limited Partnership (ENGLP)'s intention to apply to the Ontario Energy Board (OEB) for Leave to Construct for the Municipality of Brockton Project (the Project).

I understand that the Project will entail the expansion of natural gas service within two of the Southern Bruce Municipalities (the Township of Arran-Elderslie and the Municipality of Kincardine) and bring natural gas service to a number of unserved areas in the Municipality of Brockton, the Municipality of West Grey and in the Township of Chatsworth.

On behalf of the Government of Ontario (the Crown), ENERGY has reviewed the information provided by ENGLP with respect to the Project and assessed it against the Crown's current understanding of the interests and rights of Aboriginal communities who hold or claim Aboriginal or treaty rights protected under Section 35 of Canada's *Constitution Act 1982* in the area. In doing so, ENERGY has determined that the Project may have the potential to affect such Indigenous communities.

The Crown has a constitutional duty to consult and, where appropriate, accommodate Indigenous communities when the Crown contemplates conduct that might adversely impact established or asserted Aboriginal or treaty rights. These consultations are in addition to consultation imposed by statute.

While the legal responsibility to meet the duty to consult lies with the Crown, the Crown may delegate the day-to-day, procedural aspects of consultation to project proponents. Such a delegation by the Crown to Proponents is routine practice for ENERGY.

I am writing to advise you that on behalf of the Crown, ENERGY is delegating the procedural aspects of consultation in respect of the Project to ENGLP (Proponent) through this letter. ENERGY expects that the Proponent will undertake the procedural aspects of consultation with respect to any regulated requirements for the proposed Project. The Crown will fulfill the substantive aspects of consultation and retain oversight over all aspects of the process for fulfilling the Crown's duty.

Please see the appendix for information on the roles and responsibilities of both the Crown and the Proponent.

Based on the Crown's assessment of First Nation and Métis community rights and potential project impacts, the following Indigenous communities should be consulted.

Community	Mailing Address
Saugeen First Nation*	6 Cameron Drive, Southampton, ON N0H 2L0 T: (519) 797-2781 F: (519) 797-2978 sfn@saugeen.org
Chippewas of Nawash Unceded First Nation*	135 Lakeshore Blvd. Neyaashiinigmiing, ON N0H 2T0 T: (519) 534-1689 F: (519) 534-2130 sao@nawash.ca
<p>* Saugeen Ojibway Nation (SON) is collectively the Chippewas of Nawash Unceded First Nation and Saugeen First Nation. Please contact the SON's Environment Office to discuss how best to share project information and to engage with the SON. This office is responsible for managing the collective consultation interests and activities of both SON communities.</p> <p>10129 Hwy 6, Georgian Bluffs, ON N0H 2T0</p> <p>T: (519) 534-5507 F: N/A environmentoffice@saugeenojibwaynation.ca</p>	

ENERGY's preliminary assessment has determined, based on currently available information about the nature of the project's anticipated impacts, that for Saugeen First Nation and Chippewas of Nawash Unceded First Nation, consultation is owed at the moderate range of the consultation spectrum. As such, ENERGY requires the proponent to notify the communities of the project; disclose information about the project; provide an opportunity for the communities to comment; and fairly consider each community's views. Issues raised by a community should be discussed and considered in light of the potential to impact rights, with mitigation or other

forms of accommodation identified where appropriate. In addition, the proponent should provide opportunities for the community to share evidence or submissions about potential impacts should the community so choose; and offer capacity funding to support meaningful participation by the community in the consultation process, as appropriate. The proponent should be able to demonstrate how any concerns were considered and responded to, and what impact they had on project decisions moving forward. More detailed information on the roles and responsibilities delegated to the proponent is available in the appendix.

This consultation list is based on information that is subject to change. Consultation is ongoing throughout the duration of the project, including project development and design, consultation, approvals, construction, operation and decommissioning. First Nation and Métis communities may make new rights assertions at any time, and further project related developments can occur that may require additional First Nation and/or Métis communities to be notified and/or consulted.

