Dear Ms. Marconi:

**Re: Ontario Energy Board (OEB) Staff Submission
Synergy North Corporation
2024 Cost of Service Application
OEB File Number: EB-2023-0052**

Synergy North Corporation submitted a revised Settlement Proposal on February 18, 2024, correcting some errors in the OEB Tariff and Bill Impact Model. This was related to the August 1, 2023 Tariff sheet and a rate rider grouping error in the Tariff and Bill Impact Model excel files.

OEB staff has reviewed the amendments made in the revised Settlement Proposal. The amendments do not raise any material or substantive issues what would cause OEB staff to require an opportunity to respond and, accordingly, OEB staff does not require an opportunity to amend the submission it filed on January 15, 2024.

OEB staff notes that, as a result of this update to the OEB Tariff and Bill Impact Model, a typical residential customer with a monthly consumption of 750 kWh would see a total bill (including Taxes and Ontario Energy Rebate) decrease of \$2.51 (-1.94%) in the Kenora rate zone and increase of \$2.75 (2.19%) in the Thunder Bay rate zone.

Yours truly,
