Dear Ms. Marconi:

Re: EB-2023-0336 – OPG MRP Impacts and DVAs

I am writing pursuant to *Procedural Order #1* to provide a time estimate for technical conference questions in the above matter. Environmental Defence anticipates 45 minutes of questions. Environmental Defence's questions will focus on issues 1 and 2:

1. Is the proposed Hydroelectric Surplus Baseload Generation Variance Account spill calculation methodology appropriate?
2. Is the proposed Hydroelectric Incentive Mechanism ("HIM") methodology and HIM adjustment for spill appropriate?

We anticipate follow up questions primarily relating to Environmental Defence interrogatories 2, 4, 8, and 10, and Staff interrogatory 23.

Yours truly,

Kent Elson