If you become aware of potential rights impacts on Indigenous communities that are not listed above at any stage of project, please bring this to the attention of ENERGY with any supporting information regarding the claim at your earliest convenience.

Acknowledgement

By accepting this letter, the Proponent acknowledges this Crown delegation and the procedural consultation responsibilities enumerated in the appendix. If you have any questions about this request, you may contact Rosalind Ashe at Rosalind.Ashe@ontario.ca.

I trust that this information provides clarity and direction regarding the respective roles of the Crown and ENGLP. If you have any questions about this letter or require any additional information, please contact me directly.

Sincerely,

Samir Adkar, Director
Energy Networks and Indigenous Policy Branch

c: Ontario Pipeline Coordinating Committee (OPCC)

APPENDIX: PROCEDURAL CONSULTATION

Roles and Responsibilities Delegated to the Proponent

Please refer to the letter above for specific guidance on this project. On behalf of the Crown, please be advised that your responsibilities as Project Proponent for this Project include:

- providing notice and information about the Project to Indigenous communities, with sufficient detail and at a stage in the process that allows the communities to prepare their views on the Project and, if appropriate, for changes to be made to the Project. This can include:
 - accurate, complete and plain language information including a detailed description of the nature and scope of the Project and translations into Aboriginal languages where appropriate;
 - maps of the Project location and any other affected area(s);
 - information about the potential negative effects of the Project on the environment, including their severity, geographic scope and likely duration. This can include, but is not limited to, effects on ecologically sensitive areas, water bodies, wetlands, forests or the habitat of species at risk and habitat corridors;
 - a description of other provincial or federal approvals that may be required for the Project to proceed;
 - whether the Project is on privately owned or Crown controlled land;
 - any information the Proponent may have on the potential effects of the Project, including particularly any likely adverse impacts on established or asserted Aboriginal or treaty rights;
 - a written request asking the Indigenous community to provide in writing or through a face-to-face meeting:
 - any information available to them that should be considered when preparing the Project documentation;
 - any information the community may have about any potential adverse impacts on their Aboriginal or treaty rights; and
 - any suggested measures for avoiding, minimizing or mitigating potential adverse impacts;
 - information about how information provided by the Indigenous community as part of the consultation process will be collected, stored, used, and shared for their approval;
 - identification of any mechanisms that will be applied to avoid, minimize or mitigate potential adverse impacts;
 - identification of a requested timeline for response from the community and the anticipated timeline for meeting Project milestones following each notification;
 - an indication of the Proponent's availability to discuss the process and provide further information about the Project;
 - the Proponent's contact information; and
 - any additional information that might be helpful to the community;

- following up, as necessary, with Indigenous communities to ensure they received Project notices and information and are aware of the opportunity to comment, raise questions or concerns and identify potential adverse impacts on their established or asserted rights;
- gathering information about how the Project may adversely affect Aboriginal or treaty rights;
- bearing the reasonable costs associated with the procedural aspects of consultation (paying for meeting costs, making technical support available, etc.) and considering reasonable requests by communities for capacity funding to assist in participating in the consultation process;
- considering and responding to comments and concerns raised by Indigenous communities and answering questions about the Project and its potential impacts on Aboriginal or treaty rights;
- as appropriate, discussing and implementing changes to the Project in response to concerns raised by Indigenous communities. This could include modifying the Project to avoid or minimize an impact on an Aboriginal or treaty right (e.g. altering the season when construction will occur to avoid interference with mating or migratory patterns of wildlife); and
- informing Indigenous communities about how their concerns were taken into consideration and whether the Project proposal was altered in response. It is considered a best practice to provide the Indigenous community with a copy of the consultation record as part of this step for verification.

If you are unclear about the nature of a concern raised by an Indigenous community, you should seek clarification and further details from the community, provide opportunities to listen to community concerns and discuss options, and clarify any issues that fall outside the scope of the consultation process. These steps should be taken to ensure that the consultation process is meaningful and that concerns are heard and, where possible, addressed.

You can also seek guidance from the Crown at any time. It is recommended that you contact the Crown if you are unsure about how to deal with a concern raised by an Indigenous community, particularly if the concern relates to a potential adverse impact on established or asserted Aboriginal or treaty rights.

The consultation process must maintain sufficient flexibility to respond to new information, and we request that you make all reasonable efforts to build positive relationships with all Indigenous communities potentially affected by the Project. If a community is unresponsive to efforts to notify and consult, you should nonetheless make attempts to update the community on the progress of the Project, the environmental assessment (if applicable) and other regulatory approvals.

If you reach a business arrangement with an Indigenous community that may affect or relate to the Crown's duty to consult, we ask that that Crown be advised of those aspects of such an arrangement that may relate to or affect the Crown's consultation obligations, and that the community itself be apprised of the Proponent's intent to so-appraise the Crown. Whether or not any such business arrangements may be reached with any community, the Crown expects the Proponent to fulfill all of its delegated procedural consultation responsibilities to the satisfaction of the Crown.

If the Crown considers that there are outstanding issues related to consultation, the Crown may directly undertake additional consultation with Indigenous communities, which could result in delays to the Project. The Crown reserves the right to provide further instructions or add communities throughout the consultation process.

Roles and responsibilities assumed directly by the Crown

The role of the Crown in fulfilling any duty to consult and accommodate in relation to this Project includes:

- identifying for the Proponent, and updating as appropriate, the Indigenous communities to consult for the purposes of fulfillment of the Crown duty;
- carrying out, from time to time, any necessary assessment of the extent of consultation or, where appropriate, accommodation, required for the project to proceed;
- supervising the aspects of the consultation process delegated to the Proponent;
- determining in the course of Project approvals whether the consultation of Indigenous communities was sufficient;
- determining in the course of Project approvals whether accommodation of Indigenous communities, if required, is appropriate and sufficient.

Consultation Record

It is important to ensure that all consultation activities undertaken with Indigenous communities are fully documented. This includes all attempts to notify or consult the community, all interactions with and feedback from the community, and all efforts to respond to community concerns. Crown regulators require a complete consultation record in order to assess whether Aboriginal consultation and any necessary accommodation is sufficient for the Project to receive Ontario government approvals. The consultation record should include, but not be limited to, the following:

- a list of the identified Indigenous communities that were contacted;
- evidence that notices and Project information were distributed to, and received by, the Indigenous communities (via courier slips, follow up phone calls, etc.). Where a community has been non-responsive to multiple efforts to contact the community, a record of such multiple attempts and the responses or lack thereof.
- a written summary of consultations with Indigenous communities and appended documentation such as copies of notices, any meeting summaries or notes including where the meeting took place and who attended, and any other correspondence (e.g., letters and electronic communications sent and received, dates and records of all phone calls);
- responses and information provided by Indigenous communities during the consultation process. This includes information on Aboriginal or treaty rights, traditional lands, claims, or cultural heritage features and information on potential adverse impacts on such Aboriginal or treaty rights and measures for avoiding, minimizing or mitigating potential adverse impacts to those rights; and

- a summary of the rights/concerns, and potential adverse impacts on Aboriginal or treaty rights or on sites of cultural significance (e.g. burial grounds, archaeological sites), identified by Indigenous communities; how comments or concerns were considered or addressed; and any changes to the Project as a result of consultation, such as:
 - changing the Project scope or design;
 - changing the timing of proposed activities;
 - minimizing or altering the site footprint or location of the proposed activity;
 - avoiding impacts to the Aboriginal interest;
 - environmental monitoring; and
 - other mitigation strategies.

