I diswith the increase. Since the pandemic, everything has gone up. Gas, food, water, utilities, internet and cellphones. We can expect a slight increase but not be gauged. 50% of people can't afford to eat they are going to food banks. And you are hitting them with more increases. No wonder there are more homeless people. Toronto is creating this disaster. Help the people freeze increases. Until jobs are more stable and people are back on their feet. This is not the time to take more from people when they can afford any more.
Thank you for your time.
