Dear Ms. Pacione:

Re: EB-2023-0048 - PUC Distribution Inc. - Application for 2024 Rates

The Ontario Energy Board (OEB) provided a final Decision and Rate Order and a final Tariff of Rates and Charges in relation to the above-noted proceeding on March 21, 2024. On April 4, 2024, PUC Distribution Inc. (PUC Distribution) noted some revisions required to the Tariff of Rates and Charges.

1. Rate Rider for Embedded Generation Adjustment should be under the **'Regulatory Component'** for all Classifications – it was marked as 'B' in the Rate Generator file meaning that it should have been placed under the Regulatory Component section of the Tariff of Rates and Charges but did not present in this way on the stand-alone Tariff of Rates and Charges that was generated.
2. Rate Rider for Recovery of SSG Project (2024) was incorrectly categorized as \$/kWh but should be **\$/kW** for the GS>50, Sentinel Lighting and Street Light.

The OEB has now issued a revised final Tariff of Rates and Charges. A copy of this document is enclosed with this letter.

Yours truly,

Nancy Marconi
Registrar
