Issues:

Pollution Probe represents a consumer and policy interest related to the methodology for determining the values of the cost of capital parameters and deemed capital structure to be used to set rates for electricity transmitters, electricity distributors, natural gas utilities, and Ontario Power Generation Inc. The values of the cost of capital parameters and deemed capital structure are core components of utility rates and directly impact the approved rate recovery for all activities pursued by those utilities. Pollution Probe intends to participate in all aspects of this proceeding.

Policy Interests:

Pollution Probe represents a consumer and policy interest related to the methodology for determining the values of the cost of capital parameters and deemed capital structure to be used to set rates for electricity transmitters, electricity distributors, natural gas utilities, and Ontario Power Generation Inc. The values of the cost of capital parameters and deemed capital structure are core components of utility rates and directly impact the approved rate recovery for all activities pursued by those utilities. Pollution Probe intends to participate in all aspects of this proceeding.

Hearings:

Pollution Probe recommends a hybrid approach which provides the ability for oral hearing aspects as the OEB deems appropriate. This approach has been leveraged successfully by the OEB and provides suitable flexibility for all stakeholders.

Evidence:

At this time Pollution Probe does not intend to commission evidence. However, Pollution Probe may provide relevant materials to the OEB during the proceeding to enhance the public record.

Coordination with Other Intervenors:

Pollution Probe has been an active and valuable participant in OEB proceedings and will continue to coordinate its activities with impacted consumers, intervenors and other parties as appropriate.

Cost Awards:

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects. Without the prospect of an award of costs, Pollution Probe's ability to participate in this proceeding would not be possible.
