Dear Ms. Marconi:

**Subject: Electricity Distribution Licence No. ED-2002-0556  
2024 Electricity Distribution Rate Application (EB-2023-0032) - Revision related to  
Drycore Transformer Charges**

On November 13, 2023, Hydro Ottawa Limited (“Hydro Ottawa”) submitted an update (“RTSR Update”) to its 2024 annual electricity distribution rate application to incorporate updated sub-transmission rates from Hydro One. As part of this update, Updated Drycore transformer charges were submitted.

Hydro Ottawa has since discovered that one drycore transformer size was omitted from the submitted versions of Attachment 8-7-1 (A) - Drycore Calculations. As a result, Hydro Ottawa has revised the excel file to include the missing transformer size and associated rate calculations; no other values were changed. The following attachment has been submitted:

- Revised RTSR Update Attachment 8-7-1(A): Drycore Calculations

Please do not hesitate to contact me if you require anything further.

Yours truly,