As part of its oversight role, the Crown may, at any time during the consultation and approvals stage of the Project, request records from the Proponent relating to consultations with Indigenous communities. Any records provided to the Crown will be subject to the *Freedom of Information and Protection of Privacy Act*, however, may be exempted from disclosure under section 15.1 (Relations with Aboriginal communities) of the Act. Additionally, please note that the information provided to the Crown may also be subject to disclosure where required under any other applicable laws.

The contents of what will make up the consultation record should be shared at the onset with the Indigenous communities consulted with and their permission should be obtained. It is considered a best practice to share the record with the Indigenous community prior to finalizing it to ensure it is a robust and accurate record of the consultation process.

Hi Farrah,

I hope you are well and having a good week.

Thank you for the update below. Are you able to provide any further updates on your deliberations regarding a revised delegation letter? Or confirm that it has been deemed not necessary?

Thanks,
Tim

Hi Tim,

Hope you had a good week.

I wanted to circle back with you on this issue. We spoke to the consultation advisor for MNO working on this project; it sounds like the engagement efforts are going well between MNO and EPCOR.

Based on our conversation, we're deliberating on whether we'll be reissuing an updated delegation letter, or will send you an informal communication to this effect. We'll be discussing with our legal counsel and will keep you notified. In the meantime, it sounds like your engagement efforts with MNO have been meaningful and positive.

Have a great weekend,
Farrah

Hi Tim,

Thank you for meeting with us last week; it was great to hear about EPCOR's consultation efforts underway.

We'll be meeting with MNO this Friday and intend to send the updated delegation and notification letters after meeting with them; we're aiming for the week of Feb 6th.

I'll keep you posted if we have to push that out.

Have a lovely day,
Farrah

Good morning Farrah,

Following up on our discussion last week, can you provide an idea of when we can expect the revised duty to consult? We understand that there is some internally coordination and signoff to take place in advance of issuance, but were hoping to get an approximation for internal planning purposes.

Thanks!
Tim

Hi Tim,

I haven't heard from you, so I just wanted to check in to see if you can provide shape files for this project?

Sincerely,

Rosalind

Hi Tim,

Nice to meet you over email. Confirming receipt of your incoming request. Rosalind from my team is copied here, and will be leading the DTC assessment work for your project. Typically we request shape files of project locations/geographic scope to assist in our analysis of potentially impacted communities, but I'll let Rosalind coordinate with you directly on any additional information needs she requires.

Cheers, Amy

Hello! Another update.

The Ministry of Transportation (MTO) has noted that according to the map, a portion of the proposed pipeline expansion falls on MTO right-of-way on Highway 9 between Riversdale and Greenock. The proponent should be sure to contact MTO Corridor Management (Mushir Shaikh, Mushir.Shaikh@ontario.ca) about this section.

Sincerely,

Rosalind

Hello everyone,

Another update. I have been instructed (by management) to add another step to the assessment (not just to this assessment, but this is a process change – going forward), so this means that I'll need to wait until next week. I have notified the parties of the importance of finalizing this one as soon as possible and I will continue to emphasize that point.

Sincerely,

Rosalind

Hello Rosalind

Please see attached EPCOR's application for the Phase 2 Expansion Program under which this project has been awarded funding to proceed.

On page 10 of 46 of the PDF, EPCOR states that "All lines will be constructed on public road right of ways on County and municipal road allowances." Since it will be constructed on public road right of ways, this land is considered previously disturbed.

Please let us know if you have any further questions. The attached application is also available on the OEB RDS be searching Case Number EB-2019-0255.

Kind regards,

Thomas

Hello!

I found some new information, which changes the list of communities slightly, and there could be a few more changes after ministry counterparts have reviewed, but I don't anticipate any major changes.

Hello Rosalind

I hope you had a great weekend. EPCOR has now been able to provide you a response to the harvesting rights question from Southern Bruce. Please let me know if there are any new questions your team has for EPCOR regarding the Brockton DTC.

Any possible update you can provide on when the letter/response will be finalized. This ongoing delay is now beginning to impact our constructability of this project initiating in the 2023 season.

