Ms. Nancy Marconi

Registrar

Ontario Energy Board

2300 Yonge Street, Suite 2700, P.O. Box 2319

Toronto, Ontario M4P 1E4

Dear Ms. Marconi:

**Re: EB-2024-0067 – Consultation to Review 2024 Annual Update to Five-Year
Natural Gas Supply Plan of Enbridge Gas Inc.**

We are writing on behalf of Environmental Defence to request participant status and costs eligibility in the above stakeholder conference.

Nature of Interest

Environmental Defence seeks participant status and costs eligibility as a leading environmental organization that represents both the public interest in environmental protection and the interests of consumers whose energy bills can be reduced through measures that lower both costs and environmental impacts.

Grounds for Eligibility and Need for Funding

Environmental Defence has been granted intervenor status, participant status, and costs eligibility in many proceedings before the Ontario Energy Board. Environmental Defence is eligible for an award of costs under section 3.03(a) and (b) of the Practice Direction on Costs Awards as it represents “an interest or policy perspective relevant to the Board’s Mandate,” including environmental protection, and the “direct interest of consumers” whose energy bills can be reduced through measures that lower both costs and environmental impacts.

Environmental Defence has no funding to participate in this process without an award of costs eligibility.

Scope of Participation

Environmental Defence wishes to participate in all aspects of the consultation and address important issues relating to this mandate, such as:

- The appropriateness of Enbridge's plans with respect to what it refers to as "responsibly sourced gas";
- The appropriateness of Enbridge's forecasting, and any impacts on gas supply planning;
- Potential impacts of gas supply planning on transmission or distribution capacity needs going forward;
- Whether Enbridge has appropriately considered the energy transition in gas supply planning; and
- Overall, whether the gas supply plan is reasonable and appropriate.

Counsel and Consultant

Environmental Defence's energy consultant is Jack Gibbons. Mr. Gibbons has over 35 years of experience with Ontario energy regulation and Ontario Energy Board matters. Environmental Defence's legal counsel are Kent Elson and Amanda Montgomery of Elson Advocacy. Mr. Elson has over a decade of experience acting in Ontario Energy Board matters. Ms. Montgomery has also acted in a number of Ontario Energy Board matters.

Environmental Defence's consultant and counsel have a long track record of providing highly relevant, responsible, and non-duplicative representation in Ontario Energy Board proceedings.

Environmental Defence is not at this time submitting a request for costs for separate expert submissions.

Further Details Regarding Environmental Defence

A. Mandate and Objectives of Environmental Defence

Environmental Defence has been working since 1984 to protect Canadians' environment and human health. Environmental Defence's mandate and objective is to challenge, and inspire change in government, business and people to ensure a greener, healthier and prosperous life for all. Its vision is to create a world Canadians are proud to pass on to their children.

B. Membership and Constituency

Environmental Defence is supported by many thousands of donors across the province and country. It sees its constituency as Canadians who are concerned about the environment and the legacy that we will pass on to our children.

C. Types of Programs and Activities that Environmental Defence Carries Out

Environmental Defence has been highly successful in its public interest advocacy on energy issues. Environmental Defence's environmental work, on issues ranging from toxic chemicals to clean beaches, has led to concrete improvements in the lives of Canadians. For example, the dangerous chemical Bisphenol A ("BPA") is now banned in baby bottles in Canada due to concerns first raised by Environmental Defence in 2007. For many years, Environmental Defence has participated in the federal government's Chemicals Management Plan.

Environmental Defence is also the coordinator of Blue Flag Canada, which certifies beaches so that Ontario families can enjoy this public resource. It also co-founded Blue Green Canada with the United Steelworkers, which promotes green energy initiatives that have positive employment and economic impacts.

Environmental Defence also publishes reports and guides in the area of energy conservation, efficiency, and policy. For example, it has created an interactive online tool to help energy consumers reduce their bills through energy efficiency initiatives. Some further publications include:
