

NOTICE OF A RATE HEARING

Greater Sudbury Hydro Inc. has applied to change its electricity distribution rates, effective May 1, 2024

If the application is approved as filed, a typical residential customer and a typical general service customer of Greater Sudbury Hydro Inc. would see the following increase:

Residential (750 kWh)	\$1.58 per month
General Service less than 50kW (2,000 kWh)	\$3.70 per month

The requested rate change is set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency.

Greater Sudbury Hydro Inc. also identified errors in previously approved balances in its commodity related variance accounts and is seeking approval to rectify the error in this application. Resolving these errors may result in retroactive ratemaking. If approved, the request will not have a material bill impact.

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed changes.

YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has applied for, and the OEB plans to proceed with, a written hearing. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as Intervenor. After the hearing, we will decide whether to approve the application.
