Dear Ms. Marconi:

**Re: PUC (Transmission) LP (“PUCTx”) and Hydro One Sault Ste. Marie
Application for Leave to Construct and Related Matters (“Application”)
OEB File No. EB-2023-0360**

On April 2, 2024, the Independent Electricity System Operator (“**IESO**”) issued the final System Impact Assessment Addendum Report (“**SIA Addendum**”), as well as the IESO Notification of Addendum of Conditional Approval to Connection Proposal (“**Addendum NoCA**”) for the new 230/155 kV PUCTx transformer station known as Tagona West TS. Both the SIA Addendum and NoCA are appended to this letter and are being filed in accordance with the OEB’s Guidance on Filing System Impact Assessment Reports issued on April 4, 2024.

At page 7, Exhibit B, Tab 1, Schedule 1, of the Application filed on January 26, 2024, PUCTx stated that it would file a copy of the SIA Addendum once it is received. The Addendum NoCA supplements the Notification of Conditional Approval provided at Exhibit F, Tab 1, Schedule 1, Attachment 2 of the Application.

We trust the foregoing is sufficient.

Yours truly,

BORDEN LADNER GERVAIS LLP
