1 **2.9 Exhibit 9: Deferral and Variance Accounts**

2
3 Wasaga Distribution Inc. (WDI) has included in this Cost of Service (COS) application, a request for
4 approval of the Group 1 and Group 2 Deferral and Variance Account (DVA) balances as of December
5 31, 2022. Included as part of the request for disposition is the forecast interest through to April 30,
6 2024.

7
8 The Exhibit also describes the methodology proposed to allocate account balances to customer
9 classes, describes the rationale supporting the proposed disposition period and quantifies the
10 proposed rate riders for disposition of the recorded balances.

11
12 WDI has provided the DVA Continuity Schedule in Appendix 9 (A) of this Exhibit.

13
14 Group 1 and Group 2 balances are proposed to be disposed of over a one-year period. WDI has
15 followed the Ontario Energy Board's (OEB) guidance as provided by the OEB's Electricity Distributor's
16 Disposition of Variance Accounts Reporting Requirements Report.

17
18 WDI applies the accrual method in calculating carrying charges, which is in accordance with the OEB's
19 directive. The forecasted interest on December 31, 2022, principal balances of the DVA's is calculated
20 using the OEB's prescribed rates.

21 22 **Summary of Group 1 and Group 2 Account Balances**

23 Table 9.1 below is a summary of the principal, carrying charges, and disposition amounts for all active
24 Group 1 and Group 2 accounts, including the reason for not claiming disposition. Additional details,
25 including explanations for variances to Section 2.1.7 of the RRR Filing, are provided in subsequent
26 sections of Exhibit 9.

27
28 WDI has not made any adjustments to DVA balances that were not previously approved by the OEB
29 on a final basis either in a COS or Incentive Rate Mechanism (IRM) proceeding.

1 **Compliance with the Accounting Procedure Handbook**

2 WDI confirms all accounts in Group 1 and Group 2 are accounted for in accordance with the
3 Accounting Procedure Handbook (APH).

4

5 **Compliance with OEB 1588 and 1589 Account Guidance**

6 WDI confirms it has complied with the OEB's February 21, 2019, guidelines on the accounting for
7 Accounts 1588 – RSVA Power and 1589 – RSVA Global Adjustment.

8

9 **Departure from Board Approved Balances**

10 WDI confirms it has not made any adjustments to DVA balances that were previously approved by the
11 Board on a final basis, either in a COS or IRM proceeding.

1 **2.9.1 Disposition of Deferral and Variance Accounts**

2

3 **Disposition of Group 1 Accounts**

4 **1550 – LV Variance Account**

5 For account 1550, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
6 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
7 requested for disposal, including carrying charges is a debit of \$305,071.

8

9 **1551 – Smart Metering Entity Charge Variance Account**

10 For account 1551, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
11 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
12 requested for disposal, including carrying charges is a credit of \$43,934.

13

14 **1580 – RSVA – Wholesale Market Service Charge**

15 For account 1580, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
16 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
17 requested for disposal, including carrying charges is a debit of \$358,423.

18

19 **1580 – Wholesale Market Service Charge – Sub-Account CBR Class B**

20 For account 1580 – Sub-Account CBR Class B, WDI is requesting disposition of the December 31,
21 2022, audited balance (adjusted for approved dispositions in 2023), plus forecasted interest through
22 April 30, 2024. The balance requested for disposal, including carrying charges is a credit of \$19,815.

23

24 **1584 – RSVA – Retail Transmission Network Charge**

25 For account 1584, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
26 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
27 requested for disposal, including carrying charges is a debit of \$145,138.

1 **1586 – RSVA – Retail Transmission Connection Charge**

2 For account 1586, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
3 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
4 requested for disposal, including carrying charges is a debit of \$97,960.

5

6 **1588 – RSVA – Power (Excluding Global Adjustment)**

7 For account 1588, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
8 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
9 requested for disposal, including carrying charges is a credit of \$21,000.

10

11 **1589 – RSVA – Disposition of Global Adjustment Variance**

12 For account 1589, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
13 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
14 requested for disposal, including carrying charges is a credit of \$29,041.

