Dear Mr. McAllister:

**Re: InnPower Corporation (InnPower)  
2024 Cost of Service Application  
Ontario Energy Board File Number: EB-2023-0033**

The Final Rate Order for InnPower Corporation's 2024 Cost of Service Application was Issued on December 14, 2023, which included InnPower's Tariff of Rates and Charges (referred to below as the tariff).

On February 12, InnPower notified the OEB that they identified an error in the rate riders that were included in tariff for the Sentinel Lighting class. In EB-2022-0043 Decision and Order (page 10), the OEB approved the disposition of a rater rider for the Sentinel rate class over a two-year period as part of its 2023 IRM application (sunset date of December 31, 2024). When the tariffs were drafted as part of the Settlement Proposal in this application the Sentinel Lighting rate rider was not included inadvertently.

Pursuant to the OEB's powers under Rule 41.01 of the *OEB's Rules of Practice and Procedure*, the OEB may at any time initiate a review of one of its decisions or orders, and may confirm, vary, suspend or cancel the order or decision.

The OEB has amended the Final Rate Order to reflect the correct tariff for the Sentinel Lighting class. The revised Final Rate Order with the corrected tariff is attached. This revised Final Rate Order supersedes and replaces the previously issued Final Rate Order. The Final Rate Order does not change the OEB's findings, nor any of the dates

in the previous Rate Order. In correcting the tariff, the OEB does not find it necessary that other documents filed in the proceeding, such as the Settlement Proposal, be revised. The only change contained in the Final Rate Order is the addition of the two rate riders approved in EB-2022-0043.

Yours truly,

Nancy Marconi  
Registrar
