Dear Ms. Marconi:

Re: EB-2023-0360 - PUC (Transmission) LP (“PUC Transmission”) and Hydro One Sault Ste. Marie Limited Partnership (“HOSSM”) Leave to Construct Application - PUC Transmission Project and HOSSM Station Project Confirmation of FIPPA Compliance

Pursuant to section 92 of the *Ontario Energy Board Act, 1998* (the “**Act**”) PUC Transmission and HOSSM have applied to the Ontario Energy Board (“OEB”) for an Order or Orders granting leave to construct transmission facilities in the Sault Ste Marie area. PUC Transmission is seeking approval of the construction of a new 230 kV transformer station and 10 km of new 230 kV transmission line.

PUC Transmission confirms that the documents filed in support of the referenced application do not include any personal information under the *Freedom of Information and Protection of Privacy Act (Ontario)*.

An electronic copy of this letter has been filed through the OEB’s Regulatory Electronic Submission System.

Yours truly,
