**AFFIDAVIT OF JULIE LEE**

**I, Julie Lee, of the City of Stouffville, MAKE OATH AND SAY AS FOLLOWS:**

1. I am employed as a Senior Regulatory Coordinator in the Regulatory Affairs Division of the Applicant, Hydro One Networks Inc. ("Hydro One").
2. In accordance with paragraph 1 of the Ontario Energy Board's **EB-2023-0197** Letter of Direction (the "Letter"), dated December 8, 2023, the Applicant conducted a search of title forthwith, sufficient to determine the current registered property owners and encumbrancers with lands or interest in the lands directly affected by the proposed construction of the transmission line and related facilities.
3. In accordance with paragraph 2, subsections a. through g., of the Letter, the Notice in English and French, and the Application (**Exhibit "A"**) were served on each specified individual group by email or courier. Where an email address was available, an electronic copy of the Notice in English and French, and the Application was provided. A copy of the email correspondence is attached as **Exhibit "B"**. A copy of the courier manifest and Post office registration receipts is attached as **Exhibit "C"**.

4. In accordance with paragraph 3 of the Letter, the English and French versions of the Notice; and the Application and Evidence were placed on Hydro One’s website for public review. A copy is attached as **Exhibit “D”**.

The Notice and the Application and Evidence can be found at the following website:

**EB-2023-0197 – Hydro One Networks Inc. (“Hydro One”) Leave to Construct Application – K4 Reconductoring Project – Notice**

Hydro One Networks Inc. (“Hydro One”) has applied to the Ontario Energy Board (“**OEB**”) for an Order or Orders granting leave to refurbish the existing transmission line K4 (“**K4 Transmission Line Refurbishment Project**” or “**K4 Project**” or the “**Project**”) between Kirkland Lake TS and Matachewan JCT.

You are receiving the attached Notice as you have been identified as either a registered property owner/encumbrancer or you are the representative of a group/agency for which Hydro One has been directed by the OEB to send this Notice. You can send the OEB a letter with your comments, which will be considered during the hearing; or you can ask the OEB for permission to be an intervenor in the hearing. If you wish to be an intervenor, the OEB must receive your request by **January 23, 2024**.

Hydro One Networks Inc. Leave to Construct Application – K4 Reconductoring Project – Application and Evidence documents, including the Notice, can be found at the following link:

## ONTARIO ENERGY BOARD

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998*;

**AND IN THE MATTER OF** an Application by Hydro One Networks Inc. pursuant to s. 92 of the *Ontario Energy Board Act, 1998* (the “Act”), for an Order or Orders granting leave to refurbish the existing transmission line K4 (“**K4 Transmission Line Refurbishment Project**” or “**K4 Project**” or the “**Project**”) between Kirkland Lake TS and Matachewan JCT.

**AND IN THE MATTER OF** an Application by Hydro One Networks Inc. pursuant to s. 97 of the Act for an Order granting approval of the forms of the agreement offered or to be offered to affected landowners.

### APPLICATION

1. The Applicant is Hydro One Networks Inc. (“Hydro One”), a subsidiary of Hydro One Inc. The Applicant is an Ontario corporation with its head office in the City of Toronto. Hydro One carries on the business, among other things, of owning and operating transmission facilities within Ontario.
2. Hydro One hereby applies to the Ontario Energy Board (“OEB” or the “Board”) pursuant to s.92 of the Act for an Order or Orders granting leave to refurbish approximately 10.0 km of 115 kV transmission line section spanning between Kirkland Lake TS and Structure #82, towards Matachewan JCT, located in the municipality of Kirkland Lake. An overview map of this area is provided at **Exhibit C, Tab 2, Schedule 1, Attachment 1** and a single line diagram of the Project can be found at **Exhibit B, Tab 2, Schedule 1, Attachment 1**.
3. The K4 Transmission Line Refurbishment Project will ensure the circuit’s serviced area, and customers connected by it, continue to receive a safe and

