DECISION AND ORDER

EB-2023-0305

CANADIAN NIAGARA POWER INC.

**Application for an Electricity Transmitter Licence
Renewal**

BY DELEGATION, BEFORE: Brian Hewson
Vice President
Consumer Protection & Industry Performance

October 26, 2023

DECISION AND ORDER

Canadian Niagara Power Inc. filed an application on September 27, 2023, with the Ontario Energy Board (OEB) pursuant to section 60 of the *Ontario Energy Board Act, 1998* (OEB Act), for renewal of its electricity transmitter licence ET-2003-0073, which is set to expire on December 23, 2023.

This Decision and Order is being issued by the Delegated Authority pursuant to section 6 of the OEB Act. The Delegated Authority has considered the application without holding a hearing pursuant to section 6(4) of the OEB Act.

Canadian Niagara Power Inc. filed its application in accordance with the OEB's streamlined process for renewals of existing transmitter licences. The streamlined process was developed by the OEB to increase administrative efficiency and to minimize regulatory costs by enabling the OEB to rely on pertinent and currently valid information already reported to the OEB by the applicant. The process also requires an applicant to provide confirmation of specified information regarding its organization and service area. Through its application, Canadian Niagara Power Inc. provided all of the required information and confirmations, including that its service area is accurately described in its existing licence.

After considering the information filed by the applicant, the OEB finds that it is in the public interest to grant the application and renew Canadian Niagara Power Inc.'s electricity transmitter licence. For purposes of administrative efficiency, the renewal licence is being issued under the same number as that of the expiring licence (ET-2003-0073). This will serve to simplify administration regarding existing rate orders and other forms of regulatory documents, as well as assist in maintaining continuity in the reporting of information by the transmitter. The OEB has also taken this opportunity to update the licence by removing standard terms and conditions, and by removing exemptions from the licence, that are no longer in force or necessary. The licence is issued with a twenty-year term.

IT IS ORDERED THAT:

1. Canadian Niagara Power Inc.'s application for the renewal of its electricity transmitter licence is granted, on such conditions as are contained in the attached licence.

DATED at Toronto October 26, 2023
