Dear Ms. Marconi:

**Re: EB-2024-0063 - Generic Proceeding – Cost of Capital and Other Matters - Ontario Energy Association (“OEA”) Participation Request**

On March 6, 2024, the Ontario Energy Board (“OEB”) gave notice that it has commenced a Hearing on its own motion to consider the methodology for determining the values for the cost of capital parameters and deemed capital structure to be used to set rates for electricity transmitters, electricity distributors, natural gas utilities, and Ontario Power Generation Inc. The Hearing Notice also indicated that the OEB will also consider prescribed interest rates and other matters related to the OEB’s Cloud Computing Deferral Account.

This letter is to inform the OEB that OEA would like to confirm its intent to participate in the Generic Hearing Proceeding: EB-2024-0063 according to the OEB request that participants must inform the OEB by March 25, 2024. More specifically, the OEA will be participating on behalf of the CLD+ which, includes the following group of utilities: Alectra Utilities; Elexicon Energy Inc.; Enbridge Gas Inc.; Hydro One Networks Inc.; Hydro Ottawa; and Toronto Hydro.
