ONTARIO ENERGY BOARD

Dear Ms. Wynne,

At the regular council meeting of April 22, 2014, Essex Town Council discussed the alarming increase in electricity rates within the province. These increases will make it difficult for our businesses to remain competitive in a global environment and overburden our residents financially.

On behalf of all Ontarians, the Council would like to express their concerns on this matter and urge the province to investigate an energy source from other alternatives in an effort to create cheaper energy; and that the cost effectiveness of such electricity also take into account the longer term impacts on the environment and sustainability.

Yours truly,

A handwritten signature in blue ink that reads "Cheryl A. Bondy".
