

Enbridge Gas Inc.

**Application for leave to construct natural gas pipeline
and associated facilities in the Community of Neustadt
within the Municipality of West Grey**

**PROCEDURAL ORDER NO. 1
November 17, 2023**

Enbridge Gas Inc. (Enbridge Gas) has applied to the Ontario Energy Board (OEB) under sections 90 and 97 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, (Schedule B), for an order granting leave to construct approximately 12 kilometres of natural gas pipeline and associated facilities in the Community of Neustadt within the Municipality of West Grey. The proposed natural gas pipeline consists of approximately 4.8 kilometres of nominal pipe size (NPS) 2-inch polyethylene (PE) distribution pipeline and approximately 7.6 kilometres of NPS 6-inch PE distribution pipeline, consisting of approximately 6.7 km of supply lateral and 0.9 km of reinforcement pipeline. The proposed pipeline would supply natural gas to approximately 230 customers in the community of Neustadt who currently do not have access to natural gas service.

Enbridge Gas has also applied to the OEB for approval of the form of land use agreements it offers to landowners for the routing and construction of the project.

A Notice of Hearing was issued on October 10, 2023. Environmental Defence (ED) and Pollution Probe applied for intervenor status and for cost eligibility.

Enbridge Gas filed a letter dated November 14, 2023, informing the OEB that it does not object to the intervention of ED and Pollution Probe and their cost eligibility requests.

ED and Pollution Probe are approved as intervenors. The list of parties in this proceeding is attached as Schedule A to this Procedural Order. Pollution Probe is eligible to apply for an award of costs under the OEB's [*Practice Direction on Cost Awards*](#) (Practice Direction).

All intervenors are encouraged to coordinate efforts to the extent possible. Pursuant to section 5.01 of the Practice Direction, in determining the amount of a cost award to a party, the OEB may consider, among other things, whether the party has demonstrated through its participation and documented in its cost claim that it has made reasonable efforts to combine its intervention with that of one or more similarly interested parties,

and to co-operate with all other parties. Cost eligible intervenors should also be aware that the OEB will not generally allow the recovery of costs for the attendance of more than one representative of any party unless a compelling reason is provided when cost claims are filed.

Request for Confidentiality

Enbridge Gas has requested confidential treatment for personal information in the Environmental Report (Exhibit F/Tab 1/Schedule 1/Attachment 1) and in the Landowner List (Exhibit G/Tab 1/Schedule 1/Attachment 3).

The OEB has reviewed Enbridge Gas's request for the redaction of personal information. The OEB finds that the redacted information in the Environmental Report (Exhibit F/Tab 1/Schedule 1/ Attachment 1) and in the Landowner List (Exhibit G/Tab 1/Schedule 1/ Attachments 3) is personal information as defined in the Freedom of Information and Protection of Privacy Act (FIPPA) and the OEB's [Practice Direction on Confidential Filings](#). Therefore, the information regarding property owners shall remain redacted and shall not be provided to the intervenors in this proceeding.

Filing of Intervenor Evidence

In its letter of intervention, ED stated that it wished to file evidence in this proceeding.

In its letter dated November 14, 2023, Enbridge Gas noted that ED did not provide details regarding the nature of its proposed evidence. Enbridge Gas stated it is not able to comment on the relevance of ED's proposed evidence at this time and reserves its right to challenge the proposed evidence once clarity is provided.

The OEB will make a determination on requests to file evidence in the current proceeding, and any process associated with that request, at a later date.

Interrogatories

At this time, provision is being made for written interrogatories. In preparing their interrogatories, parties should refer to the OEB's [standard Issues List](#) for natural gas leave to construct applications. Parties should not engage in detailed exploration of issues that do not appear to be material. In making its decision on cost awards, the OEB will consider whether intervenors made reasonable efforts to ensure that their participation in the hearing was focused on material issues.

Parties should consult sections 26 and 27 of the OEB's [Rules of Practice and Procedure](#) regarding required naming and numbering conventions and other matters related to interrogatories.

Technical Conference

ED stated that it may request that the OEB make provision for a technical conference following the receipt of interrogatory responses.

The OEB will make its determination on the request for a technical conference after the responses to interrogatories have been filed. OEB staff and intervenors may file comments on the need for a technical conference in accordance with the schedule set out in this Procedural Order. Enbridge will have the opportunity to respond to those comments.

Further procedural orders may be issued by the OEB.
