Ms. Nancy Marconi  
Registrar  
Ontario Energy Board  
2300 Yonge Street, 27<sup>th</sup> Floor  
Toronto, ON M4P 1E4

Dear Ms. Marconi,

**Re: Lagasco Inc.'s (Lagasco) Application for a Limited Certificate of Public Convenience and Necessity (Application) Requests for Extension from Enbridge Gas Inc. (EGI) and Lagasco Ontario Energy Board File Number: EB-2023-0344**

Thank you for the opportunity to review the recent correspondence from EGI received last week and to discuss this somewhat sudden gas supply response and offer to our prospective shared customer, Proplant.

Lagasco is of the view that this new information from EGI, which has come to the attention of Proplant, itself and the Board is of sufficient interest and importance to the overall evaluation of the Application for gas supply options to Proplant, that it merits additional exploration at the level that the Board usually expects of parties to proceedings to provide at an early stage.

Respectfully, Lagasco, with the support of Proplant, is requesting that the Board consider allowing for another round of interrogatories at a minimum from Lagasco to EGI to clarify what is being offered to Proplant to service its existing and proposed facilities. Proplant has indicated to Lagasco that it is supportive of understanding the details of this newly received gas supply option, and equally, Lagasco would like an opportunity to explore the EGI offer and its underpinnings. This is especially important as Proplant is currently involved in a power procurement competition before the IESO and must be certain of its participation and the costs involved.

Thank you again for the opportunity to provide the Board and EGI with Lagasco's thoughts on how this limited hearing process may advance to serve the best and priority interests of ratepayers and Proplant. A further interrogatory round will assist in fulfilling the public record, in the public interest.

Yours faithfully,
