Andrew, it occurs to me listening to the proceeding this morning that your witnesses may not be in a position on Thursday to answer questions relating to the purpose of the Port Colborne transaction, and the actual negotiations and analysis at the time including the comparison of a lease to a purchase. If they are, that is great. If they are not, I would appreciate it if you would ask them to inform themselves by talking with those actually involved in the deal. Even better, it would be good if you could have a witness who was directly involved in the analysis and discussions at the time. I expect to be asking questions relating to the underlying concept of, and assumptions in, the deal, and knowledge of what transpired at the time will be important.

Thank you.

Jay