1 reliable supply of electricity. Additionally, the K4 Project will reduce line losses,  
2 as the 115 kV conductor selected by Hydro One to complete the Project is  
3 predicated on Hydro One's commitment to minimize transmission losses where  
4 feasible in a cost-effective manner. Further information regarding the  
5 transmission line losses analysis for this Project is provided in **Exhibit B, Tab 5,**  
6 **Schedule 1.**

7  
8 4. The proposed in-service date for the K4 Project is the end of October 2024,  
9 assuming a construction commencement date of April 2024, assuming OEB  
10 approval by April 2024. The Project Schedule is provided in **Exhibit B, Tab 11,**  
11 **Schedule 1.**

12  
13 5. Hydro One is also seeking approval in this Application of the forms of agreement  
14 offered or to be offered to facilitate the establishment of additional permanent  
15 rights for the K4 circuit, where necessary. Additionally, should the need arise,  
16 temporary construction rights for access or staging areas may be required for the  
17 duration of the construction period of the Project. Further information on Land  
18 Related matters is found in **Exhibit E, Tab 1, Schedule 1.**

19  
20 6. As at the date of filing, Hydro One still requires permanent land right agreements  
21 for two privately owned properties. The first property belongs to a gold mining  
22 company who is also a transmission connected customer via the K4 circuit. A  
23 voluntary agreement is expected to be reached with that company, as indicated  
24 by the property owner's letter of support<sup>1</sup>. For the second property, the same gold  
25 mining company, holds a majority registered ownership interest<sup>2</sup> in the property  
26 and the remaining minority interest<sup>3</sup> is held by persons that are deceased and  
27 where no heir/s or next of kin have been identified through reasonable efforts by  
28 Hydro One, including the performance of legal searches. Hydro One's intention is

---

<sup>1</sup> Exhibit E, Tab 1, Schedule 1, Attachment 10.

<sup>2</sup> Approximately 90%.

<sup>3</sup> Approximately 10%.

1 to work towards a solution that would enable it to acquire an easement over this  
2 property, so the Project can be completed. The process Hydro One will  
3 undertake to achieve this is described in further detail in **Exhibit E, Tab 1,**  
4 **Schedule 1.**

5  
6 7. The 10.0 km section of transmission line, as described above in paragraph 2,  
7 requires replacement as it has been assessed as having reached the end of its  
8 useful life due to the presence of obsolete copper conductor and deteriorated  
9 structures, and having experienced outages resulting from asset failures.  
10 Accordingly, this Project has been identified as a non-discretionary sustainment  
11 project, as outlined in **Exhibit B, Tab 4, Schedule 1.**

12  
13 8. The Project is subject to the Class EA for Minor Transmission Facilities (Hydro  
14 One, 2022), an approved planning process under the Ontario *Environmental*  
15 *Assessment Act*. The Class EA planning process applies to transmission  
16 infrastructure projects that are carried out routinely and have predictable  
17 environmental effects that can be readily managed. Based on the examples  
18 provided in the Class EA document, this Project was deemed eligible to be  
19 screened contingent on satisfying the applicable 16 EA screening criteria. On  
20 May 9, 2023, Hydro One advised the Ministry of the Environment, Conservation  
21 and Parks that it had met the applicable 16 screening criteria.

22  
23 9. The IESO has completed an SIA. The SIA concludes the Project is expected to  
24 have no material adverse impact on the integrated power system's reliability. The  
25 IESO's final SIA is provided in **Exhibit F, Tab 1, Schedule 1, Attachment 1.**

26  
27 10. As documented in the draft<sup>4</sup> CIA, filed at **Exhibit G, Tab 1, Schedule 1,**  
28 **Attachment 1,** no directly connected customers are expected to be adversely  
29 affected by this Project. The Project will have no material impact on the network

---

<sup>4</sup> A final CIA is expected to be filed within three weeks of the submission of this Application.

