**Re: EB-2023-0019 –ERTH Power Corporation Application for 2024 Rates**

Dear Ms. Marconi,

ERTH Power has reviewed the draft decision and rate order related to ERTH Power's 2024 Price Cap IR Application.

ERTH Power has filed supporting calculations for the CBR Class B supplemental rate rider. Upon reviewing the calculation of the CBR Class B Supplemental rate rider it was discovered that the calculation included recovery over 12 months when in fact the CBR Class B rate rider in ERTH Power's 2023 rate decision was recovered over 24 months. ERTH Power has updated the CBR Class B supplemental rate rider calculation and ERTH Power Main's rate model tab 19. Additional Rates and has submitted along with this letter. Revised tariff sheets are also submitted for ERTH Main rate zone.

ERTH Power confirms the completeness and accuracy of the Goderich rate zone.
