Subject: EnPowered | Request for a license amendment for ER-2015-0138

To the Board Secretary,

EnPowered would like to make a request to amend its current electricity retail license, #ER-2015-0138.

At this time, EnPowered is an *Agent* in the Ontario market and it works with other retailers in the province. It would like to make a request to transition to a *Retailer*, allowing it to partake in the Retail Settlement Process and fulfill its own energy contracts.

We have attached an *Application for an Electricity Retail License* to help organize our information for the Board. As outlined on the OEB website, this application is being submitted via a written request addressed to the Board Secretary. Please do not hesitate to let us know if the Board would like additional information from EnPowered.

As per section 21(4)(b) of the Ontario Energy Board Act, 1998, EnPowered would also like to request that the proceeding be disposed of without a hearing. It is our belief that this shift from being an electricity agent to an electricity retailer will not adversely affect any consumers in the Ontario market. Indeed, from the consumers' perspective, this will not change how EnPowered operates in any manner whatsoever. The only impact will be in how the contracts are fulfilled between EnPowered and the market.

Sincerely,
Tomas

Note that you should find attached the following materials:

1. *Application for an Electricity Retailer License (completed as a Retailer not an Agent and not including payment as this is an amendment)*