15

16 All distributors are required to complete and submit a Global Adjustment (GA) Analysis Workform for
17 each year that has not been previously approved by the OEB for disposition. The GA Analysis
18 Workform helps the OEB to assess if the total annual variance that is recorded to Account 1589 is
19 reasonable. The Workform compares the actual general ledger transactions recorded during the year
20 to an expected balance that is calculated based on monthly GA volumes, revenues, and costs.

21

22 WDI confirms it has completed the GA Analysis Workform for 2022 and the variance calculated is
23 below the 1% materiality threshold. The Workform is included in Appendix 9 (B) of this Exhibit.

24

25 **Disposition of Group 2 Accounts**

26 **1508 – Other Regulatory Assets – Energy East**

27 On June 13, 2014, the OEB established this deferral account to record the costs for the Energy East
28 consultation completed by the OEB. In April of 2015, WDI was allocated a total of \$1,267 regarding
29 the Energy East consultation costs. Of this amount, \$237 was incurred as a regulatory expense and
30 \$1,031 was recorded in account 1508 – Other Regulatory Assets – Energy East.

31

1 For account 1508 – Other Regulatory Assets – Energy East, WDI is requesting disposition of the
 2 December 31, 2022, audited balance (adjusted for approved dispositions in 2023), plus forecasted
 3 interest through April 30, 2024. The balance requested for disposal, including carrying charges is a
 4 debit of \$1,207.

5
 6 **1508 – Other Regulatory Assets – OEB Cost Assessment**
 7 As per a Board letter dated February 9, 2016, the Board established this account for electricity
 8 distributors to record material differences between the OEB cost assessments currently built into
 9 rates, and the cost assessments that will result from the application of the new cost assessment model
 10 effective April 1, 2016.

11
 12 Table 9.2 shows the breakdown of the amounts recorded in this account.

13
 14 **Table 9.2: OEB Cost Assessment Variances**

Year	Total Invoice Amount	Total Approved in OEB Rates	Total Variance Amount
2016	51,501	26,238	25,263
2017	59,517	26,238	33,279
2018	56,046	26,238	29,808
2019	57,040	26,238	30,802
2020	57,419	26,238	31,181
2021	54,908	26,238	28,670
2022	62,544	26,238	36,306
Total Principal as of December 31, 2022			215,309
Total Interest through April 30, 2024			25,631
Total Disposition Request			240,940

15
 16 For account 1508 – Other Regulatory Assets – OEB Cost Assessment, WDI is requesting disposition
 17 of the December 31, 2022, audited balance (adjusted for approved dispositions in 2023), plus
 18 forecasted interest through April 30, 2024. The balance requested for disposal, including carrying
 19 charges is a debit of \$240,940.

1 **1508 – Pole Attachment Variance**

2 On March 22, 2018, the OEB issued the Report of Ontario Energy Board: Wireline Pole Attachment
3 Charges. The report established a province-wide charge to be applied to all licenced electricity
4 distributors for wireline telecom attachments.

5

6 Table 9.3 shows the breakdown of the amounts recorded in this account.

7

8

Table 9.3: Pole Attachment Revenue Variance

Date	Number of Poles	Total Invoice Amount	Total Approved in OEB Rates	Total Variance Amount
Sept – Dec 2018	6,511	56,663	45,085	(11,579)
Jan – Dec 2019	6,601	259,219	132,790	(126,429)
Jan – Dec 2020	6,601	263,934	132,790	(131,144)
Jan – Dec 2021	6,601	264,479	132,790	(131,689)
Jan – Dec 2022	6,601	207,885	132,790	(75,095)
Total Principal as of December 31, 2022				(475,934)
Total Interest through April 30, 2024				(44,088)
Total Disposition Request				(520,022)

9

10 For account 1508 – Pole Variance, WDI is requesting disposition of the December 31, 2022, audited
11 balance (adjusted for approved dispositions in 2023), plus forecasted interest through April 30, 2024.
12 The balance requested for disposal, including carrying charges is a credit of \$520,022.

13

14 **1508 – Customer Choice**

15 On September 8, 2020, the OEB adopted final amendments to the Standard Supply Service Code
16 (SSSC), to come into force on October 13, 2020, which enabled electricity consumers on the
17 Regulated Price Plan (RPP) to opt out of time-of-use prices and elect instead to be charged on the
18 basis of tiered pricing.

