Families and businesses are struggling. All these structures and raises imply that the wealthy corporate minority are being raised from us paying. My father used to say: who needs all that money. Take a cut and grow the middle and lower classes you will see less payment defaults. I oppose this hike as it will hurt society at small and large. I am 62 and older, more alert than a lot of younger people. Please with these hikes you will cut your noses in spite of your faces.
