Dear Ms. Walli:

EB-2008-0272 – Hydro One Networks' 2009 and 2010 Transmission Rate Application – Evidence Update Filing

Hydro One Networks Inc. is updating the evidence and interrogatory responses filed with the Board on September 30, 2008 and December 23, 2008 respectively.

An electronic copy of the complete application, including the attached updates, has been filed using the Board's Regulatory Electronic Submission System (RESS) and the confirmation of successful submission slip is provided with this letter.

Hydro One Networks believes this update will contribute to the accuracy and completeness of the evidence in this application, although as noted in the list below, the scope of this update is narrowly defined and does not result in a change to the requested revenue requirement. For ease in updating the pre-filed evidence we have in some instances reprinted additional pages where content has shifted due to re-pagination, even though the actual evidence that is being updated is limited to only a select number of pages (changes are identified with a black line beside the evidence impacted).

The scope of the update covers the following:

1. Update of the 2008 bridge year projection with 2008 actual results for Capital expenditures and Operations, Maintenance and Administrative expenditures.
2. Inclusion of Hydro One Inc.'s 2008 audited Annual Consolidated Financial Statements and an additional rating agency report.
3. Correction of minor errors and omissions identified in the pre-filed evidence and interrogatories submitted to date.

To facilitate the integration of this update into your copies of pre-filed evidence, we are attaching a

Transmission Application Update Instruction.

Hydro One Networks will post electronic copies of the update on the Hydro One Networks' website for public access. In addition, one copy is being provided for public access at each of the following Hydro One Networks' offices –