19

1 As a result of this initiative, WDI required an upgrade to its Harris NorthStar Customer Information
2 System (CIS). This account records incremental costs directly attributable to the CIS upgrade.

3
4 For account 1508 – Customer Choice, WDI is requesting disposition of the December 31, 2022,
5 audited balance (adjusted for approved dispositions in 2023), plus forecasted interest through April
6 30, 2024. The balance requested for disposal, including carrying charges is a debit of \$16,134. This
7 variance can be attributed to software implementation costs to accommodate the Customer Choice
8 Initiative.

9
10 **1509 – COVID-19 Revenues from Postponing Rates**

11 On March 25, 2020, the OEB released an accounting order to establish deferral accounts to record
12 impacts arising from the COVID-19 emergency. Due to COVID-19, WDI postponed updating its May
13 1, 2020, rates until November 1, 2020. The lost revenue from delaying the rate increase was therefore
14 tracked in 1509 – COVID-19 Revenues from Postponing Rates. As per Rate Order EB-2019-0070,
15 WDI collected the foregone revenue in a rate rider, which ended up as an over-collection of \$1,856
16 (see section 2.9.1.6 for additional details).

17
18 For account 1509, WDI is requesting disposition of the December 31, 2022, audited balance (adjusted
19 for approved dispositions in 2023), plus forecasted interest through April 30, 2024. The balance
20 requested for disposal, including carrying charges is a credit of \$1,845.

21
22 **Accounts Not Requested for Disposition**

23 The OEB's policy states that at the time of rebasing, all account balances should be disposed of
24 unless otherwise justified by the distributor or as required by a specific OEB decision or guideline. In
25 accordance with this policy, WDI proposes to dispose of all of its DVA balances except for the
26 following:

- 27
- 28 • **Disposition and Recovery/Refund of Regulatory Balances 2018** – this was approved by
29 the OEB on a final basis in WDI's 2022 IRM proceeding (EB-2021-0061).
 - 30 • **Disposition and Recovery/Refund of Regulatory Balances 2019** – this was approved by
31 the OEB on a final basis in WDI's 2023 IRM proceeding (EB-2022-0066).

- 1 • **Disposition and Recovery/Refund of Regulatory Balances 2020** – this was approved by
- 2 the OEB on a final basis in WDI's 2023 IRM proceeding (EB-2022-0066).
- 3 • **Disposition and Recovery/Refund of Regulatory Balances 2021** – this has time periods
- 4 that have not expired per the applicable OEB decision.
- 5 • **Disposition and Recovery/Refund of Regulatory Balances 2022** – this has time periods
- 6 that have not expired per the applicable OEB decision.

8 **Forecasted Carrying Charges**

9 The forecasted interest on the December 31, 2022, principal balances of the DVA's is calculated using
10 the OEB's prescribed rate of 4.73% for the period January 1, 2023 to March 31, 2023, 4.98% for the
11 period April 1, 2023 to September 30, 2023, and 5.49% for the period October 1, 2023 to April 30,
12 2024.

13

14 **Group 2 Accounts to be Continued or Discontinued on a Go-Forward Basis**

15 Table 9.4 below lists all Group 2 Accounts which WDI proposes to continue or discontinue on a go-
16 forward basis.

17

1 **Table 9.4: Group 2 Continuance/Discontinuance**

Description	USoA	Continue/ Discontinue	Explanation
Energy East	1508	Discontinue	No activity
OEB Cost Assessment	1508	Continue	Ongoing until December 31, 2023. For 2024, WDI has proposed that the current cost of Cost Assessments are built into the Revenue Requirement and proposes to continue tracking variances in 2024 and beyond.
Pole Attachment Variance	1508	Continue	Same as above
Customer Choice	1508	Discontinue	No activity
COVID-19 Revenues from Postponing Rates	1509	Discontinue	No activity
PILs and Tax Variance sub-account CCA Changes	1592	Discontinue	Will no longer claim the Accelerated CCA beyond December 31. 2022.

2
 3 **DVA Continuity Schedule Model**
 4 WDI has filed the 2024 DVA Continuity Schedule Workform in this COS application, which includes
 5 the continuity schedules for all DVA accounts.

