Re: Board file # EB-2008-0002 (Sarnia Airport Gas Storage Pool)
Request for intervenor status

Yesterday morning I received via DHL Express from Mr. Redford copies of - A) the initial three pages of a 28 December 2007 application by Market Hub, on behalf of Sarnia Airport Storage Pool Ltd. Partnership, to Ontario Energy Board for authority to create the captioned gas storage pool and B) six-page Notice of Applications by Ontario Energy Board dated February 14 stipulating how interested parties might participate in the proceedings. This is the first formal notice I have received on this matter since CanEnerco Ltd. withdrew its application RP-1999-0050 in 2000.

I hereby request intervenor status because: 1) in 1981 while acting as consultant to Bluewater Oil and Gas I was instrumental in the discovery of the subject pool, 2) for these services I was assigned an overriding royalty interest in the amount of 2.5 percent in all PNG leases, these assignments being duly recorded in Sarnia, and 3) I expect to seek recovery from the applicant for my share of the fair market value of residual gas reserves. I prefer to participate in writing and would appreciate receiving copies of all documents pertaining to geometry and remaining gas reserves as well manner of compensation. In addition, please provide copies of Schedules A, B and C not received with above item A and any other existing documents applicable to my stated interest.

Respectfully submitted,

Robert L. Williams