1 connection pool rate or on the overall average Ontario consumer's electricity bill.  
2 Therefore, Hydro One concludes that this Project will not adversely affect  
3 customers in any material way. Hydro One will fulfill all requirements of the SIA  
4 and the final CIA, and will obtain all necessary approvals, permits, licences,  
5 certificates, agreements and rights required to construct the Project.

6

7 11. The forecast total cost of the transmission line facilities for which Hydro One is  
8 seeking approval is approximately \$13.9 million, of which \$12.9M is expected to  
9 be added to Hydro One's transmission rate base, and the balance being \$1.0M  
10 of removal costs. The details pertaining to these costs are provided in **Exhibit B,**  
11 **Tab 7, Schedule 1, Table 1.** The Project economics, as filed in **Exhibit B, Tab**  
12 **9, Schedule 1,** show that the Project will result in no impact in the network  
13 connection pool rate and no impact on the overall average Ontario consumer's  
14 electricity bill.

15

16 12. Project costs included in Hydro One's OEB-approved revenue requirement  
17 application filing, are outlined in **Exhibit B, Tab 10, Schedule 1.** This Application  
18 is not seeking any new Deferral Accounts.

19

20 13. The Application is supported by written evidence that includes details of the  
21 Applicant's proposal for the transmission line. The written evidence is pre-filed  
22 and may be amended from time to time prior to the Board's final decision on this  
23 Application.

24

25 14. Given the information provided in the pre-filed evidence, Hydro One submits that  
26 the Project is in the public interest. The Project meets the need of the  
27 transmission system and improves quality of service and reliability with no  
28 material price impact on ratepayers.

29

30 15. Given the immaterial impact on ratepayers and the nature of the rationale for  
31 Hydro One seeking to refurbish these end-of-life facilities, Hydro One is

1 consenting that this proceeding be disposed of without a hearing pursuant to  
2 section 21(4) of the OEB Act. A summary of the reasons that support this  
3 specific request, including references to the evidence throughout the Application,  
4 is provided in **Appendix A** to this Exhibit.

5

6 16. Hydro One requests that a copy of all documents filed with the Board be served  
7 on the Applicant and the Applicant's counsel, as follows:

8

9 **a) The Applicant:**

10 Carla Molina  
11 Sr. Regulatory Coordinator  
12 Hydro One Networks Inc.

13

14 Mailing Address: 7th Floor, South Tower  
15 483 Bay Street  
16 Toronto, Ontario M5G 2P5  
17 Electronic access: [Regulatory@HydroOne.com](mailto:Regulatory@HydroOne.com)

18

19 **b) The Applicant's Counsel:**

20 Monica Caceres  
21 Assistant General Counsel  
22 Hydro One Networks Inc.

23 Mailing Address: 8th Floor, South Tower  
24 483 Bay Street  
25 Toronto, Ontario M5G 2P5

26 Telephone: (647) 505-3341

27 Fax: (416) 345-6972

28 Electronic access: [monica.caceres@hydroone.com](mailto:monica.caceres@hydroone.com)

1 **APPENDIX A**

2 **Hydro One's Basis for Requesting No Hearing for this s.92 Application**

3  
4 Hydro One provides the following summary of evidence in support of its request that the  
5 Application be adjudicated without a hearing as follows:

6  
7 1. The SIA concludes that the Project is expected to have no material adverse impact  
8 on the reliability of the integrated power system, provided that all requirements in the  
9 SIA report are implemented (**Exhibit F, Tab 1, Schedule 1 Attachment 1**).

10  
11 2. The CIA results confirm that the Project will not have any adverse effect on the  
12 voltage in the area and will improve the supply reliability to the area (**Exhibit G, Tab**  
13 **1, Schedule 1, Attachment 1**).

14  
15 3. There will be no impact on customer rates (**Exhibit B, Tab 9, Schedule 1**).

