Re: Support for E.L.K. Energy Inc. 2024 ICM Application EB=2023-0013

The Harrow & Colchester South Chamber of Commerce (the "Chamber") is pleased to provide this letter of support for E.L.K. Energy Inc.'s ("E.L.K.") 2024 Incremental Capital Module ("ICM") application to the Ontario Energy Board ("OEB").

The ICM application relates to E.L.K. investments in switch technology that will directly reduce customer outages in the community of Harrow due to Loss of Supply. The installation of this technology is a reflection of E.L.K.'s commitment to improving the reliability of its electricity system.

The Chamber supports the prospect of a more modern, robust and reliable electricity system, and with it, the prospect of economic development and support for electric vehicle growth.

We thank you for your time and consideration in this matter and please contact me at any time should you wish to discuss these matters further.

Sincerely,

Dennis McLean
President