Thank you,

Thomas

Hello! Another update.

The Ministry of Transportation (MTO) has noted that according to the map, a portion of the proposed pipeline expansion falls on MTO right-of-way on Highway 9 between Riversdale and Greenock. The proponent should be sure to contact MTO Corridor Management (Mushir Shaikh, Mushir.Shaikh@ontario.ca) about this section.

Sincerely,

Rosalind

Hello everyone,

Another update. I have been instructed (by management) to add another step to the assessment (not just to this assessment, but this is a process change – going forward), so this means that I'll need to wait until next week. I have notified the parties of the importance of finalizing this one as soon as possible and I will continue to emphasize that point.

Sincerely,

Rosalind

Hello Rosalind

Please see attached EPCOR's application for the Phase 2 Expansion Program under which this project has been awarded funding to proceed.

On page 10 of 46 of the PDF, EPCOR states that "All lines will be constructed on public road right of ways on County and municipal road allowances." Since it will be constructed on public road right of ways, this land is considered previously disturbed.

Please let us know if you have any further questions. The attached application is also available on the OEB RDS by searching Case Number EB-2019-0255.

Kind regards,

Thomas

Hello!

I found some new information, which changes the list of communities slightly, and there could be a few more changes after ministry counterparts have reviewed, but I don't anticipate any major changes.

Hello Rosalind

I hope you had a great weekend. EPCOR has now been able to provide you a response to the harvesting rights question from Southern Bruce. Please let me know if there are any new questions your team has for EPCOR regarding the Brockton DTC.

Any possible update you can provide on when the letter/response will be finalized. This ongoing delay is now beginning to impact our constructability of this project initiating in the 2023 season.

Thank you,

Thomas

Hi Rosalind,

Thanks for the info. MTO has already reached out and we have a call scheduled for next week (coordinated by Jeremiah Johnston).

We'll mention Mushir on the call to be sure that the information is communicated.

Regards,
Tim

Hi Tim,

I hope you're having a great day so far.

Also, thanks for getting back to us with your availability.

Friday the 20th at 11am seems to work for us – is that slot still available for you?

Thanks,
Farrah

Hi Farrah,

Thanks for your message. Can we schedule something for next week?

Here are a few options to consider:

Tuesday, Jan 17 @ 1pm EST

Thursday, Jan 19 @ 11am EST

Friday, Jan 20 @ 11am EST

If one of these options could work, can you please include Thomas and Jed (cc'd) on the invite? I can circle back if we need some alternative times.

Thanks,

Tim

Hi Tim,

I hope this email finds you well.

I'm writing with respect to EPCOR's proposed natural gas pipeline expansion project to serve the Municipalities of Brockton and West Grey and the Township of Chatsworth.

As you know, the Ministry of Energy (ENERGY) sent a delegation letter to EPCOR on May 30, 2022 which identifies the Indigenous communities that should be consulted on the project: Saugeen First

Nation and Chippewas of Nawash Unceded First Nation (collectively known as the Saugeen Ojibway Nation).

New information has come to our attention which indicates that the Georgian Bay Historic Métis Community (Represented by the MNO Region 7), should also be identified for consultation. We understand that you have already been engaging with the Métis Nation of Ontario on this project.

Prior to sending an updated delegation letter to EPCOR, we wanted to chat with you to get a sense of your consultations and engagements with the Indigenous communities.

Kindly let us know a day and time that works for you this week and we can set up a Teams call.

We're looking forward to the discussion.

Thanks,
Farrah

Hi John,

Thank you for providing that overview. We can confirm that Darren McCrank, Director, Operations, Ontario Region, will attend tomorrow's event and can provide remarks on behalf of EPCOR.

What time would you like him to be Young Farms? Is there any other pertinent information you can share with him?

I will be away tomorrow so have copied Darren and Thomas in so that you may connect with them directly. Feel free to copy me in.

