Dear Ms. Marconi,

**Re: Enbridge Gas Inc. ("EGI")  
2024 Rebasing Application  
Board File Number: EB-2022-0200**

We are counsel to Three Fires Group Inc. ("**Three Fires**") in the above-noted proceeding (the "**Proceeding**"). Further to the Board's Procedural Order No. 8 dated April 16, 2024, please find enclosed Three Fires' Phase 1 total cost claim in respect of the Proceeding.

**Cost claim.** Three Fires respectfully requests an award of 100% of its eligible costs, given its strategic and principled participation in the Proceeding to date, reflecting the unique interests of otherwise unrepresented EGI customers and impacted Indigenous communities, including Chippewas of Kettle and Stony Point First Nation and Caldwell First Nation. Three Fires submits that this request is supported by the following considerations:

- (i) Three Fires has participated effectively in the Proceeding, taking a surgical, principled, and coordinated approach to matters related to the rights and concerns of affected First Nations and Indigenous communities and assisted in contributing to the Board's better understanding of such matters;
- (ii) Three Fires has ensured that its participation in the Proceeding has been focused on material issues and consistent with the scope of its intervention, as set out in its Notice of Intervention;
- (iii) Three Fires coordinated significantly with Ginoogaming First Nation to participate cost-effectively in order to limit overlap and efficiently advance issues of mutual interest; and
- (iv) Three Fires has participated responsibly and engaged with other intervenors and Board Staff to avoid overlap, maximize efficiency, and ensure that its participation was not unduly repetitive and was focused on relevant and material issues.

We trust that this approach has maximized the efficient use of resources and the right of otherwise unrepresented and important EGI customers to be heard in a manner that is consistent with the Board's mandate and statutory objectives.

**Total costs.** Please note that as part of the interim cost claim process, Three Fires was awarded and paid \$67,407.34. The below table sets out the total outstanding cost claims amount for Phase 1 of the Proceeding.

Phase 1 total cost claim amount	\$146,951.43
Phase 1 interim credit amount	\$67,407.34
Phase 1 outstanding cost claim amount (Total cost claim – interim payment)	<b><u>\$79,544.09</u></b>

Three Fires respectfully requests a full award of eligible interim costs.

Sincerely,

DT Vollmer

Don Richardson, Ph.D.

C.V. – Ontario Energy Board Experience

2024

Dr. Richardson has over 30 years of experience as a skilled facilitator supporting project implementation, impact assessments and building agreements between energy, infrastructure and resource management project proponents, community/non-governmental organizations, government agencies, and rural/Indigenous communities. He fosters constructive engagement to create shared value between communities and infrastructure proponents.

Dr. Richardson has appeared as a witness several times in various regulatory proceedings and has presented before the Ontario Energy Board on a number of occasions. As a consultant to Anwaatin Inc., he is an experienced intervenor before the Board, representing the interest of Indigenous communities. Dr. Richardson has a high level of familiarity with the Ontario Energy Board's practice directions, rules of practice and procedure, filing requirements and related administrative guidance.

On behalf of Anwaatin Inc., the Three Fires Group, Minogi Corp., and other parties Dr. Richardson has been active in representing various Indigenous interests before the Ontario Energy Board in a number of electricity and natural gas proceedings and consultations. Dr. Richardson has assisted Anwaatin and its First Nation clients in being a pioneer of distributed energy resource (DERs) initiatives before the Board and helped to achieve the first landed grid energy storage projects to improve poor electricity reliability in vulnerable Indigenous communities (see EB-2017-0355, Decision and Order, August 23, 2018 and EB-2017-0049, Decision and Order, March 7, 2019).

Dr. Richardson served as the represent of Anwaatin in the Ontario Energy Board's Framework for Energy Innovation: Distributed Resources and Utility Incentives consultation (Board File No.: EB-2021-0118), and was recently appointed as a representative of Anwaatin to the Reliability and Power Quality Working Group (Board File No.: EB-2021-0307). He is or was an active participant in, among others, the following Board proceedings: EB-2021-0002; EB-2021-0004; EB-2020-0194; EB-2020-0212; and EB-2020-0106. Dr. Richardson also recently served as a member of the Ontario Energy Board's Adjudicative Modernization Committee which considers best practices and approaches to adjudication that enhance the OEB's efficiency and effectiveness in delivering on its mandate to regulate Ontario's energy sector as required under provincial legislation. Dr. Richardson is also a member of the Independent Electricity System Operator's Transmission-Distribution System Working Group (TWDG).

Dr. Richardson has experience with several large scale and small scale energy infrastructure development projects, and energy regulatory and policy matters, working on behalf of First Nation governments across Ontario. He has extensive experience navigating the deployment, use, and integration of DERs as well alleviating energy poverty in and around Indigenous communities. He is also a recipient of the Canadian Urban Institute's Brownie Award recognizing outstanding achievement in building and maintaining effective working partnerships with professionals, the local community and others involved in Brownfields redevelopment, and a Consulting Engineers of Ontario, Canada Award for Indigenous Traditional Knowledge achievements.
