I have resided in my present home for 20years, rural district of Thunder Bay.
I am pleased with my service and believe in fair rates and fair increases.
That being said , I am a public sector full time professional and try as we might, our salaries do not coincide with inflation what so ever.
My income is substantially worth less this year than 5 or more years ago due to all the increases for services etc.
I ask the board to give serious consideration to ensure this is indeed a necessary increase and not just about keeping the pockets of higher positions or stock holders lined, or to simplify their process while building a bigger monopoly on a utility, while heating our water and homes becomes even more expensive, especially in the North western part of the province.
Thank you for your time,
Beth Alkenbrack
