Dear Ms. Marconi:

**Re: Toronto Hydro-Electric System Limited (“Toronto Hydro”)
Application to Finalize 2024 Electricity Distribution Rates and Charges
OEB File No. EB-2023-0054 – Rural or Remote Rate Protection Charge Update**

Further to Toronto Hydro’s cover letter and submissions dated December 11, 2023, the utility is filing two bill impact models, one showing the Rural or Remote Rate Protection (“RRRP”) charge variance from 2023 to 2024 and one keeping the RRRP constant for the same time period. Toronto Hydro’s custom version of the OEB’s Incentive Rate-Setting Mechanism Rate Generator Model is not impacted by the change to the RRRP.

Please contact me directly if you have any questions.

Respectfully,
