Hi,

I am strongly against Toronto Hydro increasing, yet again, its prices, either be for consumption rates or delivery rates. Toronto Hydro has been already squeezing consumers' necks since I have been living in Canada (15 years) without providing any improvement on service. All this with also providing the worst customer service of any company in Ontario. I have the lowest opinion of Toronto Hydro and I firmly believe they are lying thieves. Electricity prices should go down, with all the infrastructure they already have; not up. I hope and pray the OEB doesn't allow this Toronto Hydro application to go through.

Thank you.