6
 7 WDI confirms that all Group 1 and Group 2 balances reconcile to the balances reported in Section
 8 2.1.7 of WDI’s 2022 RRR proceeding. WDI acknowledges that the variances reported in Tab 2a and
 9 Tab 2b of the continuity schedule model are due only to classification issues and are explained in Tab
 10 3 of the model.

11
 12 WDI confirms that the customer counts and metered kWh and kW in Tab 4. Billing Determinants of
 13 the DVA Continuity Schedule Model are consistent with Load Forecast data in Exhibit 3 and Cost of
 14 Power Data in Exhibit 2.

15

1 **Energy Sales & Cost of Power Balances**

2 In Table 9.5, WDI provides a breakdown of energy sales and cost of power (COP) expenses, as
 3 reported in both the 2022 Audited Financial Statements and Section 2.1.7 of WDI's 2022 RRR
 4 proceeding.

5
6

Table 9.5: Energy Sales and Cost of Power Expenses Reconciled

USoA	Description	Audited Financial Statement Balance	2022 RRR Filing Balance
4006	Residential Energy Sales	11,282,582	11,282,582
4025	Street Lighting Energy Sales	74,664	74,664

2.9.1.1 Accounts 1588 & 1589

WDI confirms that it prorates the Independent Electricity System Operator (IESO) Global Adjustment Charge into the RPP and Non-RPP portions and that the Global Adjustment Charge is only being applied to customers that are Non-RPP.

1 On February 21, 2019, the OEB issued a letter entitled Accounting Guidance to Accounts 1588 Power,
2 and 1589 RSVA Global Adjustment. The guidance was effective January 1, 2019, and was to be
3 implemented by August 31, 2019. WDI confirms that it has complied with this guidance and that the
4 transactions recorded in the general ledger reflect the changed process.

5
6 Account 1588 and Account 1589 were last approved for disposition, on a final basis, in WDI's 2023
7 IRM proceeding (EB-2022-0066).

8 9 **2.9.1.2 Disposition of Account 1580, Sub-account CBR Class B Variance**

10 As discussed previously in this Exhibit, WDI is requesting disposition of the December 31, 2022,
11 audited balance (adjusted for approved dispositions in 2023), plus forecasted interest through April
12 30, 2024. The balance requested for disposal, including carrying charges is a credit of \$19,815.

13 14 **2.9.1.3 Disposition of Account 1595**

15 WDI is not requesting disposition of any 1595 account balances. As indicated in the OEB Chapter 2
16 Filing Guidelines dated December 15, 2022, distributors are eligible to seek disposition of the residual
17 balances two years after the expiry of the rate rider. Provided below is a summary of WDI's 1595
18 accounts:

- 19
20
- 21 • **Disposition and Recovery/Refund of Regulatory Balances 2018** – this was approved by
22 the OEB on a final basis in WDI's 2022 IRM proceeding (EB-2021-0061).
 - 23 • **Disposition and Recovery/Refund of Regulatory Balances 2019** – this was approved by
24 the OEB on a final basis in WDI's 2023 IRM proceeding (EB-2022-0066). WDI would like to
25 note that the 2022 IRM Proceeding (EB-2022-0066) approved a final disposition on interest
26 charges of \$275 based on the projected interest calculated in the 2022 IRM Proceeding. The
27 actual interest WDI incurred was \$157, therefore, as the difference was immaterial, WDI
28 cleared the account to \$0 using a disposition amount of \$157.
 - 29 • **Disposition and Recovery/Refund of Regulatory Balances 2020** – this was approved by
30 the OEB on a final basis in WDI's 2023 IRM proceeding (EB-2022-0066).
 - 31 • **Disposition and Recovery/Refund of Regulatory Balances 2021** – this has time periods
that have not expired per the applicable OEB decision.

- 1 • **Disposition and Recovery/Refund of Regulatory Balances 2022** – this has time periods
2 that have not expired per the applicable OEB decision.

3
4 **2.9.1.4 Disposition of Retail Service Charges Related Accounts**

5 WDI confirms that it does not have balances in Accounts 1518 – Retail Cost Variance Account – Retail
6 and 1548 – Retail Cost Variance Account – STR and is therefore not seeking disposition of either of
7 these accounts.

