Dear Ms. Marconi:

**Re: Enbridge Gas Inc. 2024 to 2028 Rates Application  
EB-2022-0200**

Enclosed please find the cost claim of Environmental Defence in this matter. Please note that Environmental Defence did not make a separate request for cost reimbursement for the intervenor conference held by Enbridge or submit an interim cost claim. This was done for administrative efficiency and simplicity. Therefore, all such costs are included in this one final cost claim.

In our submission, the costs requested by Environmental Defence are very good value for money in relation to its contribution to this proceeding. Environmental Defence commissioned two expert reports, one jointly with the Green Energy Coalition by the Energy Futures Group and one independently by Drs. Howarth and Jacobson. Environmental Defence also conducted a deep and detailed examination of Enbridge's evidence, including the report by Guidehouse, including 124 pages of interrogatories, successful motions to obtain information initially withheld by the applicant, and active participation in the technical conference and hearing. When faced with these detailed questions, Guidehouse found problems in its analysis, which, when corrected, swung the results by \$140 billion. Environmental Defence made detailed submissions, which addressed many issues in addition to the expert evidence it commissioned.

We therefore ask this claim be approved in full.

Yours truly,

Kent Elson

cc: Parties to the above proceeding