Thanks very much,

Good afternoon Georgina;

While there is no formal agenda prepared, Lisa would welcome a representative of EPCOR to share a few words. She will be hosting the event, which, due to reopening Step 1 regulations and protocol, will be limited to 10 people.

Assoc. Minister Bill Walker will also be in attendance as will Brockton Mayor Chris Peabody and farm owners the Youngs. I'm sure Lisa will ask each to say a few words during the announcement.

I would appreciate it if you could let me know who will be attending on behalf of EPCOR.

Thank you;
John

Hello Lindsay,

Thank you for reaching out. There was a discussion already held a little over a week ago. Is this request a follow-up to that conversation? The reason I ask is that two of my colleagues from EPCOR had that meeting, and I was not present, but if this is a follow-up I can certainly coordinate setting this up.

If it is easier to discuss, please do not hesitate to call me to confirm the best approach going forward.

Hi Thomas,

I hope this message finds you well. I understand EPCOR wanted to discuss the Brockton project, eligible for funding under the Natural Gas Expansion Program. We received a map of proposed facilities, but do not have many other details. Would you be available for a call with Ministry staff on Monday, April 25 between 10:30-12? If that time works for you, please let me know the contact details of participants and I can send a Teams invite.

Thanks,
Lindsay

Hello Avi and Paula

My apologies, I have been on holiday the last few weeks just returning today. I will send you both the updated Quarterly Report by end of day today. Please let me know if there are any issues concerning this and once again apologize for not having this to you by the end of September.

Thomas

Hello Avi & Paula

Please find attached Q2 2022 quarterly report for the Phase 2 Natural Gas Expansion Project - Brockton. Please advise if there are any questions regarding the detail provided in this Q2 2022 Quarterly Report.

Have a wonderful Canada Day weekend.

Regards

Hello Paula

Please find attached Q4 2022 Quarterly Report for Brockton Project. EPCOR is awaiting information from MNO and SON to finalize Environmental Report. Report provided a few additional details.

Do not hesitate to contact me if you have any additional questions.

Hello Rosalind

I hope you had a great weekend. EPCOR has now been able to provide you a response to the harvesting rights question from Southern Bruce. Please let me know if there are any new questions your team has for EPCOR regarding the Brockton DTC.

Any possible update you can provide on when the letter/response will be finalized. This ongoing delay is now beginning to impact our constructability of this project initiating in the 2023 season.

Thank you,

Thomas

Hi Rosalind,

Thanks for the info. MTO has already reached out and we have a call scheduled for next week (coordinated by Jeremiah Johnston).

We'll mention Mushir on the call to be sure that the information is communicated.

Regards,
Tim

Hello! Another update.

The Ministry of Transportation (MTO) has noted that according to the map, a portion of the proposed pipeline expansion falls on MTO right-of-way on Highway 9 between Riversdale and Greenock. The proponent should be sure to contact MTO Corridor Management (Mushir Shaikh, Mushir.Shaikh@ontario.ca) about this section.

Sincerely,

Rosalind

Hello everyone,

Another update. I have been instructed (by management) to add another step to the assessment (not just to this assessment, but this is a process change – going forward), so this means that I'll need to wait until next week. I have notified the parties of the importance of finalizing this one as soon as possible and I will continue to emphasize that point.

Sincerely,

Rosalind

Hello Rosalind

Please see attached EPCOR's application for the Phase 2 Expansion Program under which this project has been awarded funding to proceed.

On page 10 of 46 of the PDF, EPCOR states that "All lines will be constructed on public road right of ways on County and municipal road allowances." Since it will be constructed on public road right of ways, this land is considered previously disturbed.

Please let us know if you have any further questions. The attached application is also available on the OEB RDS by searching Case Number EB-2019-0255.

Kind regards,

Thomas

One more question: Do you have a description of the land that is required for this project? Is it private land? Is it farm land, etc.? Is it 'previously disturbed' land?

Thank you.