8
9 **2.9.1.5 Disposition of Account 1592, PILs and Tax Variance & Sub-Account CCA**
10 **Changes**

11 **PILS and Tax Variance**

12 In WDI's 2023 IRM proceeding (EB-2022-0066), WDI noted that the shared tax amounts approved in
13 its 2019, 2020, 2021 and 2022 IRM proceedings plus carrying charges totaled a credit amount of
14 \$4,910 has been recorded in Account 1595 (2020). WDI proposed that this credit amount and the
15 shared tax credit amount of \$7,140 calculated for 2023 be transferred to the Account 1595 (Tax
16 Sharing) sub-account and held in this sub-account until its next rate application.

17
18 In its submission in EB-2022-0066, OEB staff agreed with WDI's calculated 2023 tax decrease as well
19 as its proposal to share \$7,140 with ratepayers. However, OEB staff did not agree with WDI's proposal
20 to transfer the 2019 to 2022 approved shared tax amounts to an Account 1595 (Tax Sharing) sub-
21 account. OEB staff noted that was no such generic sub-account and that in its decision and rate order
22 for WDI's 2019, 2020, and 2022 IRMs applications, the OEB directed WDI to transfer the shared tax
23 amounts to the Account 1595 sub-account for that rate year as the tax sharing amounts in each of
24 those years did not produce a rate rider to the fourth decimal place in one or more rate classes.

25
26 OEB staff submitted that the 2019 to 2022 approved shared amounts along with the 2023 shared tax
27 amount should be transferred to Account 1595 (2023) for regulatory efficiency and ease of accounting
28 administration.

29

1 In addition, OEB staff calculated the 2019 to 2022 approved shared tax amount to be a credit amount
2 of \$5,341 plus carrying charges and submitted that WDI should review and transfer the correct 2019
3 to 2022 shared tax amounts plus carrying charges to Account 1595 (2023).

4
5 In its reply to submission, WDI confirmed that the shared tax amounts for 2019 to 2022 was a credit
6 amount of \$5,341 plus carrying charges of \$231, for a total credit of \$5,572. WDI stated that this
7 amount, and the 2023 amount of \$7,140 would be moved to Account 1595 (2023), totalling \$12,712.
8 WDI requested that the OEB approve the Shared Tax Adjustment of a credit of \$12,712.

9
10 The OEB approved the 2023 tax sharing refund of \$7,140. The OEB also directed WDI to transfer the
11 total shared tax amount for 2019 to 2023 for a credit amount of \$12,712 to Account 1595 (2023).
12 WDI confirms that the total credit amount of \$12,712 has been transferred to Account 1595 (2023).
13 WDI also confirms that future amounts relating to PILs, and tax variances will be recorded in Account
14 1592 – PILs and Tax Variance.

15
16 **Sub-Account CCA Changes**

17 On July 25, 2019, the OEB released a letter “Accounting Direction Regarding Bill C-97 and Other
18 Changes in Regulatory or Legislated Tax Rules for Capital Cost Allowance” stating that for increased
19 transparency the OEB is establishing a separate sub-account specifically to track the impact of
20 changes in CCA rules. Electricity distributors are to use this sub-account for the impact of the Bill C-
21 97 CCA rule changes as well as any future CCA changes instituted by relevant regulatory or taxation
22 bodies. WDI has complied with the direction provided in that letter by recording the impacts of CCA
23 rule changes introduced in Bill C-97 as part of this application.

24
25 WDI acknowledges the OEB’s long-standing practice concerning the impact of changes in taxes due
26 to regulatory or legislated tax changes during an incentive rate-setting period has been to share the
27 impacts between Utility shareholders and ratepayers on a 50/50 basis and that utilities should not
28 expect that this practice will necessarily apply with respect to the CCA rule changes, and
29 determinations as to the appropriate disposition methodology will be made at the time of each Utility’s
30 cost-based application.

31

1 WDI has reflected on the impacts of Bill C-97 in its calculation of PILs for the 2024 Test Year and as
2 a result, does not intend to record amounts related to Bill C-97 in the future.

3
4 WDI submits that the impacts on tax rates underpinning WDI’s 2024 PILs include the phase-out of
5 accelerated CCA beginning in 2023.

