Daliana Coban
Director, Regulatory Applications & Business Support
Toronto Hydro-Electric System Limited
14 Carlton Street
Toronto, ON M5B 1K5
RegulatoryAffairs@TorontoHydro.com

Dear Ms. Coban:

**Re: Toronto Hydro-Electric System Limited (Toronto Hydro)
2025-2029 Custom Rate Application for Electricity Distribution Rates and
Charges
OEB File Number: EB-2023-0195**

Further to the Ontario Energy Board's (OEB) acknowledgment letter dated November 20, 2023, the OEB has completed its preliminary review of your 2025 Cost of Service application and notes that Toronto Hydro has not filed the following items, which are required under the OEB's *Chapter 2 Filing Requirements for Electricity Distribution Rate Applications – 2023 Edition for 2024 Rate Applications*:

- Revenue Requirement Work Form and analysis for revenues for the Bridge Year, 2024
- Detailed calculations of PILs, including the PILs model for years 2026 to 2029. These are required as Toronto Hydro is proposing a Custom IR framework that proposes consideration of revenue requirement for each of these years.
- Supporting documentation to reflect the accelerated CCA amounts and amounts tracked in Account 1592

The OEB understands that Toronto Hydro is working to meet the OEB's requirements in this regard and has therefore decided to commence its review of Toronto Hydro's application and proceed with its Notice of Hearing. Given that the OEB has commenced its review of the application, the OEB requires Toronto Hydro to file the above items by **January 8, 2024**. If the noted information is not filed by **January 8, 2024**, the OEB will

stop processing Toronto Hydro's application and place the application in abeyance, until such time as the missing information is filed.

Please direct any questions relating to this application to Case Manager, Thomas Eminowicz, at thomas.eminowicz@oeb.ca.

Yours truly,

Nancy Marconi
Registrar
