Enbridge Gas Inc.

Application for leave to construct natural gas pipeline and associated facilities in the Town of East Gwillimbury with potential pipeline sections in the Township of King, Town of Georgina, and Town of Whitchurch-Stouffville

PROCEDURAL ORDER NO. 1 March 1, 2024

Enbridge Gas Inc. (Enbridge Gas) applied to the Ontario Energy Board (OEB) on November 28, 2023, under sections 90 and 97 of the *Ontario Energy Board Act*, 1998, for an order granting leave to construct natural gas pipeline in the Town of East Gwillimbury with potential pipeline sections in the of Township of King, Town of Georgina, and Town of Whitchurch-Stouffville (Project).

Enbridge Gas proposed to construct the Project in two phases. Phase 1 consists of approximately 8.5 kilometres of nominal pipe size (NPS) 2-inch distribution pipeline and approximately 80 meters of NPS 4-inch distribution pipeline. Phase 2 consists of approximately 18.6 kilometres of NPS 2-inch distribution pipeline and 10.2 kilometres of NPS 4-inch distribution pipeline and 10.2 kilometres of NPS 4-inch distribution pipeline and 10.2 kilometres of NPS 4-inch distribution pipeline and 20.2 kilometres distribution pipeline and 20.2 kilometres

Enbridge Gas has also applied to the OEB for approval of the form of land-use agreements it offers to landowners for the routing and construction of the Project.

In addition, Enbridge Gas applied for approval under section 8 of the Municipal Franchises Act for new certificates of public convenience and necessity for the Town of East Gwillimbury and the Township of King.

A Notice of Hearing was issued on January 11, 2024. Each of Environmental Defence (ED), Federation of Rental-housing Providers of Ontario (FRPO) and Pollution Probe applied for intervenor status and cost eligibility.

Enbridge Gas filed a letter dated February 6, 2024, informing the OEB that it does not object to the intervention of ED, FRPO and Pollution Probe and their cost eligibility requests.

ED, FRPO and Pollution Probe are approved as intervenors. The list of parties in this proceeding is attached as Schedule A to this Procedural Order. ED, FRPO and Pollution Probe are eligible to apply for an award of costs under the OEB's <u>Practice</u> <u>Direction on Cost Awards</u>.

Cost eligible intervenors should be aware that the OEB will not generally allow the recovery of costs for the attendance of more than one representative of any party unless a compelling reason is provided when cost claims are filed.

Request for Confidentiality

Enbridge Gas has requested confidential treatment for personal information in the Environmental Report (Exhibit F/Tab 1/Schedule 1/Attachment 1) and in the Landowner List (Exhibit G/Tab 1/Schedule 1/Attachment 3).

The OEB has reviewed Enbridge Gas's request for the redaction of personal information. The OEB finds that the redacted information in the Environmental Report (Exhibit F/Tab 1/Schedule 1/ Attachment 1) and in the Landowner List (Exhibit G/Tab 1/Schedule 1/ Attachments 3) is personal information as defined in the Freedom of Information and Protection of Privacy Act (FIPPA) and the OEB's <u>Practice Direction on Confidential Filings</u>. Therefore, the information regarding property owners shall remain redacted and shall not be provided to the intervenors in this proceeding.

Filing of Intervenor Evidence

In its letter of intervention, ED stated that it wished to file evidence in this proceeding and requested the opportunity to provide a full description and cost estimate for the proposed evidence after the OEB has rendered a decision on ED's proposed evidence in other ongoing Enbridge Gas expansion cases.¹

The OEB notes that in the four other ongoing Enbridge Gas community expansion proceedings, the OEB recently issued decisions that, amongst other things, addressed ED's requests to file evidence in those proceedings. In the noted decisions, the OEB denied ED's requests to file heat pump evidence and survey evidence.²

The OEB will provide ED an opportunity to file a letter that indicates whether it proposes to file evidence in the current proceeding and if so, provides a full description and cost estimate of that evidence. The OEB will also provide OEB staff, intervenors and Enbridge Gas the opportunity to file submissions with respect to the proposed evidence and an opportunity for ED to reply to those submissions, as necessary.

Interrogatories

At this time, provision is being made for written interrogatories. In preparing their interrogatories, parties should refer to the OEB's <u>standard Issues List</u> for natural gas leave to construct applications. Parties should not engage in detailed exploration of items that do not appear to be material. In making its decision on cost awards, the OEB will consider whether intervenors made reasonable efforts to ensure that their participation in the hearing was focused on material issues.

Parties should consult sections 26 and 27 of the OEB's <u>Rules of Practice and</u> <u>Procedure</u> regarding required naming and numbering conventions and other matters related to interrogatories.

Technical Conference

ED and FRPO stated that they may request that the OEB make provision for a technical conference following the receipt of interrogatory responses.

The OEB will make its determination on the request for a technical conference after the responses to interrogatories have been filed. OEB staff and intervenors may file comments on the need for a technical conference in accordance with the schedule set out in this Procedural Order. Enbridge will have the opportunity to respond to those comments.

It is necessary to make provision for the following matters related to this proceeding. Further procedural orders may be issued by the OEB.