6
7 WDI is requesting that this account be closed and that no disposition is required.

8
9 For support of the 2022 Schedule 8 undepreciated capital cost continuity, please see Appendix 6 (B).
10 Appendix 9 (C) includes the accelerated CCA calculations for 2018 through 2022 and present value
11 calculations.

12
13 The balance calculated has resulted in a future tax liability of \$149,986 as of December 31, 2022.
14 Table 9.6 below provides the year-by-year calculation.

15
16 **Table 9.6: Account 1592 – PILS and Tax Variances – CCA Changes**

1592 PILS CCA	2018	2019	2020	2021	2022
CCA – Deferred Tax Impact	0	29,049	29,713	34,657	56,571
Cumulative CCA Impact	0	29,046	58,758	93,415	149,986

17
18 WDI acknowledges that based on the calculations provided in this application. A future tax liability of
19 \$149,986 exists, subject to recovery of a similar tax rate through rates because of WDI applying the
20 accelerated CCA methodology, and this would eventually be recovered from the ratepayers. However,
21 this recovery will occur over many years. Considering this fact, WDI has calculated the Present Value
22 (PV) of the future tax liability to be \$82,672, as shown on tab PV Calculations of Appendix 9 (C). WDI
23 submits that applying a PV methodology is just and reasonable.

24
25 In accordance with Chapter 2 Filing Requirements 2.9.1.5 the treatment of this sub-account may
26 depend on the PILs treatment from a distributor’s last cost of service application.

1 In support of WDI’s proposed approach, that Account 1592 does not require disposition and that there
 2 should be no amount owing to ratepayers, WDI would like to highlight the fact that in its 2016 COS
 3 Application (EB-2015-0107), WDI included an investment tax credit of \$12,500 for Scientific Research
 4 and Experimental Development (SRED) claims. This tax credit never materialized and WDI’s
 5 ratepayers have benefited since 2016, from reduced rates that have resulted in a benefit of \$133,272.
 6 The \$133,272 is greater than the PV of the future payback of \$82,672 over the same rate-setting
 7 period.

8
 9 Moreover, as mentioned in Exhibit 6 section 2.6.2.1, WDI’s actual PILs paid per year have been
 10 \$64,472 to \$195,816 greater than what was approved in WDI’s 2016 rate application for recovery,
 11 equating to approximately \$801,452 benefit to customers between 2016 and 2022, as shown in the
 12 table below.

13
 14 **Table 9.7: Year-over-year PILs Variance to 2016 Board Approved Recovery Amount**

	Approved 2016	Actual 2016	Actual 2017	Actual 2018	Actual 2019	Actual 2020	Actual 2021	Actual 2022
Grossed up PILs	57,457	190,365	194,565	253,273	121,929	132,026	132,018	179,475
Variance to Approved		132,908	137,108	195,816	64,472	74,569	74,561	122,018
Total Variance to 2016 Approved								801,452

15
 16 **2.9.1.6 Disposition of Account 1509 Impacts Arising from the COVID-19 Emergency**

17 As outlined in the Board letter dated March 25, 2020, the OEB approved several sub-accounts for
 18 distributors to record the incremental costs associated with the COVID-19 Pandemic. Specifically, the
 19 Board directed distributors to establish 1509 sub-accounts for:

- 20
 21 • Sub-account: Costs associated with billing and system charges
 22 • Sub-account: Lost revenues
 23 • Sub-account: Other Costs
 24 • Sub-account: Forgone revenues from postponing rate implementation

- 1 • Sub-account: Bad Debt

2
3 In March 2020, the Ontario government declared a state of emergency in response to the COVID-19
4 Pandemic. The COVID-19 Pandemic affected economies, business, and individuals locally, as well
5 as around the globe. As a result, distributors incurred additional costs to comply with health and safety
6 protocols, enable remote work for staff, and deal with changing customer circumstances.

