Issues:

SEC is materially impacted by utility cost of capital parameters and deemed capital structure, which result in costs paid by its members through their electricity (distribution, transmission, and OPG payment amounts) and natural gas rates.

Policy Interests:

N/A

Hearings:

The OEB has indicated that it plans to have an oral hearing. SEC agrees that this would be appropriate.

Evidence:

SEC may file expert evidence either on its own, or more likely, in conjunction with other consumer groups. We will make a determination on whether to seek to file expert evidence as the OEB provides further direction regarding the specific issues, and process for the generic proceeding. Due to the nature of a generic proceeding where there is no application, we ask that the OEB provide sufficient time from the issuance of the initial Procedural Order to the date for intervenors to seek leave to file evidence.

Coordination with Other Intervenors:

SEC will coordinate with other intervenors with similar interests, where appropriate, to promote responsible participation in the proceeding.

Cost Awards:

SEC applies for recovery of its costs reasonably incurred in the course of its intervention in this matter. SEC's members are customers of the Applicant and eligible for an award of costs pursuant to section 3.03(a) of the Practice Direction. SEC has participated in many past natural gas and electricity proceedings in Ontario, including consultations, rate cases, and other processes and hearings, and has been found eligible to be paid its reasonably incurred costs in all of those proceedings.

Language Preference:

N/A