16  
17 4. Although there are two privately held properties that Hydro One requires new land  
18 rights in order to accommodate the proposed transmission facilities, Hydro One  
19 believes it is still appropriate to move forward in the manner requested as:

20  
21 a) The registered owner of the first property is a gold mine (the "Gold Mine  
22 Company"). Hydro One has received a letter from the Gold Mine Company  
23 which states its support for the Project and has committed to provide rights  
24 over *properties* it owns in a timely manner to facilitate the timeline of the  
25 proposed project<sup>5</sup> (**Exhibit E, Tab 1, Schedule 1, Attachment 10**); and;

26  
27 b) The second property has multiple owners registered on title, including the  
28 Gold Mine Company, which owners hold the property as Tenants in  
29 Common. The Gold Mine Company holds a 90% interest in the property and

---

<sup>5</sup> Exhibit E, Tab 1, Schedule 1, Attachment 10.

1 has committed to provide rights to the *properties* it has rights to for the K4  
2 Project, as noted in the above section. The remaining 10% of the property is  
3 registered amongst four individuals with varying ownership percentages.  
4 Hydro One has established through reasonable efforts and investigations that  
5 these individuals representing the 10% ownership interest in title are persons  
6 who are presumed to be deceased and no heir(s) or next of kin have been  
7 identified. The property does not appear to be inhabited (i.e., there is no  
8 evidence of buildings or other structures on the land and appears to be  
9 vacant), and thus, Hydro One does not believe there will be any impact, such  
10 as displacement to property owners. In addition, Hydro One will assist the  
11 Gold Mine Company with an application to the Ministry of Mines under the  
12 *Mining Act* to address a transfer of the 10% ownership interest to the Gold  
13 Mine Company. (**Exhibit E, Tab 1, Schedule 1**).

This page has been left blank intentionally.

## Hydro One Networks Inc. has applied for approval to refurbish a high-voltage transmission line near Kirkland Lake

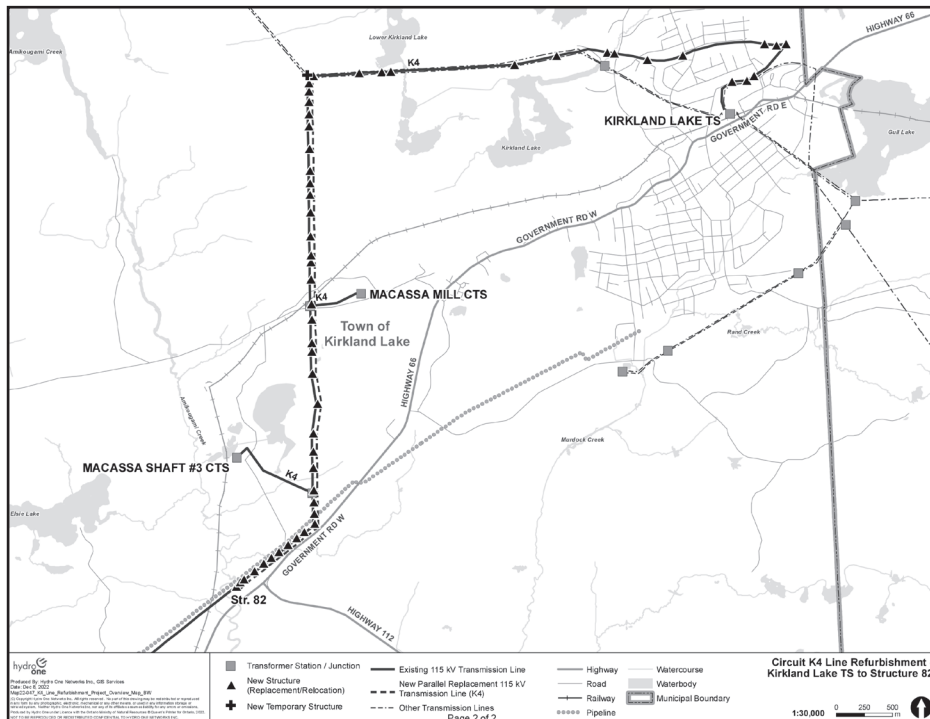

The application seeks:

- Permission to refurbish ~10 kms of an existing 115 kilovolt electricity transmission line between Kirkland Lake TS and Matachewan JCT.
- Approval of the forms of agreement Hydro One Networks Inc. will offer affected landowners for routing or construction of the proposed line.