7
8 In 2020, WDI established sub-account 1509 – Forgone Revenues from Postponing Rate
9 Implementation. This account was created per the decision of Rate Order EB-2019-0070, issued by
10 the OEB on October 8, 2020, which allowed WDI to implement its May 1, 2020, rate increases on
11 November 1, 2020. As a result, a total \$44,416 in foregone revenue was recognized on November 1,
12 2020, and was subsequently recorded in account 1509 – COVID-19 Revenues from Postponing
13 Rates. Furthermore, WDI immediately began collecting this revenue through approved rate riders as
14 per Rate Order EB-2019-0070. This resulted in WDI over-collecting a total of \$1,856, however, with
15 carry charges and projected interest until April 30, 2024, the total credit balance is \$1,845.

16
17 As the balance that was over collected is not material, and is owed back to customers, WDI did not
18 complete an ROE-based means test.

19
20 WDI will not incur any further costs in respect to Account 1509 – COVID-19 Revenues from
21 Postponing Rates and proposes discontinuation of the account.

22 23 **2.9.1.7 Disposition of Account 1508 Sub-account Pole Attachment Revenue** 24 **Variance**

25 As outlined in the Board letter dated July 20, 2018, the OEB approved a variance account for
26 distributors that do not have an OEB-approved distributor-specific pole attachment charge.
27 Specifically, the Board directed distributors to establish a new sub-account of 1508 – Pole Attachment
28 Revenue Variance.

29
30 WDI is requesting disposition of a total credit amount of \$520,023 relating to account 1508 – Pole
31 Attachment Revenue Variance.

1 **2.9.1.8 Disposition of Distributor-Specific Accounts**

- 2 WDI confirms that it does not have balances in any distributor-specific accounts and is therefore not
3 seeking disposition of these accounts.

1 **2.9.2 Establishment of New Deferral and Variance Accounts**

2

3 WDI is requesting the following new deferral/variance accounts:

4

- 5 • **Account 1595 – Disposition and Recovery/Refund of Regulatory Balances 2024 –**
6 Effective until April 30, 2025. Upon approval of disposition, WDI is requesting Board approval
7 to establish Account 1595 – Disposition and Recovery/Refund of Regulatory Balances 2024
8 to track costs, revenues and interest for amounts disposed of in this COS proceeding.
- 9 • **Account 1595 – Recovery of GA Rider 2024 –** Effective until April 30, 2025. Upon approval
10 of disposition, WDI is requesting Board approval to establish Account 1595 – Recovery of GA
11 Rider 2024 to track costs, revenues and interest for amounts disposed of in this COS
12 proceeding.

1 **2.9.3 Lost Revenue Adjustment Mechanism Variance Account**

2

3 **2.9.3.1 Disposition of Lost Revenue Adjustment Mechanism Variance Account**

4 WDI is not requesting the disposition of any Lost Revenue Adjustment Mechanism Variance Account
5 (LRAMVA) amounts in this COS proceeding, as per the OEB’s findings in WDI’s 2023 IRM proceeding
6 (EB-2022-0066):

7

8 “The balance in Wasaga Distribution’s LRAMVA is now zero, and no further entries to the
9 LRAMVA are necessary. The OEB finds that the current LRAMVA balance of a credit of \$329
10 is immaterial and does not warrant disposition. The LRAMVA will not be discontinued, if
11 Wasaga Distribution requests the use of the LRAMVA for a CDM activity in a future application,
12 which the OEB will consider on a case-by-case basis.”

1 **2.9.4 Appendices**

- 2 Appendix 9 (A) DVA Continuity Schedule
- 3 Appendix 9 (B) 2022 GA Analysis Workform
- 4 Appendix 9 (C) 2018-2022 1592 Accelerated CCA

1 **Appendix 9 (A) DVA Continuity Schedule**

- 2 WDI has filed the DVA Continuity Schedule separately in excel format as Exhibit 9, Appendix 9 (A):
- 3 2024 DVA Continuity Schedule, specifically tabs 2-A and 2-B.

1 **Appendix 9 (B) 2024 GA Analysis Workform**

2 WDI has filed the 2024 GA Analysis Workform separately in excel as Exhibit 9, Appendix 9 (B): 2024

3 OEB GA Analysis Workform.

4

1 **Appendix 9 (C) 2018-2022 1592 Accelerated CCA**

2 WDI has filed the 2018-2022 Accelerated CCA and Present Value Calculation separately in excel as

3 Exhibit 9, Appendix 9 (C): 2018-2022 1592 Accelerated CCA.

4
