Dear Ms. Marconi:

Re: OEB File No: EB-2023-0195, Toronto Hydro-Electric
System Limited ("Toronto Hydro") 2025-2029
Custom Rate Application For Electricity Distribution Rates
and Charges

I am writing this letter of protest to you today because the matter at caption only came to my attention today in my email inbox.

As a residential customer of Toronto Hydro, I am of the view that my current hydro bill is much too high because of the high electricity distribution rates that are currently implemented.

I am horrified to learn now that Toronto Hydro has applied to the OEB for an increase in those rates.

As a poor person earning less than \$90,000 per year, I will be unable to afford paying for electricity if such distribution rates are increased.

P.T.O.

I am also unable to afford the cost of properly challenging the Toronto Hydro's application, and I am confident that the OEB's processes will be such that Toronto Hydro's application will be successful.

Poor people like myself do not have the time and money to stop this injustice from happening.

This is just to let you know that by allowing Toronto Hydro's application to go through, the OEB is contributing towards inflation and poverty.

Thank you, and have a Happy Holiday season.

Poor Customer.