**The OEB hearing is not the only approval process required before a line is refurbished.**

Environmental issues, or issues related to the Crown's duty to consult Indigenous peoples, are not part of the OEB's review unless there is a direct impact on price and the reliability and quality of electricity service.

**A map of the transmission line to be refurbished is provided below:**

### YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has requested that the application be adjudicated without a hearing, however the OEB plans to proceed with a written hearing. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as Intervenor. After the hearing, we will decide whether to approve the application.

### HAVE YOUR SAY

You have the right to information about this application and to participate in the process. Visit [www.oeb.ca/notice](http://www.oeb.ca/notice) and use file number **EB-2023-0197** to:

- Review the application
- Apply to become an intervenor
- File a letter with your comments

### IMPORTANT DATES

You must engage with the OEB on or before **January 23, 2024** to:

- Provide input on the hearing type (oral, electronic or written)
- Apply to be an intervenor

If you do not, the hearing will move forward without you, and you will not receive any further notice of the proceeding.

### PRIVACY

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. If you are a business or if you apply to become an intervenor, all the information you file will be on the OEB website.

## Hydro One Networks Inc. a demandé l'autorisation de remettre à neuf une ligne de transport d'électricité à haute tension près de Kirkland Lake

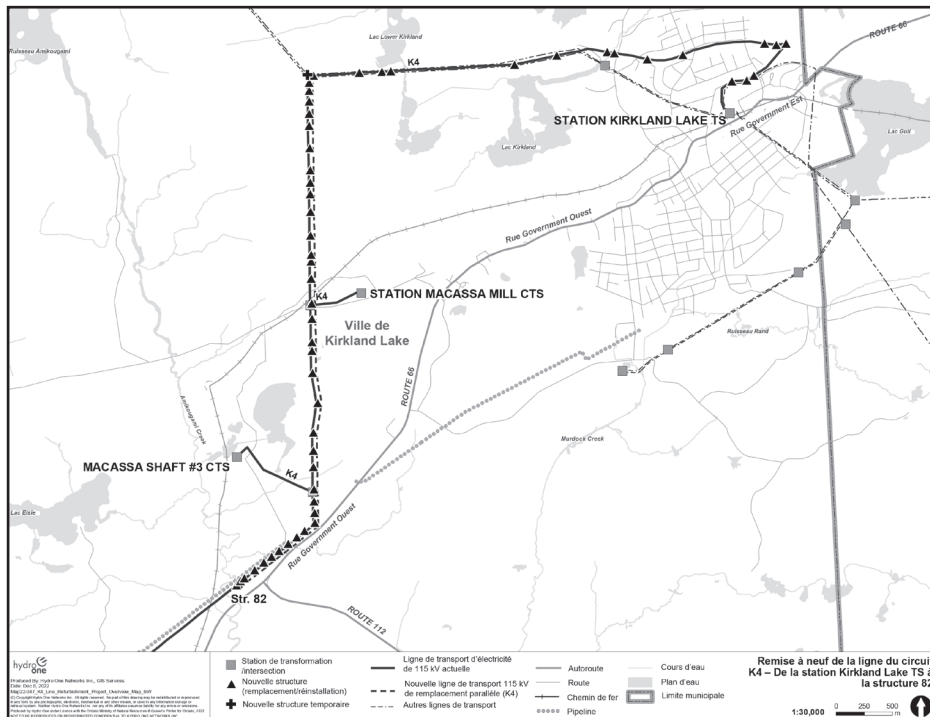

La demande vise l'obtention de ce qui suit.

