Dear Mr. Vetsis:

Re: EB-2023-0014 Ellexicon Energy Inc - Application for 2024 Rates

The Ontario Energy Board (OEB) provided a draft Decision and Rate Order and a draft Tariff of Rates and Charges in relation to the above-noted proceeding on November 27, 2023. In its comments on the drafts, Ellexicon Energy Inc.(Ellexicon Energy)noted the following comments:

1. On page 9 of 9 of the Whitby Rate Zone ("WRZ") Tariff the Notice of Switch Letter charge has not been updated for the 4.8% inflation factor. The charge on the Tariff should be \$2.34 (not \$2.23) consistent with the WRZ IRM Rate Generator Model and the Veridian Rate Zone Tariff.
2. On the Whitby Rate Zone Tariff, Ellexicon notes that for each rate class the reference to the Rate Rider for Recovery of Z Factor – Capital Cost is missing the word 'order' at the end and should read: "effective until the effective date of the next cost of service-based rate order".

The OEB accepts the recommended changes listed above.

Please note that in addition to the above accepted required modifications, OEB also adjusted the Rural or Remote Electricity Rate Protection Charge (RRRP) from 0.0007 to 0.0014

The OEB has now issued a final Decision and Rate Order, together with a final Tariff of Rates and Charges. Copies of these documents are enclosed with this letter.

Yours truly,

Nancy Marconi
Registrar
