Hello,
Thank you for the information. I believe I am in the Union South region, meaning my average gas bill will increase \$10/month or \$120/year. Questions:

(1) How often do rates increase, is it yearly, or is this for all years of 2019-2023?

(2) I understood from our current Premier's platform that he wanted to lower utility rates. Do I understand correctly? If so, I suppose this never happened.

I was previously a consultant that work on such public information centers...

feel free to keep your responses brief or even just send an email link, I know your time is precious and responses are taxpayer funded.

Thank you!
Jesse
