Dear Ms. Marconi:

**Re: Lagasco Inc.  
Application for a Limited Certificate of Public Convenience and Necessity  
Haldimand County  
Ontario Energy Board File No. EB-2023-0344**

Further to our letter dated February 27, 2024 regarding the request for an extension of the procedural dates in this proceeding and the letter submitted February 28, 2024 by Lagasco, Enbridge Gas offers the following comments.

Lagasco has requested that the remaining procedural steps be suspended until Lagasco has had an opportunity to file a letter in response to Enbridge Gas' February 27, 2024 letter. At this time, it is unclear to Enbridge Gas why the current procedural schedule would need to be suspended (other than to allow the time extension requested by Enbridge Gas) since, pursuant to the steps set out by Procedural Order No. 1, Lagasco will already have an opportunity to respond to Enbridge Gas' submissions.

Pursuant to Procedural Order No. 1, the remaining procedural steps are the filing of written submissions by OEB staff and Enbridge Gas and then the filing of a reply submission by Lagasco. It is not clear what other reply submissions Lagasco is suggesting that would be in addition to (and that would be warranted in light of) the procedural steps already in place.

As mentioned in our February 27, 2024 letter, Enbridge Gas is in discussions with Proplant to better understand the details of their required service and prepare an offer of service that meets these requirements. While customer-specific information exchanged with Proplant during these discussions is considered confidential, Enbridge Gas intends to provide enough information in its next submission to allow the OEB to understand the parameters of the service being offered and the related costs.

Should you have any questions on this submission, please do not hesitate to contact me.

Yours truly,