- La permission de remettre à neuf environ 10 km d'une ligne de transport d'électricité de 115 kilovolts entre la station Kirkland Lake TS et la station Matachewan JCT.
- L'approbation des formulaires d'entente que proposera Hydro One Networks Inc. aux propriétaires fonciers afin d'utiliser temporairement leurs terres pour le tracé ou la construction de la ligne proposée.

**L'audience de la CEO n'est pas la seule procédure d'approbation requise avant la remise à neuf d'une ligne.**

Les questions liées à l'environnement ou à l'obligation de la Couronne de consulter les populations autochtones ne font pas partie de l'examen de la CEO, sauf si elles ont un effet direct sur le prix ainsi que sur la fiabilité et la qualité du service d'électricité.

**Ci-dessous se trouve une carte de la ligne de transport à remettre à neuf.**

### À SAVOIR

Il existe trois types d'audiences à la CEO : les audiences orales, les audiences électroniques et les audiences écrites. Le requérant a demandé que la demande soit jugée sans audience, mais la CEO prévoit de procéder à une audience écrite. Si vous estimez qu'avoir recours à un autre type d'audience serait préférable, vous pouvez nous écrire pour présenter vos arguments.

Au cours de l'audience, nous entendrons les questions et les arguments des participants sur cette affaire. Nous entendrons également les questions et les arguments des participants inscrits en tant qu'intervenants. Après l'audience, nous déciderons d'approuver ou non la demande.

### DONNEZ VOTRE AVIS

Vous avez le droit d'être informé au sujet de cette demande et de participer au processus. Visitez le site [www.oeb.ca/notice](http://www.oeb.ca/notice) et utilisez le numéro de dossier **EB-2023-0197** pour :

- Examiner la demande
- Présenter une demande pour devenir un intervenant
- Envoyer une lettre comportant vos commentaires

### DATES IMPORTANTES

Vous devez communiquer avec de la CEO au plus tard le **23 janvier 2024** pour :

- Fournir des renseignements sur le type d'audition (orale, électronique ou écrite)
- Présenter une demande en vue de devenir un intervenant

À défaut de cela, l'audience se déroulera sans vous et vous ne recevrez plus d'avis dans le cadre de la présente procédure.

### PROTECTION DES RENSEIGNEMENTS PERSONNELS

Si vous écrivez une lettre de commentaires, votre nom et le contenu de cette lettre seront ajoutés au dossier public et au site Web de la CEO. Si vous êtes une entreprise ou si vous demandez à devenir un intervenant, tous les renseignements que vous déposez seront disponibles sur le site Web de la CEO.

## Ontario Energy Board Applications

> [abouthydroone](#) > [RegulatoryInformation](#) > [oebapplications](#)

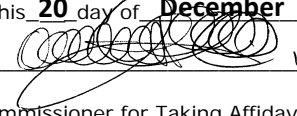

We research, prepare, and submit applications to the Ontario Energy Board (OEB) related to rates, projects, acquisitions and operations. The OEB in turn reviews and questions the applications on behalf of the public interest.

### COPIES OF ALL APPLICATIONS BELOW CAN BE VIEWED AT:

Hydro One Networks Inc. | Regulatory Affairs  
Attn: Carla Molina | 416-345-5317  
[RegulatoryAffairs@HydroOne.com](mailto:RegulatoryAffairs@HydroOne.com)  
483 Bay Street | 7th Floor, South Tower | Toronto, ON M5G 2P5

### EB-2023-0197 – Hydro One Networks Inc. Leave to Construct s.92 Application - K4 Reconductoring Project

- [Application and Evidence](#) filed with the OEB November 13, 2023
- [Notice of Hearing](#) issued by the OEB December 8, 2023 (aussi disponible [en français](#))

This is Exhibit "D" to the Affidavit of  
Julie Lee. Sworn before  
me this 20 day of December, 2023
